Society pressures people to conform. Conformity is encouraged; the norm is treasured above all else. However, in Vancouver College, students are encouraged to break the mould. The goal is to go beyond the normal, beyond the boring, beyond the expectations. Students are encouraged to explore themselves, to find their own potentials. Different students have different potentials in different fields; everyone has strengths and weaknesses. The strengths complement each other, and this fusion of abilities and talents brings success, truly making the whole greater than the sum of its parts.

The students of Vancouver College are one of a kind. Not only are they individuals with unique personalities, talents, and abilities, but they are also a class, a grade, a student body.

Every day, potentials are put on the line, tested, risked, in different areas and different events. Maximum potential cannot be achieved easily without risk, hardwork, and determination. Whether the football team reaches the provincial playoffs or mathematicians write national mathematics contests, talents and potentials are taken to the extremes. Potential is encouraged, nurtured, and transformed into gifts and talents. The potential becomes reality. Risks are presented, gambles are taken, and challenges are accepted.

Athletics and sports bring out the best of their participants. Leadership, camaraderie, and teamwork develop in the teams, and talents are magnified and enhanced. Practice and coaching sharpen and refine skills. Each member contributes to the team, and together everyone achieves more.

Academics are yet another field for students to excel. Together everyone is pushed to perform, to grow, to shine. Just like the other fields, everyone has strengths and weaknesses. One may find languages a challenge and sciences to be child's play, while another may discover just the opposite. Once again, students are encouraged to go beyond the normal, beyond the average; to be devils and to think, to analyse, and to criticize.

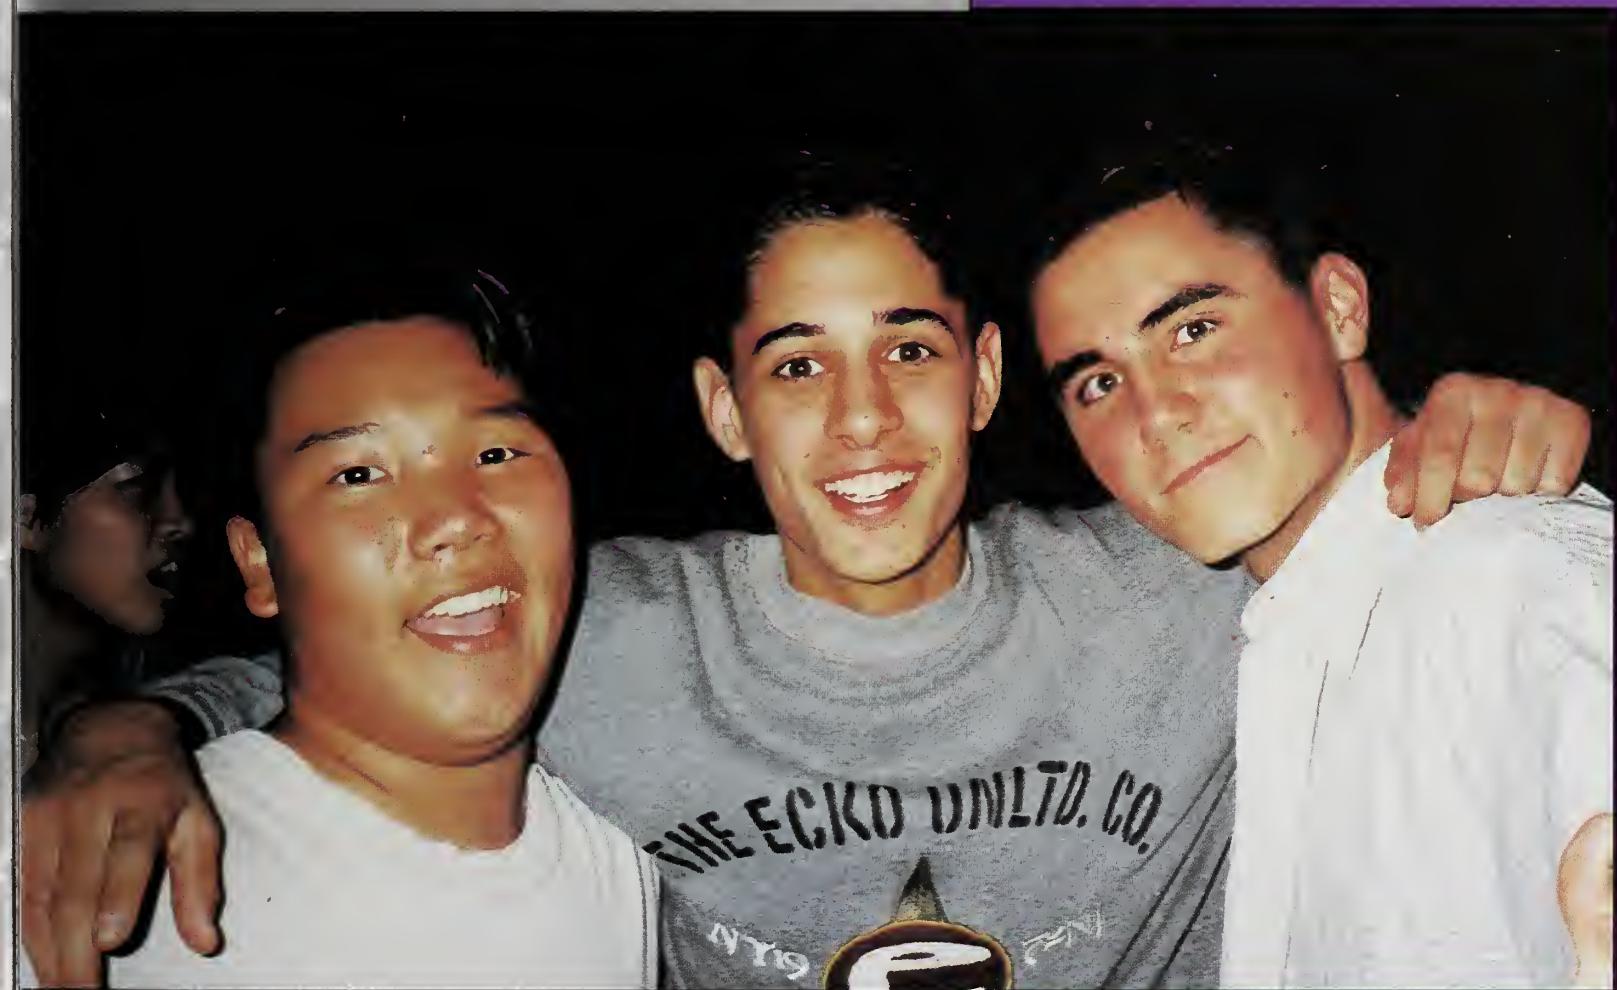

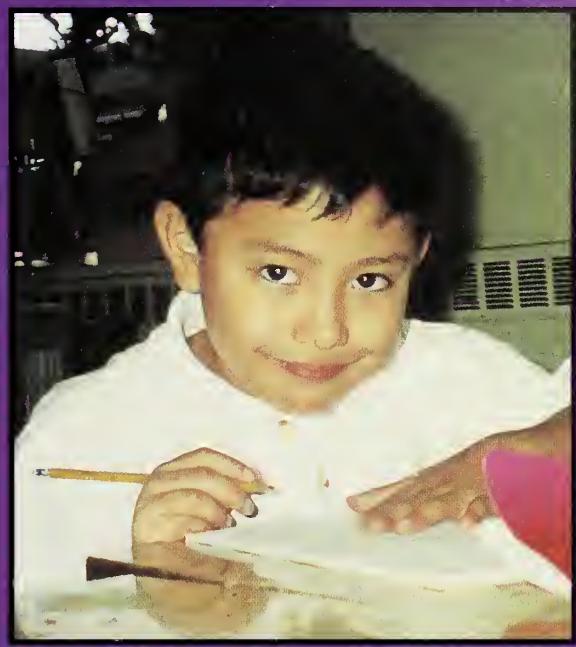

The arts present a wonderful opportunity for students to develop. A vast field occupied by many different disciplines, the arts encompass a whole slew of talents. Whether drawing, painting, writing, or performing, students explore themselves, find their potential, and exhibit it for the world to see.

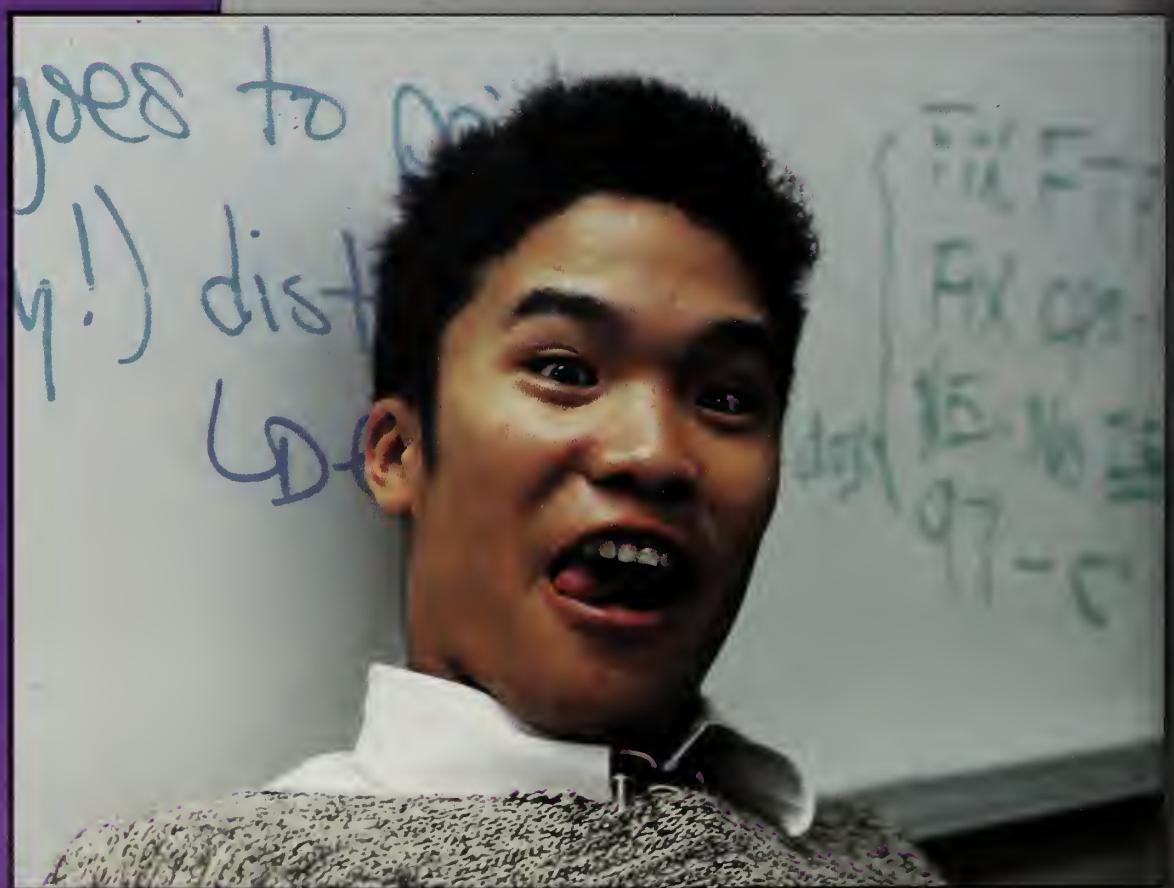

United with a purpose, driven by the need to excel, the student body of Vancouver College becomes one. School pride and school spirit manifest themselves as students encourage their peers to succeed. There is one student body, but within it there are many who contribute their ideas, their hopes and dreams, their goals and ambitions, and their talents and abilities to the whole. This book is a showcase of a diversity of talents at Vancouver College, all focused to achieve a goal.

# One Of A Kind

# Proud To Be V.C.

This year, there are over 1000 students in Vancouver College and over eighty teachers.

In their final years as students of Vancouver College, the grads of '99 take with them precious memories, life-long friends and invaluable experience. Having attended the school for anywhere from one to twelve years, these leaders of the Senior School serve as role models for the younger students. Within these pages lie the farewell messages of men ready to leave home and venture out into the world.

The time has come for these men to leave the safety of the nest and spread their wings. Skills and talents have been honed to a fine edge, and their steel has been tested without fail.

Armed by experience and shielded by integrity, the men of the Fightin' "I" persevere and endure through adversity and hardship in all their diverse endeavors. Together they reinforce their strengths and shroud their weaknesses.

As the torch of leadership has been passed to each graduating class, so has it been with the grads of '99. They have accepted the fire and each carries a flame in their hearts and minds. Though the flames may be of different hues, shades, and brightnesses, they burn brightly, together. Their light shines upon the world, a beacon of hope and potential.

This class has competed at both provincial and national levels and has proven their mettle. Academically, athletically, and artistically, these versatile scholars, sportsmen, and performers have proven time and again that anything is possible. Together they have ac-

complished more than any one can hope to achieve. This book is a testament to their leadership and a tribute to those who will follow. To themselves and to each other they shall remain Semper Fidelis.

*Grads of '99*  
CONGRATULATIONS

### *Tom Galdino*

Remembers: Too much, so if you were there then you know. I would like to thank my parents who gave me unconditional love and support when helping me to achieve my goals. Also to the special few who always knew... thanks for the wisdom. CM, you're the best thing in my life, look after our Rotti.

### *Benjamin Joel Arce*

First and foremost I'd like to thank God for guiding me through the rough times, I'd also like to give a special thank you to my mother who has given me her life and support and to whom I would give my life for. ### *Jerome Costa Barcelon*

"Men may exist but not all men actually live proud through their existence". Jerome's 5-year reign at VC has come to a cease. Memories live on through his friends. Acknowledge Montgomery; keks; Lsp/Dok crew; Papa; Mr. Eiben;

Chu; Mr.P; Corbett; and Howie, you all had a huge impact in my life because you gave me a chance. God you guided me toward a unique trail of vanquished barriers. My heart goes to my mom, Bessie, and pride to my dad, Albert. Be proud, you've done well. Mel, thanks for preparing me for the inevitable. Rob, I respect you for putting up with my ignorance. I leave VC this note: "We all graduate but not all of us leave a mark." (JBone).

### *Michael Badirk*

"Here I am, here we are, we are one, I've been waiting for this night to come." - KISS. Mike, a somewhat ordinary guy with inordinate ways. The last 5 years have been filled with strange experiences and strange friends: JW, MR, MG, MH, LC, JT, Head, JP and all the rest. Life lessons: lad chase, crusing in JA's van, nights at Gilbert, Samish, LG's camp ground, Nanaimo, hockey roadtrips, and to all my girls at LFA and Steves, it was a

blast! To all my hockey boys: RG, CM, PDP, JH, keep it Canadian! Thanks to my family, I couldn't have done it without you. I graduated, Eh!

### *Jeremie J. Borg*

My five year stay at V.C. was a good experience. It wasn't what I expected but it was a challenge but I overcame it and I am graduating. I would like to thank my parents, my friends, the teachers, and who ever else I forgot. See ya.

### Francis "KOBE" Chan

GOOD LUCK to all GRADS of '99!!! - peace-

### Ivan Chan

The time has come - 5 years at Vancouver College and it's time to move on. Those 5 years had been a good experience, especially during Gr.10 where senior school was different with new experiences, meeting new teachers and friends. I won't forget those fun business ed classes we had back then, as well as those senior phys'ed and science classes. I would like to thank God and my parents for their support. In addition, thanks to the staff and my friends esp: Anth, Matt, Kurt and David. Good luck to all of you for the years to come!

### Victor Sun-Ren Chen

Thank God it's all over. For all the true friends, words alone aren't enough to convey my gratitude, so I leave you with a poem that is a source of inspiration to me:

Success To laugh often and much; To win the respect of intelligent people and the affection of children; To earn the appreciation of honest critics and endure the betrayal of false friends; To appreciate beauty; To find the best in

others; To leave the world a bit better, whether by a healthy child, a garden patch, or a redeemed social condition; To know even one life has breathed easier because you have lived; This is to have succeeded. - Ralph W.

Emerson "By quoting others, you recognise their achievements; while by quoting yourself, you add to your own!" -Victor S.R. Chen

### Wiley Cheung

First of all, I would like to thank my mom and dad for being there for me. For the past 2 years at VC, I've enjoyed my stay. It's been a great experience for me, it's not just a bus stop for me, it's actually a journey in my life where I constantly learn and build up myself into a better and stronger man. Now I leave with invaluable knowledge gained from my experiences here. FMs: Encounter, Sat Nites, bball at UBC, Karaoke. Thanks go out to: CW, MY, ES, TL, CI, FC, KW. GOOD LUCK TO ALL THE GRADS!!! "The old believe everything, the middle-aged suspect everything, the young know everything." -Oscar Wilde.

### Lance (L.Q.) Chung

I entered VC not wanting to go, I depart VC not wanting to leave. My five years at VC have been filled with nothing but amazing memories and experiences. Thanks mom for your unconditional love and support. Dad, I always luv you. Jane, Uncle James, Jimmy, Thank you. ### Kelly K. Cheung

I'll begin as a fellow Kelly had: "First, I'd like thank the greatest most high and powerful almighty God". Next is the family. Jwegated, son of Jekeneyen Ninja, stardate 2635, says thank you to all the dracifiers and asylum members. Best wishes in life to all the people I have bugged so often; the unsung heroes of my life are the two people I bugged most: the librarians of the Vancouver College Senior Library. I leave by saying that success is based on hard work, and success without work is luck; cheating is the limitation on hard work; and success not cheating gives happiness.

### Edison T. Chua

First of all thanks to almighty GOD without Him nothing is possible. 6yrs. have come & gone & now an era is over. I entered as a boy and now I am leaving a man. Thanks to my FAMILY for the luv & support, Shoutz: To my

On My arrival to V.C., 6 year ago, I was a small, cubby, irresponsible child and now I'm leaving as a tall, slim, mature man. Great love and thanks goes out to my mom for her, love, concern, and comfort. To my father, you are my best friend and my hero. I'd also like to thank my bro. for leaving me a path to follow. His success provides me with the determination to do the same. To my pals: DG, JH, TR, GP, TS and all B.A.W.O. members, thanks for the great times. Our FM's include: Aldergrove, Dixon's room, and the White Rock strip. To Hootie, take care and I will always love you.

### Lech L. Dolecki

The five years I survived in Vancouver College will stay unforgettable for the rest of my life, from the Band trips and Jazz Festivals, to the swim meets and sleepless nights. Special thanks to all the V.C. teachers, staff and counselors. You have all made a lasting impression on me. To all the

friends I made in V.C. including the lunch and spare block & yearbook crew, you know who you are. Thanks to all my swim coaches in the past five years, all my friends in swimming and Polish Scouts. What would I do without you? To my violin teacher Mr. Lawrence and last, but not least, my loving parents who cared for me and helped me all the way through. Just remember, if you put your mind to it, you can accomplish anything! Good luck!

### Matthew Will Davis

## Bryon G. Hermann

V.C. is a school that will never be forgotten. The encouragement of all the teachers helped me to get closer to attaining my goals. The friendships formed in the 5 years I spent at V.C. will be treasured for a lifetime. "You might not be as mentally and physically fit as the other guy, that doesn't necessarily matter. You might pass your goals in life because you know you can do it. All you have to do is put the pain out of your mind and say: I can do it, I will do it, and you will." - Airborne. Believing in this motto has gotten me through many obstacles. I'm sure living by it will help me succeed in my future endeavours. Thanks to all the people who guided me and helped me through the years. You will not be forgotten.

### *Marco Goco*

8 years ago a dark, afro haired student with an accent entered the halls of VC. Since then he has gained many friends, learned many skills, and put himself in unpleasant situations. Now the trial and error has made him a mature man. Thanks to God, Dad, & Mom for their love and guidance. Thanks to my close pares EC & JB for their unquestionable friendship. To babez who makes tomorrow brighter. (luv always) Finally, to Dok, LFA girls, others and Grad '99, best wishes in all your future endeavours. Remember, "One must maintain one's connection to the past". We all grew up together at VC so we are all brothers.

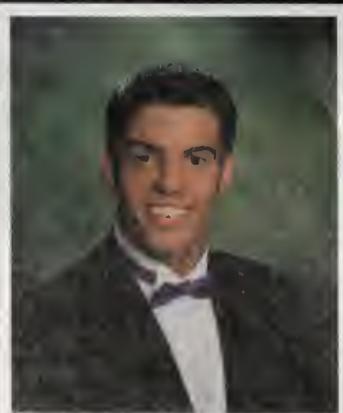

### *David John Andrew Goldie*

We finish this substantial chapter in our lives, left with experience, knowledge, and many friends. ## Joe Hobart

For five years I have walked the same halls, I have seen the same people, and now it is the end. I can't complain; it has been great. Grade 8 Football, Mr Donald's english, Mr Bell's impossible tests, Mr Corbett's "marks gathering experiences", stage band 1&2, being taped to a deck chair, HI HO FO FE/98, HI HO FO FE/99? Mr Molloy's lab exams, Little Red and guided meditations, and of course my friends: SS, EM, DS, CH, AR, AL, CL, KS, RG, KL, KR etc. Sorry if I missed someone. Good luck to everyone.

## Cyrus G. Huang

Blink and it's gone; 5 years fly by, but they have been great. Special thanks to Mommy, Daddy, Jasper and Roshena for their loving encouragement. There are many people I'd like to thank: Mr. O and the band; the coaches, Rick, and the rest of the Football Team; to jefe and all the teachers, and AL RR and the rest of the Grads of '99. One dream, one soul. One prize, one goal. I won't dream on the drowsy clouds of nullified notes. Evolution programs for better days. Days with a controller in hand and innocent intake in the eyes. Yet all is not completely revealed through my concealed crypt. Only the guiding light of melancholy beauty writes my evolution. Such an evolution has brought forth unforgettable moments: dollar days

with Duke, pass block'n with the O-Line, A-Team specials, St. Cats 96, 97, Whistler, Kung Fu in Surrey, U2 97'. Crew 97 deep dynasty alive. Thanks to all who've loved, helped encouraged, and inspired mortal men we are, immortal souls we bare.

### David Jackson

For the past six years I have bused all the way from Richmond. Now that it is over I have to move on to the main event. Throughout the years I've made many great friends and have collected many great memories. M.F's include Lenkyn, Ciaran, James (bumps?), Rob and the John's along with all those other Richmond bangers. F.M's include Japan 97, IYH with the czar and who can forget Metallica with M.F.'s. Thanks to everyone especially my parents for paying for all those bus rides; without them who knows where I would've ended up. "To be the best, you've got to beat the best" - Ric Flair

### Cornell Michael Karscha

I have been at V.C. for five years. I would like to thank God for always being there for me. I'd also like to thank my family for always encouraging me to do my best. Thank to my friends RG, JK RV, RV, MC, JB for support and memorable moments. I hope I can see you guys in the future. "But tomorrow I see change, a chance to build a new built on spirit, intent of heart and ideas" It's been a crazy ride!

### Chris John Kline

I would like to thank God and my Mom and Dad for their endless guidance, support and inspiration. ### John George Klicpera

I've been going to V.C. for six years. The time has gone fast since I got here and now it's time to go. I would like to give special thanks to my mom for all the support while going to VC, my older brother being there for me and God. Thanks to Mr. Devenport for all the great stories and keep on telling them. My favorite memories of VC: friends (RG, CK, RV, RV), the summer of 98 Beastie Boys RV. "So close no matter how far" -Metallica.

### Chris Lai

3 years of VC is okay, but anything over 3 years might not - in my view. Mr. Devenport, thanks for those great stories of Europe. I will go to those places you talked about when I have the chance. Let me thank those who provided knowledge. CW, do not do that thing again to YM, in front of me. Ok, it's time that I move on, and I better go. P.S. DL, it was fun in Ottawa, although we got in trouble. TA, it was fun in band, and all our trips.

### Carson Vincent Lam

ithin these walls i gained many great friends and memories. I have achieved so many things and now I am ready to take reality like a storm. ### *Jason Lyle*

It's been fun, but as the saying goes, all good things must come to an end. Many thanks to my parents, my siblings who made life interesting, and my friends. Without your support, I don't know if I could have made it through these five years. Special thanks to my teachers who've given me the tools I need to succeed. As I leave these halls of learning, I leave my childhood behind. I will carry these precious memories with me forever wherever I go. To my fellow graduates, the next millennium awaits us; let us take up the challenge as we go forth to leave our marks on the world, and on history.

### *Terence Yin Lo*

My three years at V.C. have gone by like a blink of an eye. The unforgettable moments and experiences are beyond description. I really appreciate all the help from my teachers, my peers and especially my family.

### Marin Mrsic

Aka Bilic, also known as the Croatian sensation has been preaching the Croatian word at V.C. for 5 years. If he wasn't in school you'd find him on the soccer field showing off his skills. Mmm: skipping school with Birk to watch Dinamo at the CCC; summer 98; watching Croatia live in France; Croatia coming third in the World Cup; and partying with the wild Dalmatinci. FE: meeting that right Croatian women; and playing professional soccer with Hajduk Split. Bilic would like to thank God, mom, dad, Den, Crystal, fat-boy and Ana for their love and support over the years; without you none of this would be possible.

## Class of 1999: Philip Hall

After thirteen years of participation, I hope we make all the right decisions. When we step into the world, don't get caught in the rush. Remember who your friends are and know it's never too late to look them up. So to the grads, feelings can't be explained, so don't try! Trust the gut and good luck! Slainte to the boys, you know who you are. Couldn't have done it without my family. Did it pops! Finally, don't allow yourself to be judged, keep the spirit, for memories are what make today worth it. Enjoy yourself, 'cause time is only noticed when not having fun! Bumps??

## Class of 1999: Jozef W. Nardodowski

Joey has been travelling from East Vancouver to attend VC for a few years now. He could be found doing whatever, whenever, wherever. If I am still here in July, then I can truly say that the past 3 years have yielded among the best seconds of my life. FMs: Giving D2 one to the dome. Later, my friends: Bumps, Mobhinder, onepac, Sundee, namebackwards, claRAn, Gilbert crew STUDent council, the voters (what were you guys thinking?), Denkyn, Thompson Twins, and finally, myself; I couldn't have done it without me. I luv you Natalie.

## Andrew James Racaza

"There are three marks of a great man: being virtuous, he is free from anxiety; being wise, he is free from perplexity; being brave, he is free from fear" (Chinese proverb). Therefore, I was not a great man. During my 5 years at VC, there was always a time when I was perplexed, or even scared. However, there were always people I could turn to for help. Shoutouts: St. Joes friends esp.: CH, & MM; yearbook crew; all the omniscient teachers, the "Shadows in the Dark" gang (SOC '98); physics olympians; my family for their love; Tom D (bet still on?); and yes even thanks to those who only knew me as "Razcaz" just for saying hi. The new millennium awaits, good luck to you all!

Inmate 940072 has been released! Time passes quickly at VC. One moment you're running through the Gr. 8 gauntlet, the next moment you find yourself studying frantically for exams. As the final year comes to an end it is time to say good-bye while I leave with numerous memories. During my years at VC, dreams were achieved, friends were met, obstacles were confronted and cafeteria foods were eaten.

Countless thanks to everyone who has supported me: my loving parents, my sister, all my friends, and most importantly, God. One word means so much... 'sneakovers'. Best of Luck to all the grads of '99! K.R.T.

First off, I would like to thank my family whom without, I don't know where I would be. They have provided me with everything I ever needed to get where I am today. I would also like to thank my friends. Because of them, my days have been filled with amusement and laughter. I have only gone to VC for two short years, but the people and times I have come across here will be long remembered. As I say goodbye to a very important chapter of my life, I begin my journey out into the real world. I feel as if I have learned the necessary skills here at VC in order to be successful. Finally, I would like to thank God for life and my achievements.

THIRD ROW: Patrick Ryan, Kristopher Stroich, Michael Jacoby, Adam Hasinger, Sebastian Greer, John Michael Nixon, Adam Latek, Gregory Dent, Frank Mandin.

As seventeen young boys board on with their hollow and innocent looks, the plane took flight for its unknown destination. Silence clouded over them during the first hour, as wandering eyes and curious minds raise questions like:

“Who are these people? Why am I here? Where’s my mom and dad? When can I go home?” However, as the next five hours progressed, laughter, cheerfulness, and friendships were formed among the group. The

destination—still unknown. As the latter half of the trip began, the plane stopped for a quick rest and added more young passengers to its exploration. Nonetheless, those original seventeen boys remained as a special pact from the group. They had adapted to the environment, and no longer had the uncomfortable, strange feeling that bothered them some six hours ago. The fog had cleared up a bit, and the destination was vaguely in sight—but it was still too early to be determined. Finally, with only three hours left in the

In spite of this unpleasant encounter, they managed to land the plane. Many of those who joined in the second half of the trip were still unaware of the mysterious place in which they arrived. As for those original seventeen passengers, they immediately realized the destination—manhood.

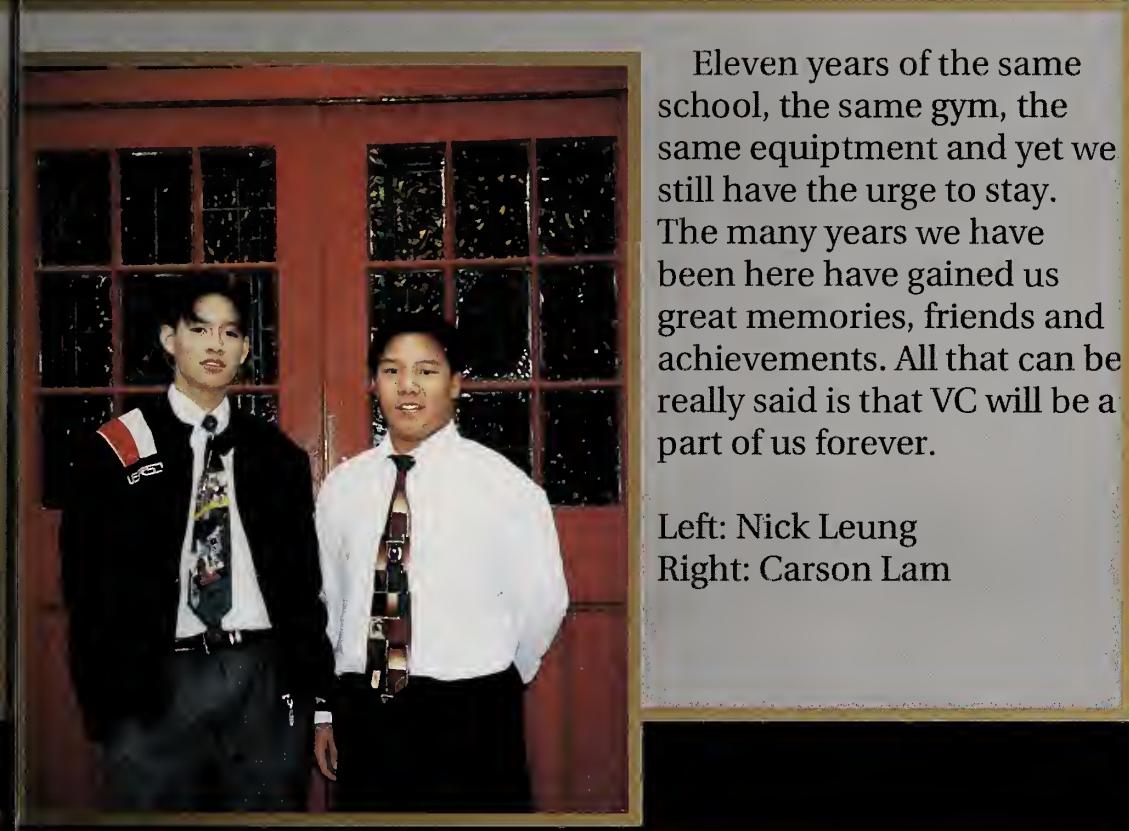

Only an elite group of students in Vancouver College has the privilege and honour to devote more than half their lives to the Fighting Irish community. It was only a mere twelve years ago, in 1987 that we literally looked up to

our journey towards maturity and wisdom with one another. From September of 1987 to June of 1999, the seventeen of us have created and developed a special friendship in which many will not experience in their lives. From playing “doctor-ball” and “terminator” at Cartier Hall to playing football on the Varsity team; drawing pictures of imaginary robots to drawing pictures of magnificent landscapes; watching hockey greats like Mario Lemieux and Mark Messier hoist the Stanley Cup to playing in a championship hockey game; kicking a soccer ball around the house to kicking a soccer ball for the school and community teams; and writing a daily journal to writing the feelings of the Twelve Year Men, we all have centred our memories around each other.

Furthermore, we would like to thank the entire staff of Vancouver College for putting up with and enriching this group of determined and talented young men throughout the years. Most importantly, our families, especially our parents, have undoubtedly played significant roles during our twelve-year trip. As we reach closer to our next flight, I am proud to say on behalf of Ben, Greg, Rob, Matt D., Adam H., Jared, Matt H., Mike, Chris, Adam L., Desi, Frank, John, Lenkyn, Johnathan, and Dom that the seventeen of us had entered Vancouver College as innocent, little boys, but are going to depart as proud, young men.

ight, the boys had scattered round the plane, building new relationships with others. Fortunately, their exclusive bond with one another was still with them. As the flight reached its final hour, the plane experienced extreme turbulence. The passengers had to hold onto their dear lives, hoping that it will end soon.

all those students who were much bigger and stronger than we were. Now, we have taken the roles as seniors and role models of the student council. Throughout the years, we were part of every growth and change in Vancouver College. We have seen people come and go, but not us, as we have remained here to complete

# Last Grad Class of the Millennium

At first, we were complete strangers,  
nameless faces,  
anynomous shadows that laid adjacent in cold,empty, and foreign  
spaces.

Setting foot onto identical mazes  
where we were to be tested on a daily basis.

A few amongst us chose to direct their own paces  
while most decided to be guided by others' traces.

Slowly, we congregated with others out of the fear of our own  
rejection.

Sometimes, we were blind to find  
that our images didn't even coincide with our own reflections.  
Behind intimidating stares and glares, our eyes all had a common  
cry for attention

with the sole intention of belonging.

And Longing to belong.

Breaking into a whole new world where everything that we did  
right...seemed to be wrong.

We focused on our differences instead of our likeness  
and experienced the cruelty of words and heard the unbareable  
song of silence.

Never did we choose to be together.

But that was then when a day like today seemed like it would take  
forever.

Now, we are unified as a unit, positively motivated and energized,  
spirits and aspirations maximized and intensified.

We were once hindered by our differences,  
but now our differences define our very existence  
and provide reassurance that our capabilities possess no limits.

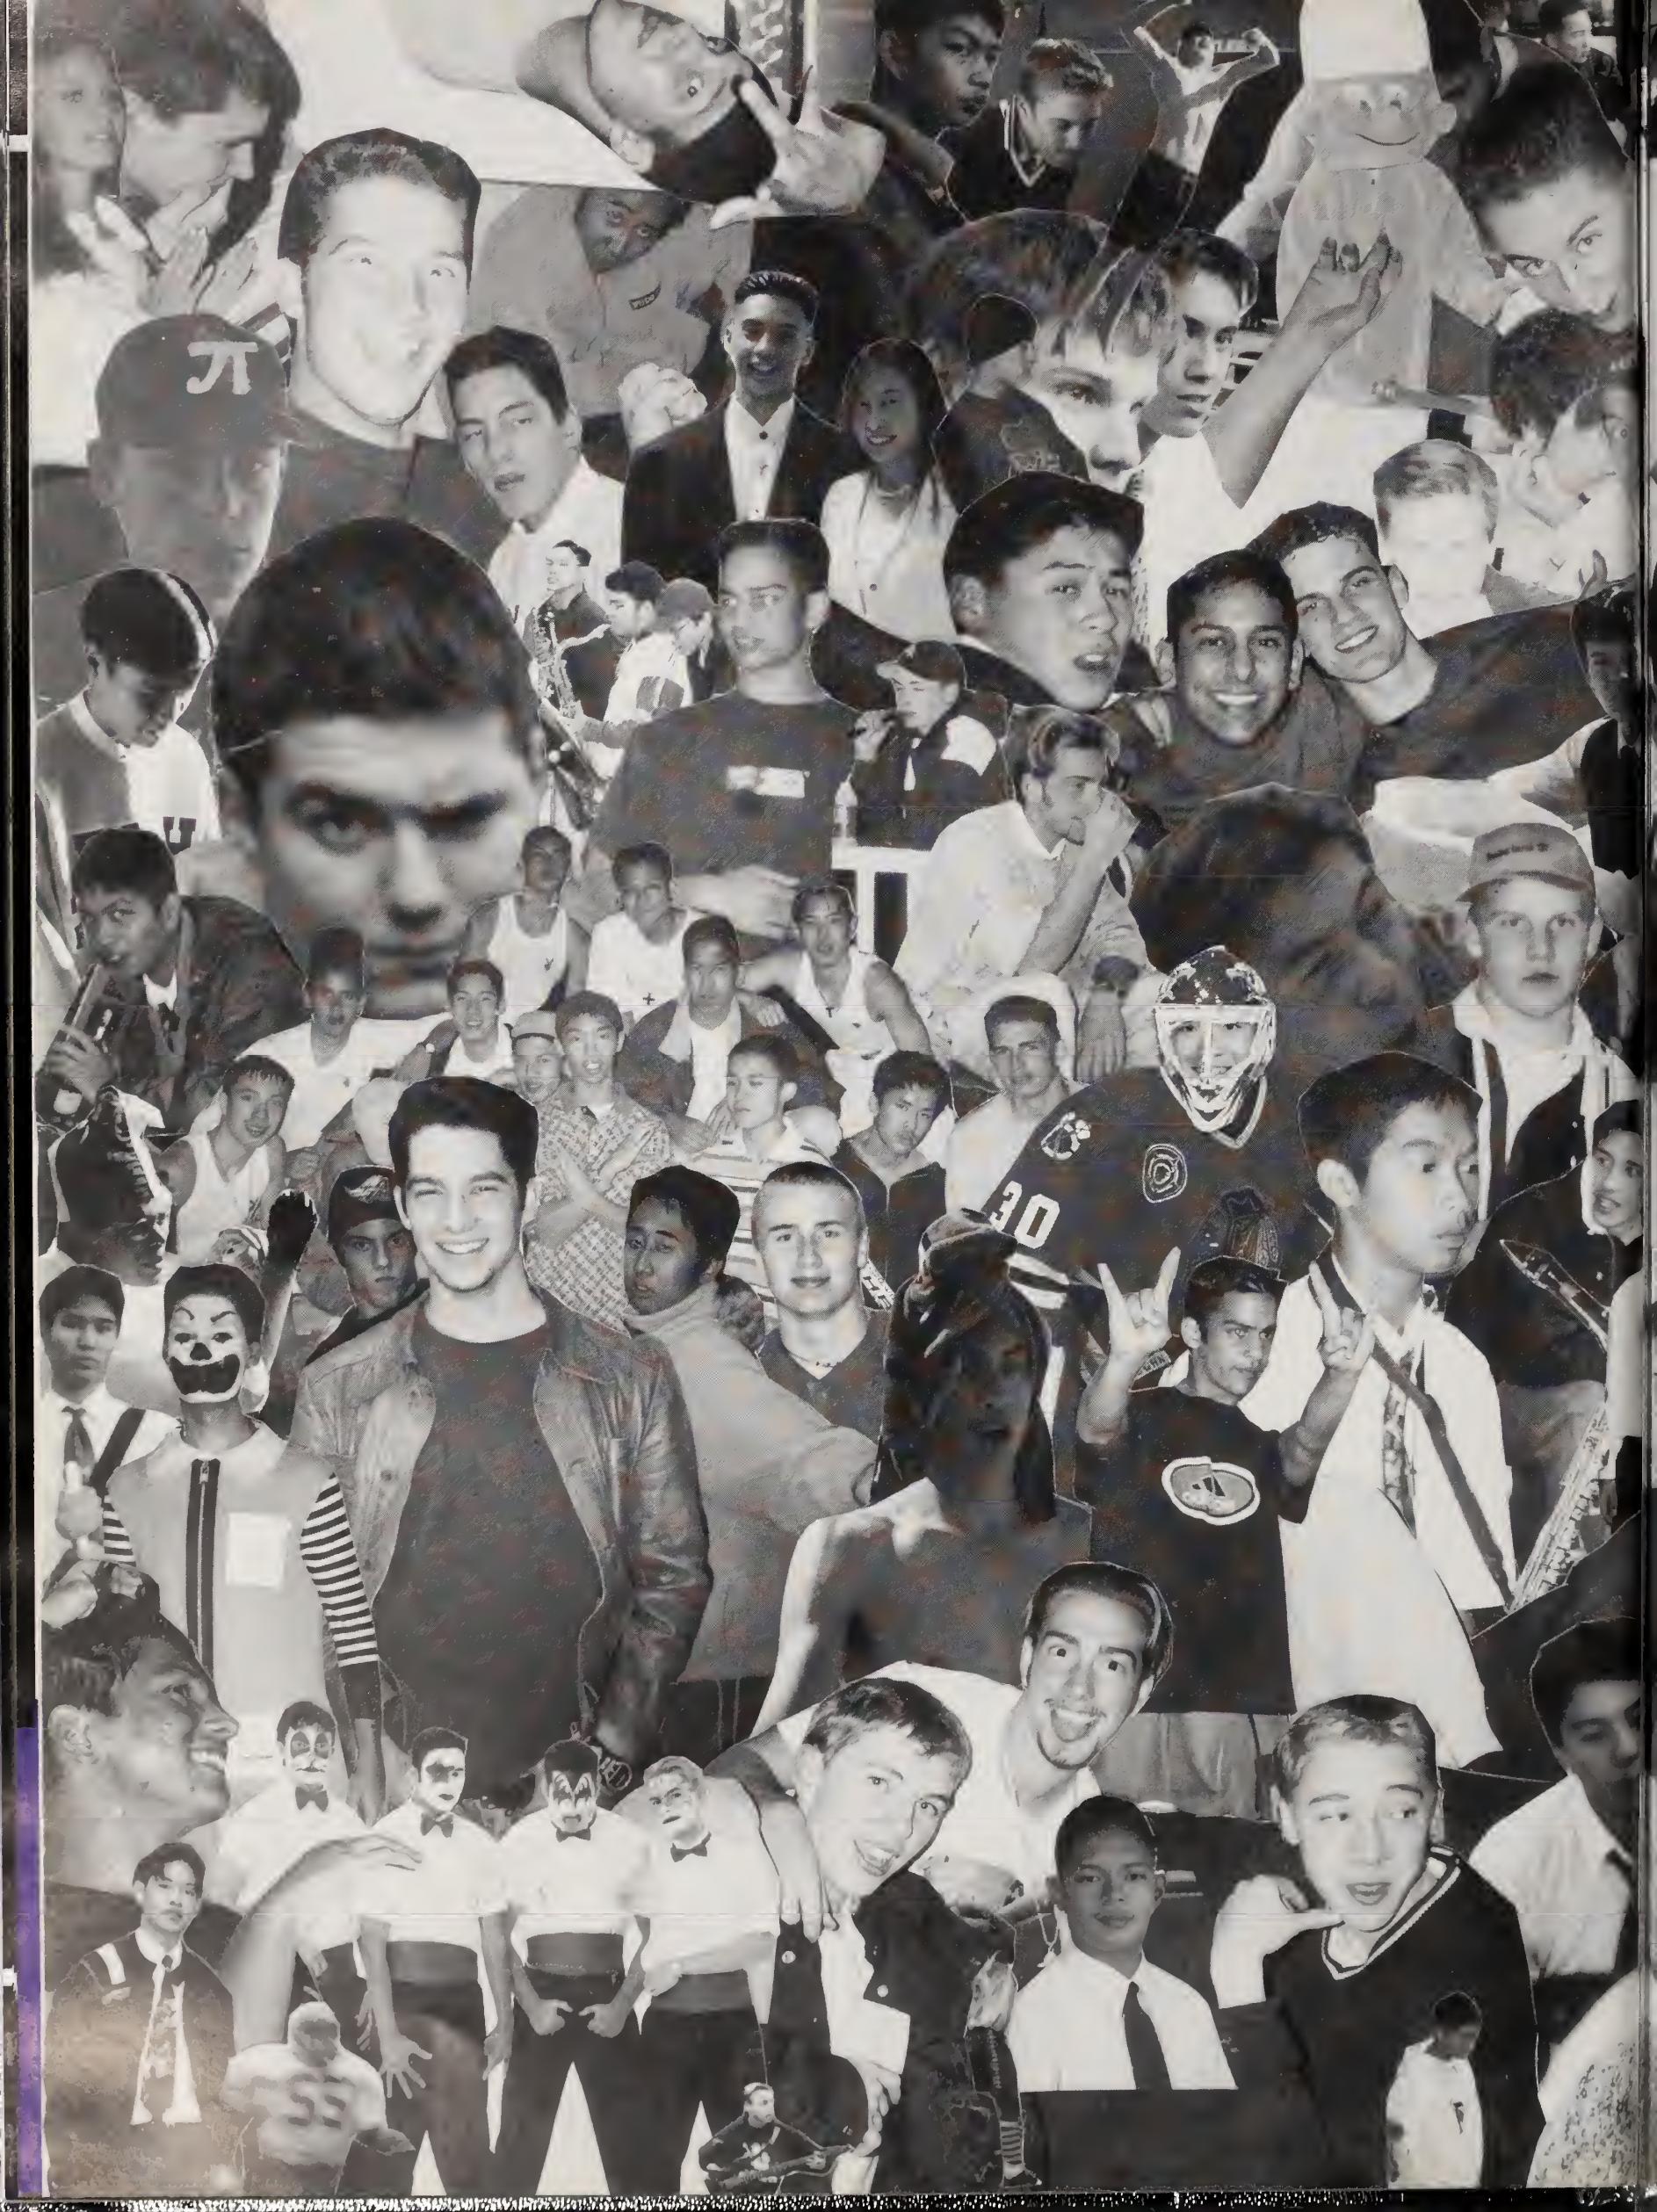

And throughout the last instants we have with each other,  
I can proudly turn around and say 'you are my brother'.

My brother and my friend, you who made this school a second  
home,

we will soon be parting on our own journeys but never will any of  
us have to stand alone.

So finally, we're here  
breaking out with no fear.

- John Gonzales

I had a dream of me on the beaches of Hawaii... oh wait, wrong dream. I dreamed that this yearbook would be completed and on time. I guess I can't tell until the yearbook shows up, however I can tell you that a vast amount of effort was placed into the Collegian. My excellent crew and I worked 24/7 for this published book of memories so be happy that YOU get it in June or whenever. Anyhow, between spending a lot of money, going insane, spending more money, catching up on some sleep, getting coffee, dealing with the stress, making people prettier, studying, dealing with more stress, forgetting to eat, then catching up on meals missed and finally blowing off a little steam- I had fun. Err... then there was also the weekends, the all nighters and hours on end of work and talking with myself since there was nobody else in the little cramped room. I'm surprised I haven't developed claustrophobia already!

I would like to thank the other editors (Arnel, Andrew, and Kevin) who I so successfully sucked into doing this job with me. <hehe> I would also like to thank Mike and Lenkyn for their drawings and their art staff. Being in charge has its benefits but once being one of the supportive workers in the yearbook I would like to give names to those who are anonymous. I would like to thank: EG(original photographer), GD, RR, EP, JE, CW, FW, VC, EM, DS, LD, KC, NZ, JD, CH, EP, JW, WR, and many others who helped.

In addition, I would like to give special thanks to Mr. Thompson, Mr. Kingsland, Mrs. George, Mrs. Gong, Mrs. Powell, Mr. Mitchell, Mrs. Ansell, Mr. Freire, Mrs. McCullough, Br. Murphy and to our "fearless" leader, Mrs. Pat Charland. Without these people, the yearbook would have been stuck at each turn and would be still "under construction". Thanks for the teachers (who tried to hand in their assignments on time) and to the staff who noticed that this year's yearbook room floor didn't move on its own.

The days in the crack sized room is over and it's time to pass the torture... I mean torch. To the next Collegian Staff, good luck and bear with it. The job may be overwhelming at times, but the friendships will be forever. Although, when YOU guys crack don't call me!

Not until recently, I started putting my life in perspective. I noticed that I had done nothing for the school, and time was running out. I feared that my fate was to pass through Vancouver College and be forgotten. However, when I was given the chance to work for the yearbook, I was honored that I could make a name for myself. Last year's editors warned me that it would be a lot of work. They said my marks would go down, and that I would have to stay till 7pm every day (and later on weekends). I did not believe the intensity of the challenge until I came face to face with it. As the first deadline came around, chaos racked the minuscule yearbook room. We struggled to get 44 pages done in a matter of two weeks. We failed miserably; however, we were lucky enough to get a extension. That was just the beginning. Of course, not one page could have been done without the help of Mrs. Charland, Carson Lam, Kevin Schretlen, Nick Zapala, Lenkyn Ostapovich, Mike Jacoby, Vic, Erick, and the rest of the yearbook crew. A special thanks goes to Arnel Lim who taught me the importance of being assertive. In perspective, it was all worth while. Finally, there's Cyrus Huang, my good friend. His little puns, friendly sarcasm and thrashing kept me from becoming insane, unlike Carson. You know, the weird thing is that I sort of enjoyed being in yearbook. I got to meet many new people around the school, experience new things, and learn many facts about this proud and inspirational school. Though its nice that its now over, I'll always remember the "interesting" moments along the way. "You never know until you try."

Yearbook. The beginning and the end of grade twelve is lost amidst deadlines and thousands of papers. Fonts have to be ordered - they're not cheap. Shipping details have to be finalized. Film has to be developed - a hint - don't wait until the last minute to do that. Interruptions here and there send us spinning. Here we go, deadline number one comes and goes, do we get it in on time?? Only eight short weeks before we had two totally useless computers, and now? Two software laden computers, hundreds of Page Maker files, thousands of pictures, and at least two hundred disks. Time spent developing the digital layouts now seems like nothing, but it really was at least four of us here until five o'clock every day of school. Spares are automatically devoted to the yearbook, not studying. Free? Well not totally free, CD's from Jostens, serial numbers are a real problem. Thanks to Mr. Kingsland and Mr. Thompson for helping get the computers working. Mrs. Charland and Jacoby, thanks for the ideas, and Reid - please don't reschedule any more appointments. The best part? A walk-in locker. Next year's guys, please don't make the mistakes we did. Get pictures taken quickly, and learn as much as you can before hand and READ THE MANUAL because if nothing else works it will. The yearbook crew consisting of Carson, Andrew, Arnel, me, and a few other significant others have spent time on the yearbook more than you will ever appreciate. If you have complaints, join up next year and try to top it. Good Luck! Later!

For once I'm at a loss for words. After writing most of the writing for the divider sections of the book... all I can say is, I hope makes sense in 10, 20, 30 years. That's what this book is all about - a time capsule of sorts. A snapshot of the school year 1998-99. If what you see and read in this book any years from now does not evoke memories, then we have failed.

Writing takes inspiration, and I'd like to thank my fellow editors for providing some that. I must admit, I find ideas from all over the place (even the cafeteria walls!). Deadlines come, deadlines go, and the pressure is continuous. No letting up, nothing going (though we toyed with the idea several times). Jeff said it last year, and I'll say it again. Making the yearbook is not an easy task. Of course if I had listened to him last year I might've saved myself a lot of grief. Carson, Kevin, Andrew, and I had this plan worked out the week before school started - we'd get this great big enthusiastic crew going, and we'd just check for typos and other minor errors. It was a nice daydream while it lasted. The reality is, with only 2 (now 3) computers, you can't get a big group working. With the pressure of deadlines on, it was simpler to simply stay everyday to do it ourselves.

This year's theme is breaking out, exploring our talents, defining our own identities and exploiting opportunities. I sincerely hope that my writing is able to convey that unifying theme throughout the book.

Thanks to Mr. Kingsland, Mr. Thompson, Mrs. Murdock, Mr. Mitchell, Mrs. Ansell, and Mrs. George for the help. Victor, Greg, Earl, Eric - thanks for helping take some of the load off. Mrs. Charland, Reid (our Jostens rep), thanks for the advice.

Being cooped up in the yearbook room for hours on end day after day is not the most pleasant of experiences, but in the end, I think it's all been worth it. Remember, that's not a mistake, it's creative expression!"

I am the eggman. There is only a thin line between being considered a genius and completely eccentric. I live comfortably in the land of crazy bananas with velvet postcards and padded lawn chairs. Mike Jacoby, on the other hand, is a total genius. He has taken this yearbook and formed it into his own creation, adding his own stamp wherever possible. They are the eggmen. Somebody once told me that I had the imagination of a four year old. I took it as a great compliment and smiled. I hope that I have somehow shared that colourful imagination with you throughout this yearbook. Now I must go find my rachong. See you in Atlantic City. I am the walrus, KU KU KACHU.

Fearless. Very few people can walk that tight rope of genuine authenticity and originality while wearing absolutely nothing. Cheesecake anyone? Yes, Lenkyn is that rare person who earned his chance to have his cake and eat it all too, but instead, took time out to give me a slice. He shared with me the tasty treat of creativity, inspirational thought, and unbound imagination. Someone once told me the moment that we are born, we start to die. If that's the case, then I'm already dead. I'm already on the other side. Will I ever let go of this pleasurable evil called life? Yes, but I'll never forget. It was a fun ride, wasn't it tootsie roll? Hey Chief, see you on the other side and don't forget to bring sunscreen, that bright light is one heck of a bright light.

When the students have long abandoned the school, the last detainees file out and even the staff parking lot empties there is still an army scurrying away down in the basement to fight off the dreaded Jostens' reps and attempt to make deadlines. That army is the editors and their troops that have brought you the last edition of the Collegian in the Y1K! Many long hours have been put into completing this small, yet important part of VC history. It certainly has been worthwhile to be part of this edition. It did come with many ups and downs but in the end I did learn a lesson. There is always a limitless amount of deadlines and responsibilities with never any time to do them. I'm sure Carson wished for 36 hour days. Man that guy just never went home! Yet he still had enough energy to yell at everyone. On behalf of all the photographers I would like to thank Mrs. Charland for encouraging us every step of the way. And to the editors who put up with many revolts led by me!

# Senior School

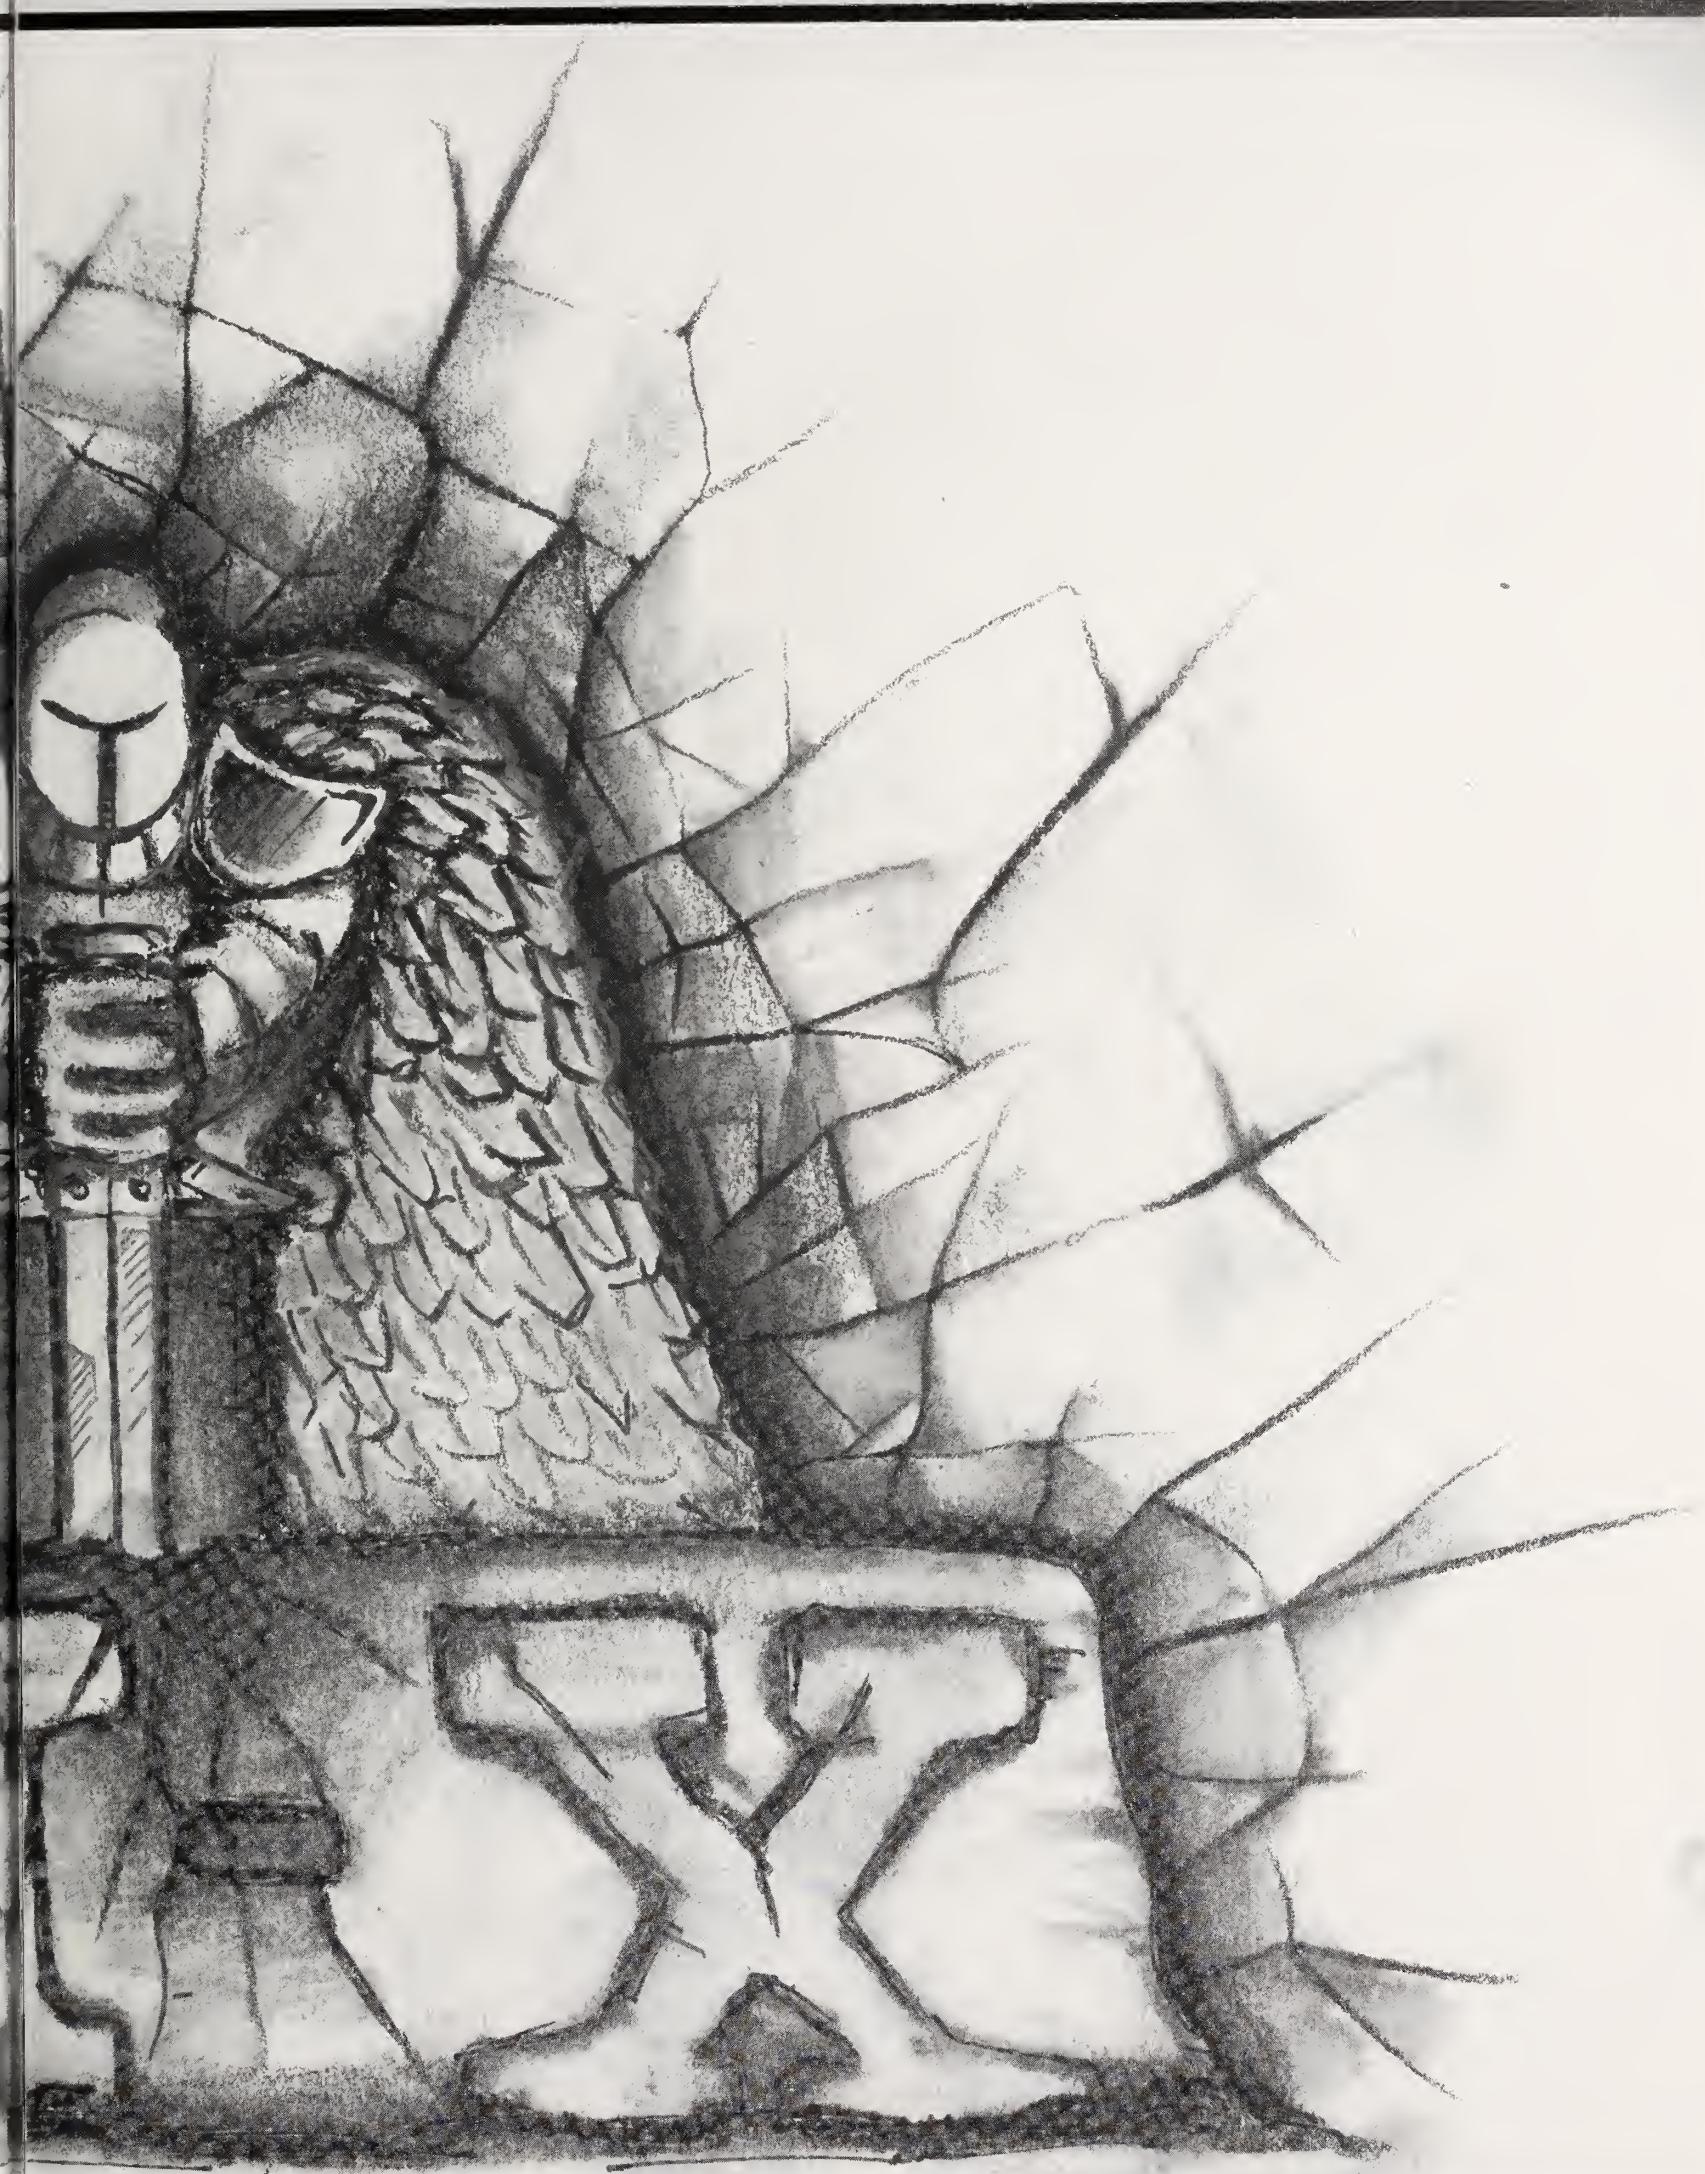

The years of Middle School are a memory now as the young men of Vancouver College embark on the mystical journey known as High School. They stand on the threshold of new challenges, new experiences, and new opportunities, which will shape their lives and truly make them into men. The time has come to step up to the real world and say, "Here I am, challenge me".

The previous years of schooling have been preparing them for these last years. No longer will the teachers check over their shoulders, correcting their every mistake. Instead it is their turn to find their own flaws, so that they know they can be independent. These lessons are what High School is all about: freedom and responsibility. They can drive to McDonald's at lunch, have spares, and pick their classes. It is their decision to succeed or fail.

Together they can do anything and everything they set their minds to. No problem is too great, no task is too difficult. With the guidance of their teachers and the encouragement of their peers, these men shine. Their talents combined with the motivation brought by freedom and responsibility will bring them unparalleled achievements and wondrous accomplishments. Countless awards of all kinds line the halls of Vancouver College, a testament to the successes and triumphs of its students. From football, basketball, and rowing to physics, music and writing, members of the High School have excelled in all fields.

They are the men of Vancouver College, the kings of the school. The long lineage of Vancouver College Alumni stems back for over 70 years and the words "success" and "tradition" are associated with the school. Now, the torch has been passed down to them, and it is their duty to continue the tradition of excellence.

# Grade Eleven

One more year at V.C. to go  
Action never stopping, nothing too slow  
Long gone the days of homework inspections  
Mistakes no longer count as preparatory lessons

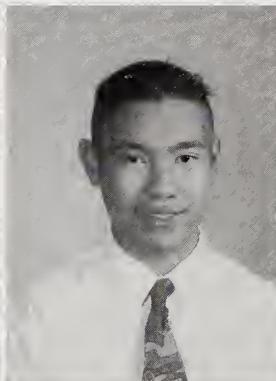

Although the work gets tougher  
And times get rougher  
Our year still looks bright  
If everything goes right

So strive to achieve the very best  
And your days at V.C. will bring  
you success.

Focus your task and do what must be done  
But never forget to let school be fun.

# Grade Ten

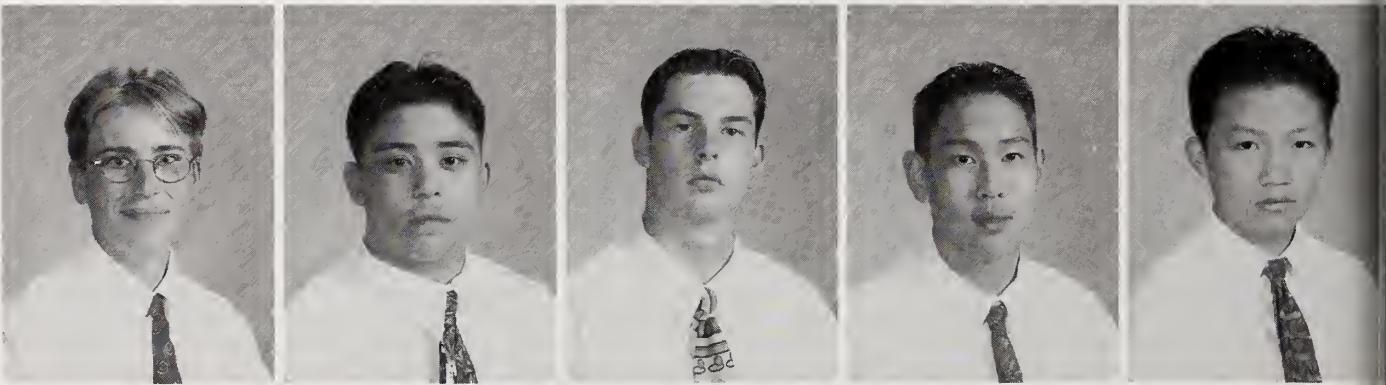

Once again, the school year has come to an end and has left us with fond memories, new friends and unforgettable experiences. Then months filled with unbearable workloads, last minute projects, and electrifying sporting events have all quickly slipped by in a blur and are now just more pages in time. With another year finished we are a step closer to the end of our journey here at Vancouver College. Although our odyssey is almost complete, we still face many challenges and unforeseen obstacles. Each day brings another hardship, another trial, and another exerting task we must endure. Fortunately, we don't see all cloudy days. Alongside these hardships also comes the thrill of victory and the exhilaration of

overcome challenges we so enjoyably bask in. In the fury of progression, these are the things that matter, these are the very things that define who we are and sculpt our character. In the unrelentingly observant eyes of evolution, we have matured and grown into the men we now are today. With much guidance from the faculty here at V.C., we have made the choices that have brought us here and hopefully, prepared us for the final stages of the trek we call, High School. After this, we will be set free. Released into the world, armed with the wisdom and knowledge acquired at V.C. and left with only our imagination to bind us. Ours is the world and the sky is the limit. Looking back to the days of grade

10, we recall unparalleled memories and the friends who took part in forging them. Achievements and shortcomings, victories and defeats, flights and rough landings. Ask any grade ten, these all were experienced and will remain with us. Grade ten is over now and the dawning of a new day is coming. We will once again return to the halls of Vancouver College. We will once again experience unbearable workloads, electrifying sporting events and the exhilarating feeling of victory. And yes, we will once again go forward to compose new memories in the unwritten pages of time. Grade ten has been a bookmark in time, with many pages yet to be read...

# Middle School

**B**etween the child and the adult world lies the realm of adolescence, that special time when a child must transform himself into a man. This time of transition is an important time, and what a person does will greatly influence him for the rest of their lives. Brimming with talent and full of potential, these young men are entering the next stage of their lives. Witnessing and enduring physical, emotional and spiritual changes, theirs is a time of great turmoil and great change. It is at this stage of their lives that they must learn discipline, a discipline that will stand them in good stead in the following years.

Beset by dilemmas and problems the students of the Middle School will learn to cope and deal with pressure and stress with the help of their families, peers, and teachers. As they make the transition from the Elementary to the Senior schools, these brave adventurers through life learn to respond to their personal and social needs. The training and guidance acquired by these students prepare them for the road ahead, readying them to accept and overcome the myriad of challenges presented in all walks of life. By joining clubs, participating in dances, and playing sports, the students of the Middle School develop into healthy, well-rounded individuals, ready to face the challenges of the years to come.

MIDDLE  
SCHOOL

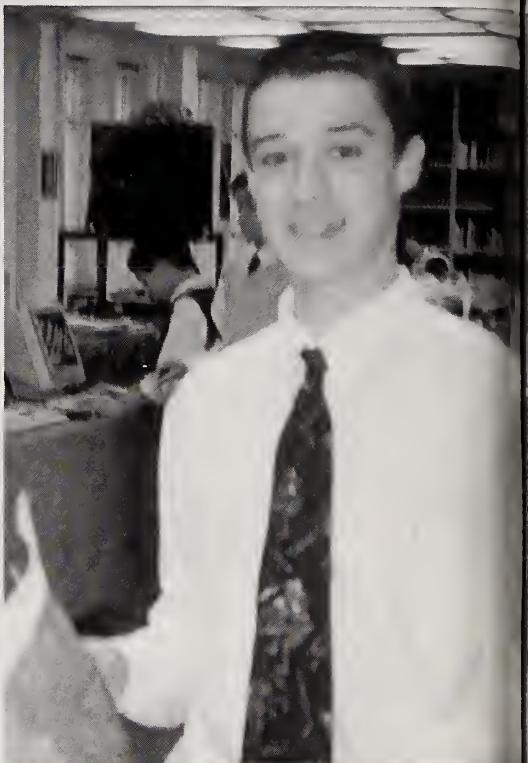

# Grade Nine

Grade nine has been the best year of Middle School because *we* were the leaders. Us Grade nines provide the example for the younger middle school students to follow. It isn't all just bossing around the Grade sevens and eights. We now realize that the fun and games of the middle school are over and it's time to hit the books. Since we are about to enter the new world of high school, we have discovered how important academics and physical activities are. But we wonder, what is Grade ten like anyway? This year, some of us had a truck full of homework but all that work, sweat and worry we've done now pays off with success and great pride and happiness in a job well done. Some of us even participated in sports such as

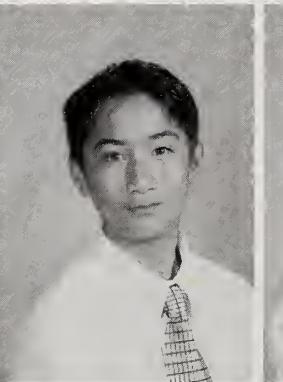

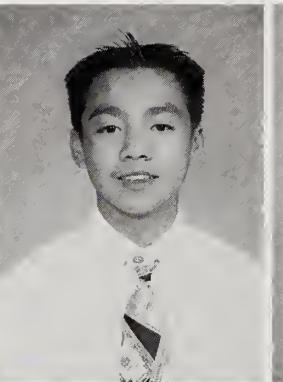

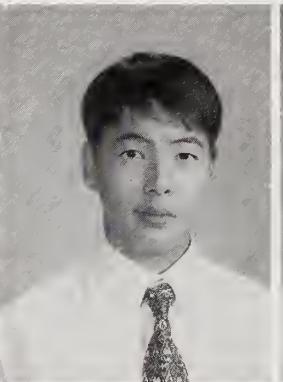

Football and Rowing and at the same time felt the pride and honour in representing the Irish. Others joined clubs like Band or Choir for interest, or for just trying to get experience. Grade nines are becoming experienced and well-rounded young men talented in both academic subjects and sports. We are Renaissance men. Yes, we grade nines are truly the men of the future.

# Grade Eight

Grade eight is when all of us have to stop and stick our heads into reality. This is when we need to realize that we are young adults; that we have to do things more independantly from now on. This is the time we make our "leap of faith" not knowing if we will fail or survive; and so begins the many challenges that we will face here. Nineteen-ninety-nine is the first year that Vancouver College has given us six homeroom classes for grade eight. This has given us many new opportunities to make new friends and has shown us the importance and power of friendship. As we leave the firm ground of childhood and step into the dunes of young adulthood, we will have to learn that our parents and teachers will not be able to pick up

every time we fall. We will have to use our own will and strength to do so. We will always be finding ourselves looking beyond the horizon and seeing ourselves doing great things. The teachers at Vancouver College will help us to achieve these goals that we set for ourselves so we will be able to learn many new things and acquire new skills. The teachers expect much more from us as we struggle to climb to the top and are given more responsibility and privileges. The academic, athletic, and faith community here will always be in bloom as we use our unique talents and skills on this journey of education. Like a Swiss Army knife, we can do many things. It's just up to us to open the right tool at the right time.

No longer children, but teenagers. These individuals have just experienced their first major change in life. Now, instead of consisting of one or two classrooms, they have six homerooms. The grade eight class consists of almost two hundred students and over a dozen teachers. Each person could either

be a new friend, or even a new competitor. Everywhere they turn, there are new experiences, and new challenges these young teens to face. The grade eights are the fresh faces of the new millennium.

# Grade Seven

## Grade 7 - The New Era

Finally, middle school is upon us. The class that faced Brother Conti for two years in a row, faced Miss Sepelt (now Mrs. Kingsland) in her first year of being the elementary principal, and managed to become walkathon champions repeatedly are in for their next challenge. Grade 7 offers a whole slew of new teachers and, of course, new challenges. Though middle school is nothing the dream class can't handle, you have to wonder we're in for. Though grade 7 is very different from elementary, the change is for the better. Not everything is new though. We still have the pleasure of having our french class in the familiar classroom of Mme. Perry every Monday, Wednesday, and Friday mornings. At first, I'm sure the new classrooms, teachers and styles of assignments frightened everybody, but we

are all used to it now. We are taught Math, Science, Religion, and CAPP by our new homeroom teacher, Mrs. Ottnad. We learn English in Mrs. Murray's classroom, but are taught by Mr. Deslauriers. One way Mr. D. motivates us is by promising us a game of dodgeball if the class average for a test is over 81%. Socials is taught to us in Brother Mike's classroom by Brother Mike himself. Physical Education is taught in the gym, in the wrestling room, or on the field. Brother Mike also teaches this. But the highlight of my Mondays, Wednesdays, and Thursdays is my band class. Mr. Olson teaches us how to play our instruments. Overall, grade 7 is turning out to be one of the best years the dream class will ever have.

**D**eep in the bowels of Nichol and McCormack Halls lies the Elementary school of Vancouver College. Inhabited by a tribe of cute and cheerful Liliputians, these carefree little creatures roam the halls brimming with curiosity. Peals of laughter and shrieks of joy are often heard in the playground, where they reign supreme.

Elementary students learn to stretch their imaginations, expressing their creativity. During play time they become cowboys, Indians, intergalactic heroes, knights in shining armor; the possibilities are endless. From these dreams a vision will grow, a vision that will guide them for the rest of their lives.

Learning the basics of language, science, and math, they lay the foundations for further intellectual growth. With playful roughhousing and games of tag, they gain a passion for active living. The fundamentals of Catholic faith are introduced at this stage of their lives, beginning their spiritual journey.

These carefree days are to be cherished; in a few short years they shall learn about responsibility. Until that day comes, however, fun and laughter will dominate their lives.

# Grade Six

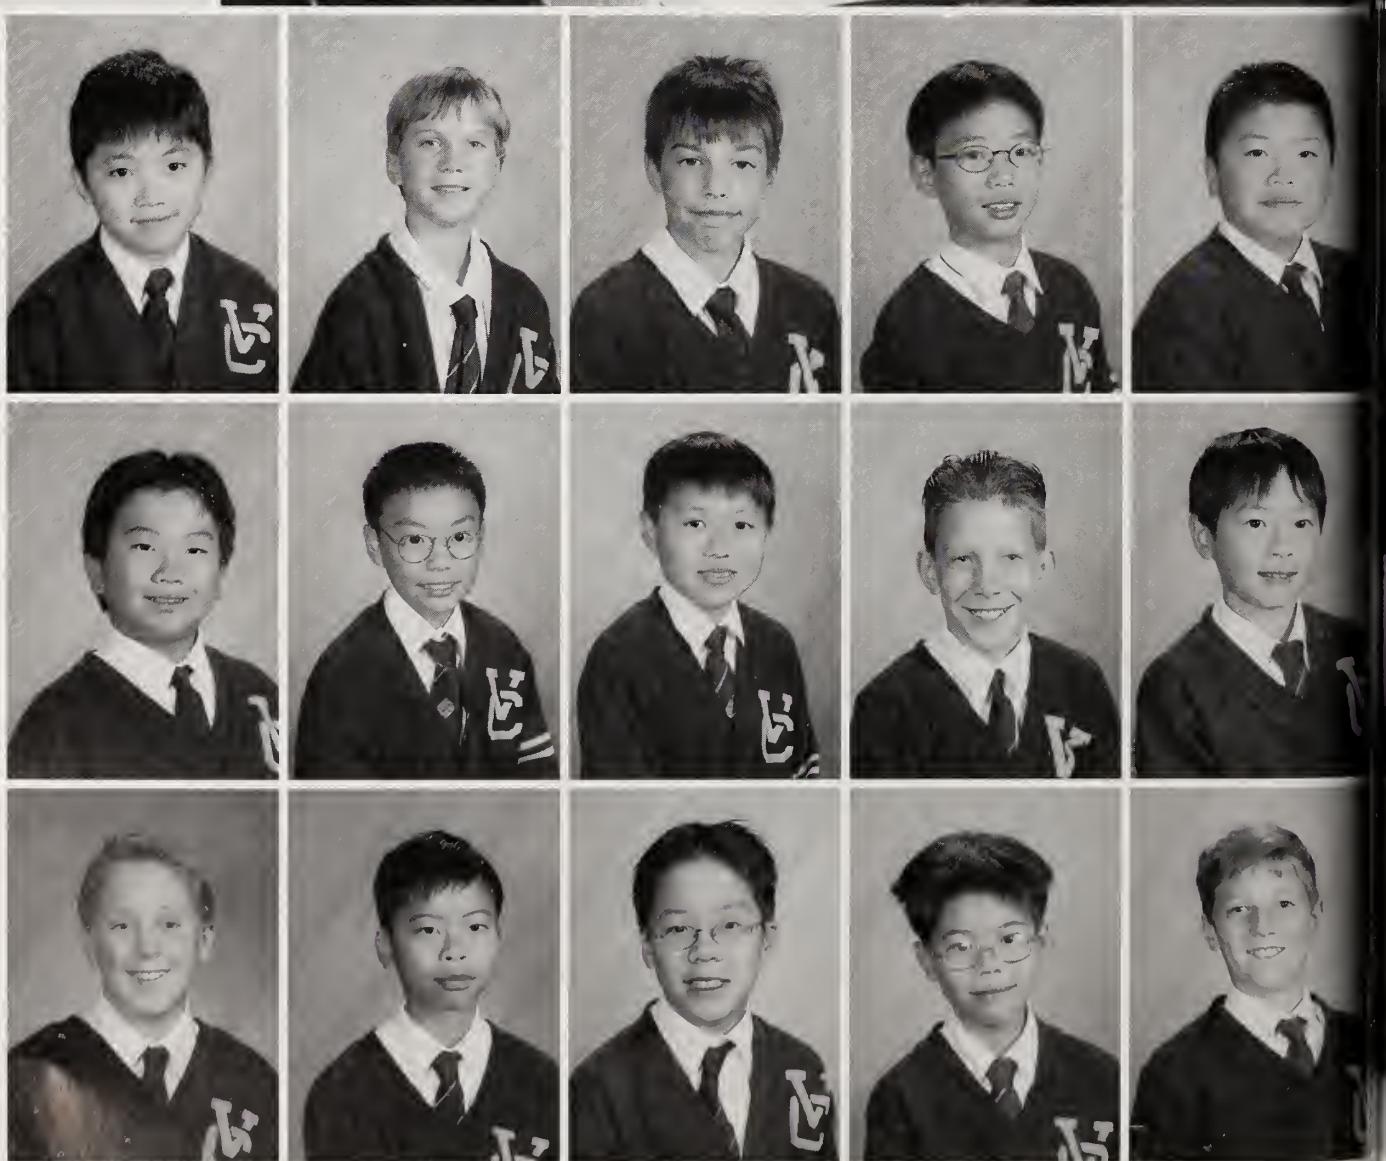

Grade six is very challenging because we are expected to be more responsible and behave. It is exciting because we are the role-models for the younger grades. For Halloween we created a haunted house. We had a torture chamber, the house of the living dead, and a spooky tunnel. We participated in basketball and volleyball tournaments against other schools and we recognize many kids from there. After lunch we stampede onto the basketball courts, track and playground looking for games to play. In Socials we studied Japan. It's neat because we learn a whole different culture. Grade six was a real good memory that we will keep in our lives. We will truly miss the elementary, but we are looking forward to grade seven.

# Grade Five

Grade five is an exciting class. We have two love birds named Chiko and Blossom. Chiko is green and Blossom is yellow. Our teacher Brother Conti allows us to take out the birds and play with them during class. We also have fish, ants and preying mantis. The ants are in the class because we are studying them and observing their habits and behaviour. This year our class held an election for class president. Six students were nominated. They had to make a speech and present it to the class. After that, a secret ballot was held. Brother Conti counted the votes and announced the winner. Our class has a group that plays mostly classical music on special occasions. Our group consists of one clarinet player, three violinists, one cellist, several piano players

and some recorder players. After studying Antonio Vivaldi, our string and clarinet players got together to play some of this greatest music such as Autumn and Spring to the class. For sports this year, we have a volleyball, basketball, and track and field teams. Brother Conti coaches the basketball and volleyball teams and Mr. G is our track and field coach. We also have intramurals at lunch recess. Brother Conti is a very good and entertaining teacher. Grade five is the best and most interesting grade so far in the elementary!

# Grade Four

As we grow, we are given more responsibility not only in school but in life as well. It is a time when we are allowed a little more freedom to make choices and learn to accept the consequences of our actions - play Nintendo or do homework; behave in class or get detention? Beneath all this childish confidence, we know that we are still very much in need of guidance and direction from our teachers and parents. There are times when we play and have lots of laughs. Other times we get disappointments. There are times for serious hard work. There are times we just relax and let go. There are times when misunderstandings arise and feelings are hurt, but no matter what, after apologies are given and accepted,

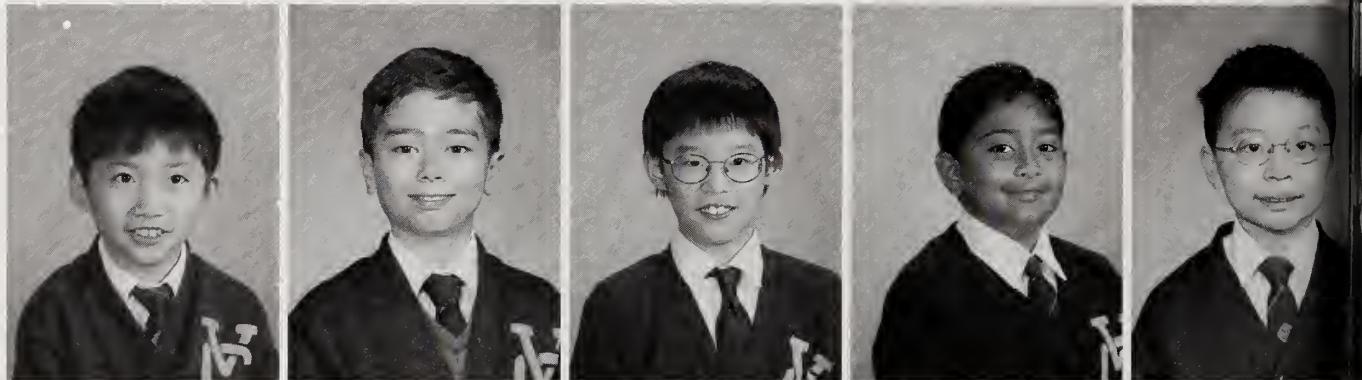

we all remain to be friends. We all have different likes and dislikes but we try our best to put our differences aside and help each other out. Some like gym while others enjoy math, music, French, science, socials, or library. But there's really no reason to like one over the other since they are all fun. Something we all get excited about are certain activities we have from time to time like art, science experiments, social workbooks, May Fair, Christmas concert and others. These activities are fun because it offers us something different from what we normally do. It also gives us an opportunity to show our hidden talents. Finally, most of us look forward to the weekend when the thought of school is temporarily far from our minds. Then we

realize that school is more a benefit to us rather than a burden. We think this way at least until Monday morning when we have to go back to school again.

Life in Grade Three is hard. Well it is still cool - you get to play on the track, you are the oldest in the primary, and you get two cool, great and nice teachers but you still have to be responsible. In grade three you get harder math and you have to be nice to the other grades.

# Grade Two

Grade two is very fun. I like physical education. We play soccer and learn more about basketball and play games. We learn hard spelling words and get tested to see if we remember our grade one words. Ms. Herb sometimes gives us a prize like sometimes she brings us to the playground if we are good. In French we have a king that gets to wear a king costume and a crown. Everybody likes recess. There are always different games at recess. Ms. Herb gives us lots of phonics to do. At physical education there are three games of terminator. There is 1,2,3. When the colours of the balls are the same it is supposed to be terminator 1. When we go to church Father Horgan is the priest. Most of us like physical education and recess. We need to be good.

# The Faculty

The faculty and staff of Vancouver College are guides and leaders, instructors and teachers. They give knowledge and advice, suggestions and care. As integral members of the community they make extracurricular activities possible. Be it sports or the arts, dances or field trips, their presence enhances the opportunities offered by Vancouver College.

Knowing that students learn at different rates and different ways, they provide for individual differences. By helping students to acquire and maintain self-confidence and a positive self-image they nurture talents and encourage the explorations of their inner selves. Holding students accountable for their own actions, they teach responsibility. In turn, students care for and respect themselves and those around them.

Projects and assignments give students the chance to express their creativity, hone their skills, and create magic. The magic of learning is truly a wonder to behold. Heretofore-untapped potential blossoms before their eyes. Young and old, the dawning of understanding and comprehension makes the trial and tribulations of the struggle all worthwhile.

Confident that all students have the ability to change, they set high expectations knowing that they will be met. They are not often disappointed. Students respond to the challenge and push their restrictive cocoons outward. With patience and encouragement, these cocoons wither away and the chrysalis within emerges as a thing of beauty.

They imbue a love for knowledge. Their most valuable lesson of all is to learn how to learn, setting students on the path to success.

# An Interview With Br. Murphy

Q. Please tell us about your family back home and why you became a Christian Brother. What were your motivations to do this?

A. Well, first of all, back home in St. Johns Newfoundland, I grew up there, we had a large family. There were 12 of us. I had seven brothers, so there were eight boys, four girls. Both my parents are deceased. Three of the 12 live within parts of Canada, and the remaining nine live in Newfoundland. Why did I go to Christian brothers, cause I went to a Christian Brother high school. When I was young, I went to Br. Edmund Rice school and my older brothers went to other Christian Brother schools such as Holy Cross, for example. They spoke very highly of the brothers and the tone and atmosphere of the school. When I went to high school, I discovered that tone and atmosphere and was very involved in it. Not in the athletic part of it even though I was a great supporter of, you know, the school hockey team and school basketball team. Hockey and basketball were the two key sports in that school at that time. They still are. I go to most games but I was in to student council, yearbook, leadership groups, filmmaking and things of that nature. I knew the brothers well, I admired the work they were doing. It was sixties, it was a turbulent time. It was almost counter cultural to commit yourself to anything. Most people were not willing to be committed to anything at all. Everything was on flow, and, you know, it was a partly a counter cultural move on my part and opportunity to try to express and develop and understand my own faith in that manner, and sometimes I can live with open endedness, not knowing exactly everything first but that what's faith is all about. Ultimately it led through the dark. So, um, when I was surrounded by a lot of people who supported that decision, so I'm very happy to do it, and have not regretted it.

Q. What was your initial reason for pursuing the administrative position at Vancouver College? What makes VC different from other schools?

A. Well really that's two distinct questions, but I'll attempt to do the first one (cough). I have administered five schools including Vancouver College now. So I was very happy to be in the school. Prior to this, I was the principal of Edmund Rice Secondary in Toronto. Um, Br. Kiern Murphy was finished his administration here and would be moving on with other aspects of ministry within the congregation. I was very happy to stay at Edmund Rice, the principalship of Vancouver College was for the first time publicly advertised and I was in support of that decision. The leadership of the congregation asked me to consider applying. At first, I would not even consider that. Um, in thinking about it a little bit, praying about it a little bit, I did not, I wanted to avoid a situation where it felt like or looked like that the Christian brothers would walk away from Vancouver College in a very important time of its history. Equally I had to be willing to, if I applied to, either to be accepted or have someone else

chosen, and I had to prepare myself for that and said, well, do I want to go through that process. And I said fair enough, yes I would do that. I had occasion to visit Vancouver College and a number of times prior to that working with the board of directors that was somewhat familiar with the broad and fundamental issues at this school faces with great courage I might add. Wanted to, if I could, be of support, in helping to bring the broader issues to a just resolution, and so I said yes, I would let myself be consider and by gosh they said yes (chuckles).

Q. What do you believe is important and necessary for a student and yourself to benefit from the opportunities which VC offers?

A. (Pause...) Well, there are just so many important aspects. Sometimes life is complex and sometimes that complexity can be very, very simple. I suppose, an underlying tenet of any rapport or something deeper than a

**Br. Murphy - some people only know him as our school principal. Being his first year at VC, it was only appropriate to get to know Br. Murphy face to face. Here's what he had to say...**

rapport relationship is trust and sincerity. We both have to be people of good will. We both have to seek to develop ourselves and go beyond where we are right now. To see the good of each other but not to stay there but to move forward. Always moving forward. Um, civility, I think, is perhaps the most important thing. We can always deal with whatever the issues are of the day, whether they are things that we like to celebrate and give us great encouragement, or things that are on the shadow side in moments of poor judgement or dishonesty or things of that nature. We can always deal with it as long as we have courtesy, politeness, manners and justice and inspired ultimately by the Gospel messages of Jesus Christ, looking for that redemptive moment and never out to nail someone to the ground! You know, there always has to be a seeking of opportunity to redeem, to grow and to move forward.

Q. What message would you like to convey to the school community?

A. What message do I want to convey? First of all I want to say to the student population at Vancouver College, thank you for welcoming me. That's the first thing. They have been kind, they have been gracious. It takes time to get to know each other and the process is always undergoing. You know, you can't just sit down, look at them in the face and tell them everything. It's in the doing, it's in the living of

life and the interaction that goes between the administration and the students. The student body at Vancouver College is far more good than not. Present and visible and obvious in there and I'm impressed by that. Those moments when there are things we are not proud of sting a little bit only because they are such stark contrasts to all the good that is so evident.

Q. You have emphasized many times that Vancouver College is a Catholic school. Do you feel that the school currently imparts a sufficient understanding and appreciation of the Catholic traditions in its students? And how

A. Well I, in listening of your question, the word "sufficient" grabs my attention. Yes I certainly think that it is sufficient. But we don't aim for the bare minimum, just the minimum sufficiency. Um, Vancouver College is in deliberately by intent, by the foundation, by incorporation, a Catholic school. It makes no bones about the following: the Gospel message of Jesus Christ as interpreted by the Roman Catholic church. Um, and we adhere to the tenets of the Catholic Church. The Catholic Church is really the pilgrim group of sinners on their way back to the Father. Though, there is all of shadow side to be dealt with. The church is usually very clear about teaching on particular manners. In other areas, the church recognizes that it is a struggle for all of us. So at Vancouver College, we say that we put the emphasis of the Catholic schools. We teach the religious education from Kindergarten to Grade 12. Is there room for improvement in the area of religious education courses? I'm sure there is. We do not claim perfection so therefore there must be room for improvement. But the ethos of the school, how we are as a community of people. You know, we have different interests, we have different challenges, we engage in all these kinds of

# Principals' Messages

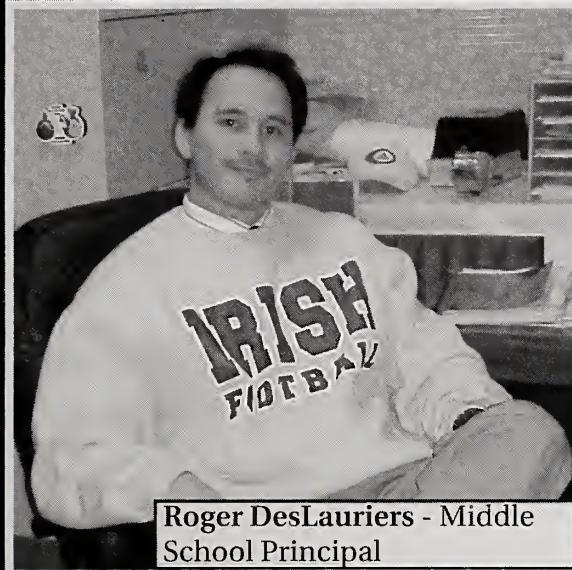

Thomas Schimmer - Senior School Principal

As we move toward the new millennium, Christians around the globe are faced with the challenge of continuing to strengthen our presence in society. As we continue to grow spiritually, we must stand in the face of the gradual secular fusion into institutions and beliefs that were once considered sacred. Life is about challenges; it is about overcoming adversity to be the person God is calling you to be. God's presence in our lives can be a daily renewal of our faith and lie that doing what is right, standing up for what we believe, and proclaiming Jesus as our Saviour and Lord is our first step toward salvation.

Vancouver College is poised for the century with a great sense of community. We have always taken pride in the fact that we have helped develop young men of leadership, academic excellence, athletic competitiveness, and social responsibility. Our desire to educate the whole person is further enhanced by the people of Vancouver College.

The people of our school community are what make this a special place. The dedication of the faculty, support staff, parents, students, and of course, the Christian brothers is evidence that the vision of Br. Edmund Rice is very much alive and well in our school. Vision is crucial to future success. We need to be focused on our mission and how it will manifest itself in all we are and all that we are about to do. Success is not a destination but a journey. The outcome is truly not as important as the lessons learned along life's path. Experience comes from poor judgement; poor judgement reveals our humility before God. Embracing the teachable moments in our lives brings us closer to understanding our purpose and the role we each play in society. Congratulations to everyone for a successful year. May God bless all of you in everything you do!

Roger DesLauriers - Middle School Principal

Barbara Seppelt - Elementary School Principal

A bend in the road is not the end of the road... unless you fail to make the turn.

As we approach the new millennium we all anticipate change and the newness it will bring; a new year, a new decade, a new century, and many new challenges and opportunities. Vancouver College, in its quest to keep pace with an ever changing world, must recognize and embrace these new opportunities and challenges. We must continue to succeed at meeting the varying needs of our students, developing an effective and integrated curriculum, maintaining a school that is Catholic in name as well as in practice, and upholding the many traditions which help shape the ethos of our school community. The middle school is blessed with an abundance of multi-cultured and multi-talented resources, our teachers and students. We need to utilize these talents and encourage them to be expressed in the classroom, on all playing fields, and in the community as well. As change surrounds us, one thing must remain constant; our willingness to always be better, to uphold the Irish spirit.

Going far beyond the call of duty, doing more than others expect - this is what excellence is all about. And it comes from striving, maintaining the highest standards, looking after the smallest detail, and going the extra mile. Excellence means caring; it means making a special effort to do more.

As well as being assistant principal in the elementary, this year I taught afternoon kindergarten. It was a most wonderful experience. I saw the everyday joys, hopes, and dreams of the boys on a daily basis. When asked what they wanted to be when they grow up, the kindergarten boys responded with astronaut, pilot, king, and many more noble ambitions. Somewhere between kindergarten and grade twelve, something happens to those dreams. The dreams are lost, for some reason don't seem possible, or they become obstructed by the daily pressures. We need to be able to hold onto our dreams, know that they may require a lot of work, but they are possible. The famous cartoonist who draws Dilbert, wrote his dream down ten times a day. He didn't want to lose sight of his goal, and he says that it was this persistence which made his dream become a reality.

Dr. Seuss wrote a book entitled *Oh, The Places You'll Go!* It is directed more to teens than to his usual crowd of early readers. It starts off by saying

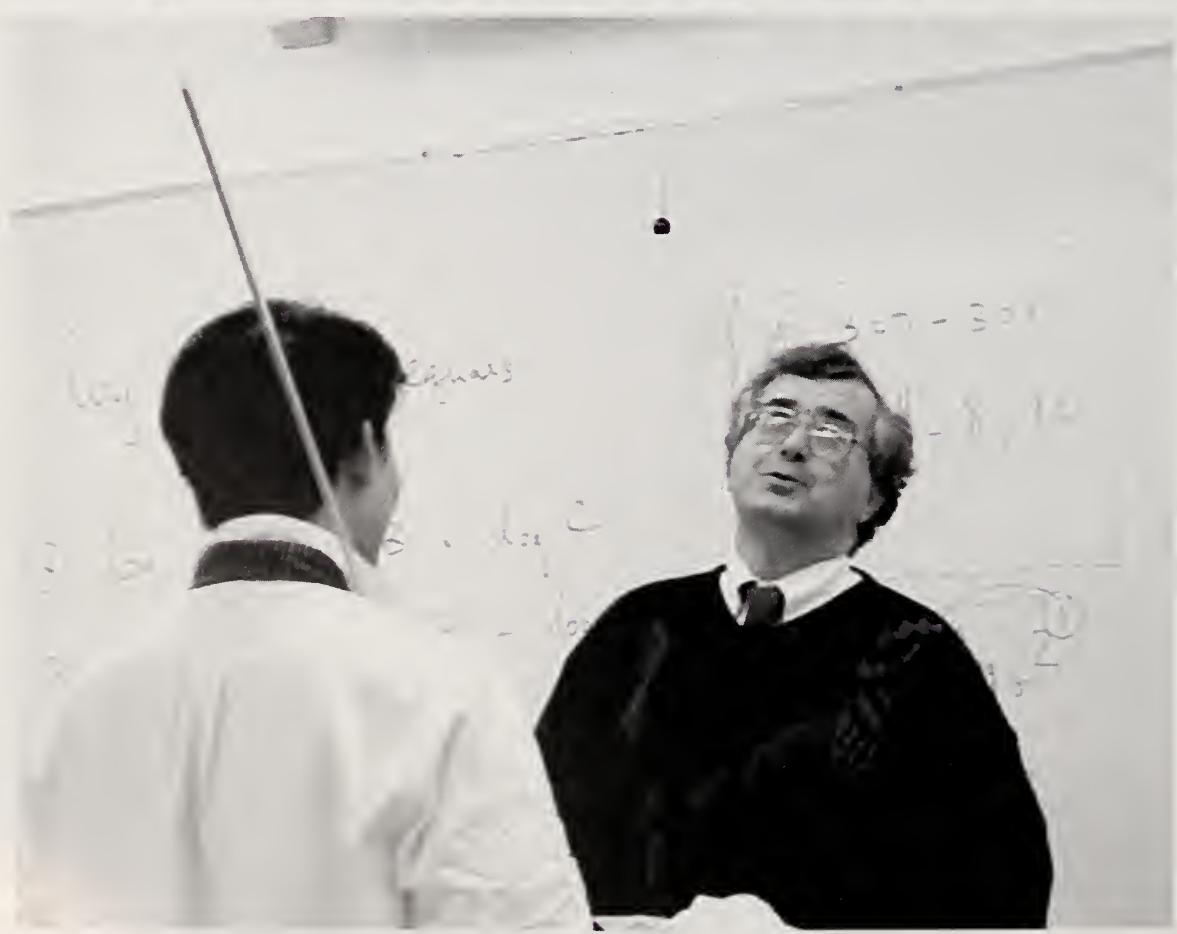

You have brains in your head.  
You have feet in your shoes.  
You can steer yourself any direction you choose.

The words are simple and the message is clear - everyone, kindergarten to grade twelve, is able to make decisions which will bring them closer to their dreams. We need to have faith in God, in ourselves, and not lose sight of our dream.

"If it is to be, it is up to me."

# Athletics

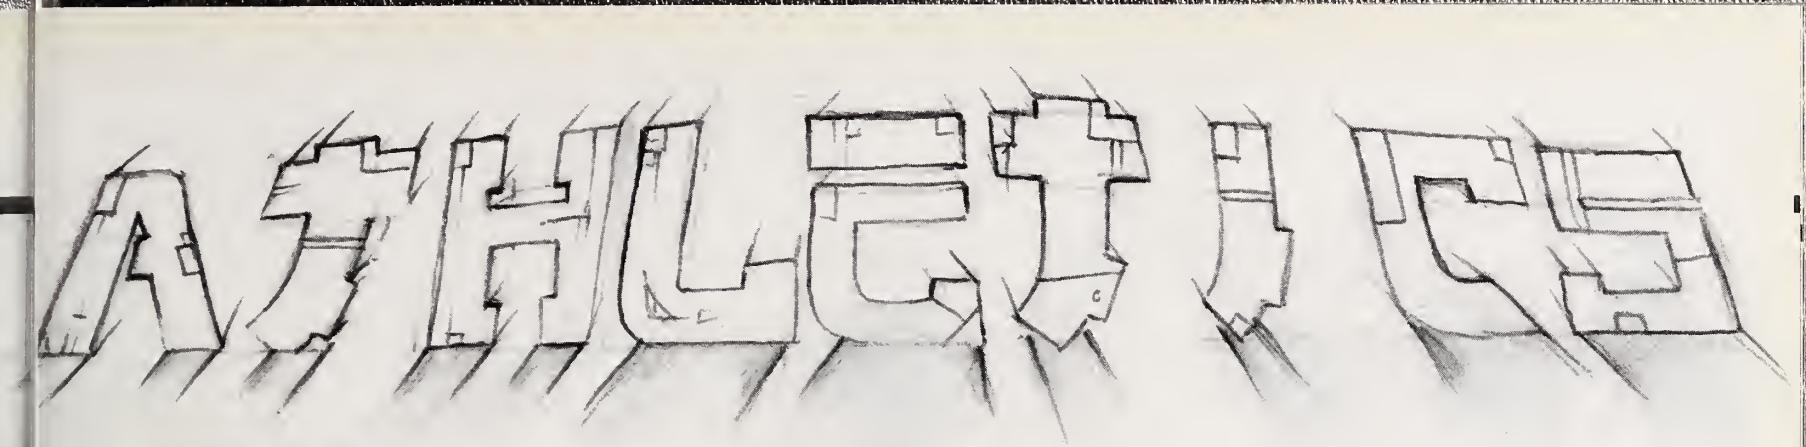

Within the Vancouver College community lies a diversity of talents and skills. This diversity is the raw material behind the Vancouver College tradition for athletic excellence. Excellence means going beyond the minimum, beyond the required - and the athletes of Vancouver College certainly qualify.

Talents are nothing without the will to use them. The time taken to fine tune the skills needed in the playing field requires perseverance and patience, endurance in the face of adversity, and the determination to overcome any obstacle. A hunger for victory must reach the point when it cannot be denied; then, and only then will victory be achieved. Through good times and bad, the athletes of Vancouver College persistently push onward, plowing through the opposition.

Placing the needs of the team above their own goals, the Irish unite behind a common vision. They give their whole selves to the endeavor, and in return receive much, much more. The satisfaction of membership, the fulfillment of camaraderie, and the glow of victory all belong to these warriors. Warriors, yes, warriors are what they are: whether on the courts or on the field, they battle tooth-and-nail game after game. The hard work and effort spent by the teams every single day, be it in practice or in a game, speaks for itself.

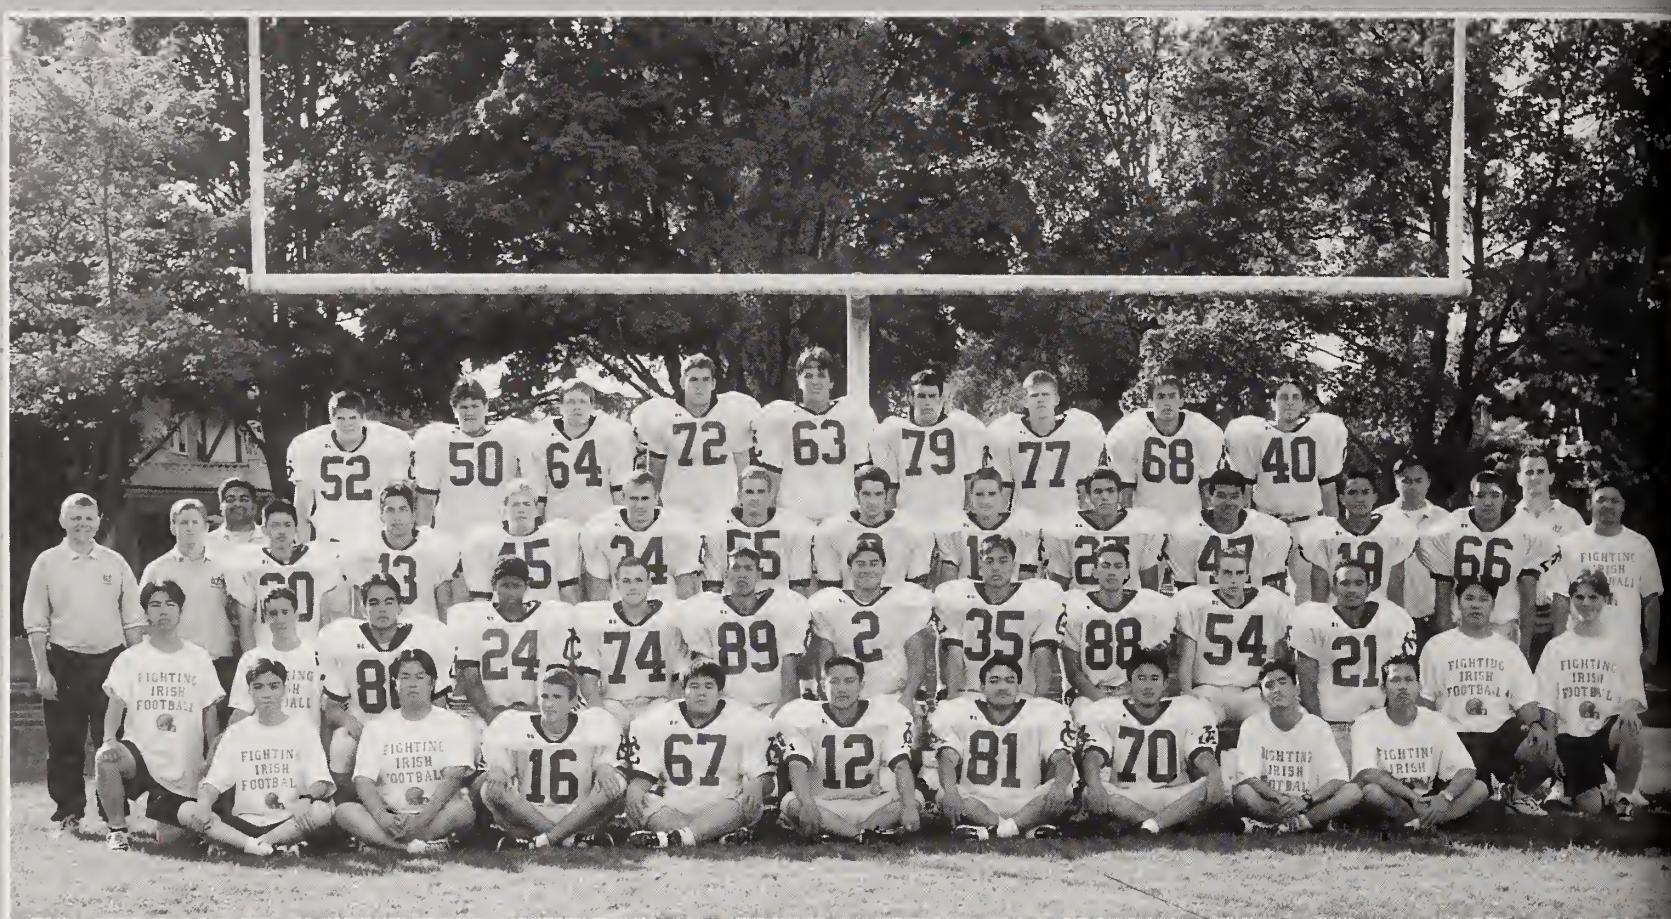

We are proud of our athletes, and they make us proud. Consistently among the best in the province, they excel in areas from football to wrestling to track. Athletics is a way to break out of your shell, to meet new people and experience new things. Sports becomes part of who you are - a part of your identity. In fact, it becomes a part of who you are.

VC vs. Notre Dame Jugglers (quarter finals)	L 0-7

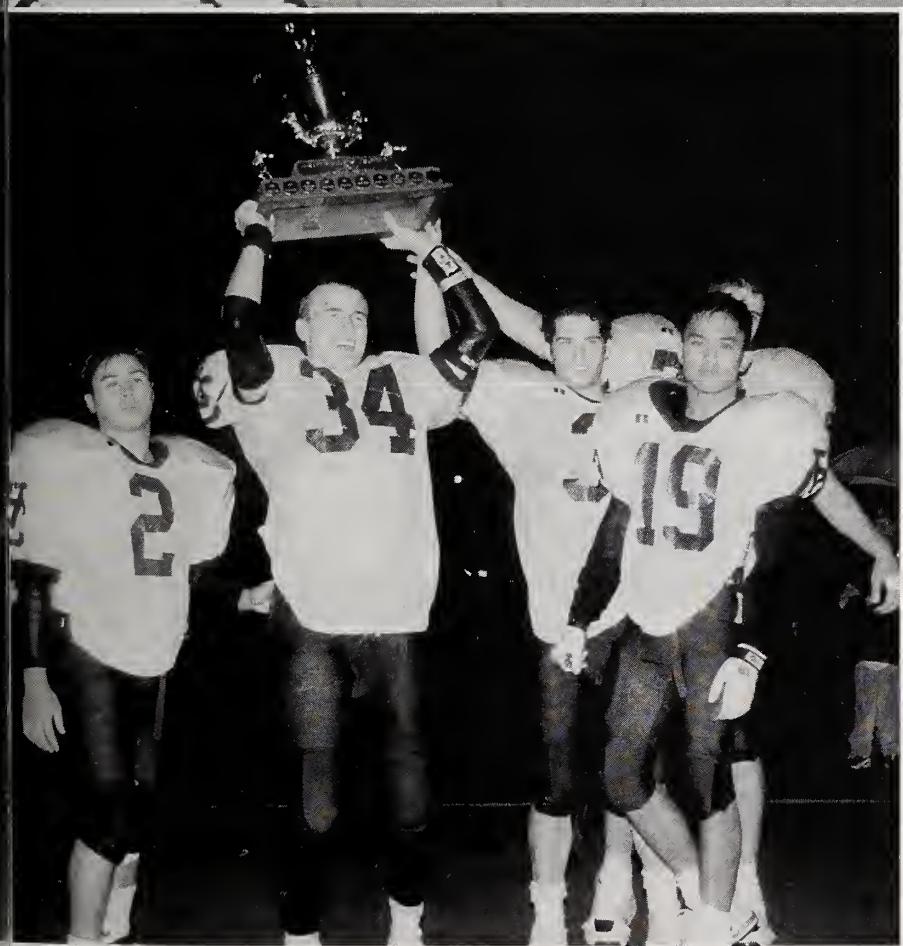

On Friday, November 13th, the Vancouver College Fighting Irish retook the Archbishop's Cup from the Notre Dame Jugglers. Things were looking great for the star athletes. Unfortunately, the Fighting "F" lost in the first round of the quarter finals. For the first three quarters, the game was scoreless. It was during the fourth quarter that the only touchdown of the game was scored.

Once again, the Varsity Fighting Irish has carried out the proud and successful tradition of Vancouver College Football. Despite an early exit out of the AAA provincial playoffs, the team demonstrated great unity and hard effort. Under the leadership of new head coach, Tony Howie, these young warriors battled through a successful season by shutting out five of their ten opponents. Consequently, the team was ranked third among a group of elite teams in the province. The Irish also defeated archrival Notre Dame for rights to hoist the Archbishop's cup. The determination of these talented young men, of both grades twelve and eleven, deserves the admiration and envy of many. With the help of dedicated coaches, trainers, staff, and managers, the players are able to leave behind an unforgettable season for future generations of VC. They have shown the true spirit and pride of the Fighting I.

This year's 1998-99 Varsity Season was filled with much curiosity, as well as great speculation. Many questions arose from the fans as to how well the team would perform this year with the majority of the players from last year's squad gone, and some key players returning. Nonetheless, all mysteries were answered when the final buzzer sounded. The team was under the guidance of first year Varsity Coach Mr. Pasquale and his two Assistant Coaches Jon Tagulao and Jason Lam. Frustration was visible early in the season as the play of the team was inconsistent. However, the hope and enthusiasm of the players did not diminish. Along the way the team picked up a good

showing at a tournament in Toronto, despite taking home a winless record. Success soon reached the team as we had strong showings against Richmond High and wins against North Surrey and White Rock Christian. Down the stretch we managed to capture second place at the St. Michael's University Tournament and at our own Emerald Tournament. Unfortunately, just as the second half of season began, so did adversity. We opened with three straight losses in League play to St. George's and S.T.M.. This left the fate of the team in the hands of others, which turned out to be disastrous when St. George's defeated S.T.M.. That game closed the door on any chance of post-season play for this

year's Varsity squad. We never really knew if this was the way things were supposed to unfold, but the one thing we were sure of is that success is not something we receive, but rather something we earn.

The 1998-99 junior varsity basketball team has had an exceptional season. The team consists of 12 extremely talented and skilled individuals & dedicated managers and 2 coaches. They have put countless hours of hard work to ensure their success. Coming from a provincial championship last year the team has built on its unity, forming a bond unbreakable by any. The season has had its ups and downs but in the end when it comes down to it the junior team displayed pride, heart, and determination. They have represented Vancouver College in the best way possible. This JV team has overcome any and all adversity to be where they are today, making everyone very proud.

Vancouver College's Basketball program spans from gr. 4 all the way to gr. 12. Starting at an early age of 9, coaches Conti, MacCrae, Montgomery and Giacommaza ensure that the elementary students develop and enhance their skills. Furthermore, these coaches teach the important concept of teamwork which they drill in to their pupils at every practice and at every game. Without teamwork, they will not be successful.

# *The Strength of the Irish Crew*

**A**s the fierce sun gleams off the water in brilliant hues of gold, red, and orange that strike us full in the face we think back to all the not-so-glorious, rowing memories. From dry-land training in November and the bitterly blistered hands to the long, cold, early-morning runs, we know rowing is special. It is something about the endless hours of pain, coupled with the rare moments of glorious satisfaction that characterizes who we are. Perhaps it is the victory we all win for ourselves when we exceed our own expectations. Perhaps, simply, it is knowing we are rowers. Rowing is cool.

\* Qualified for the British Columbia Provincial Championships.

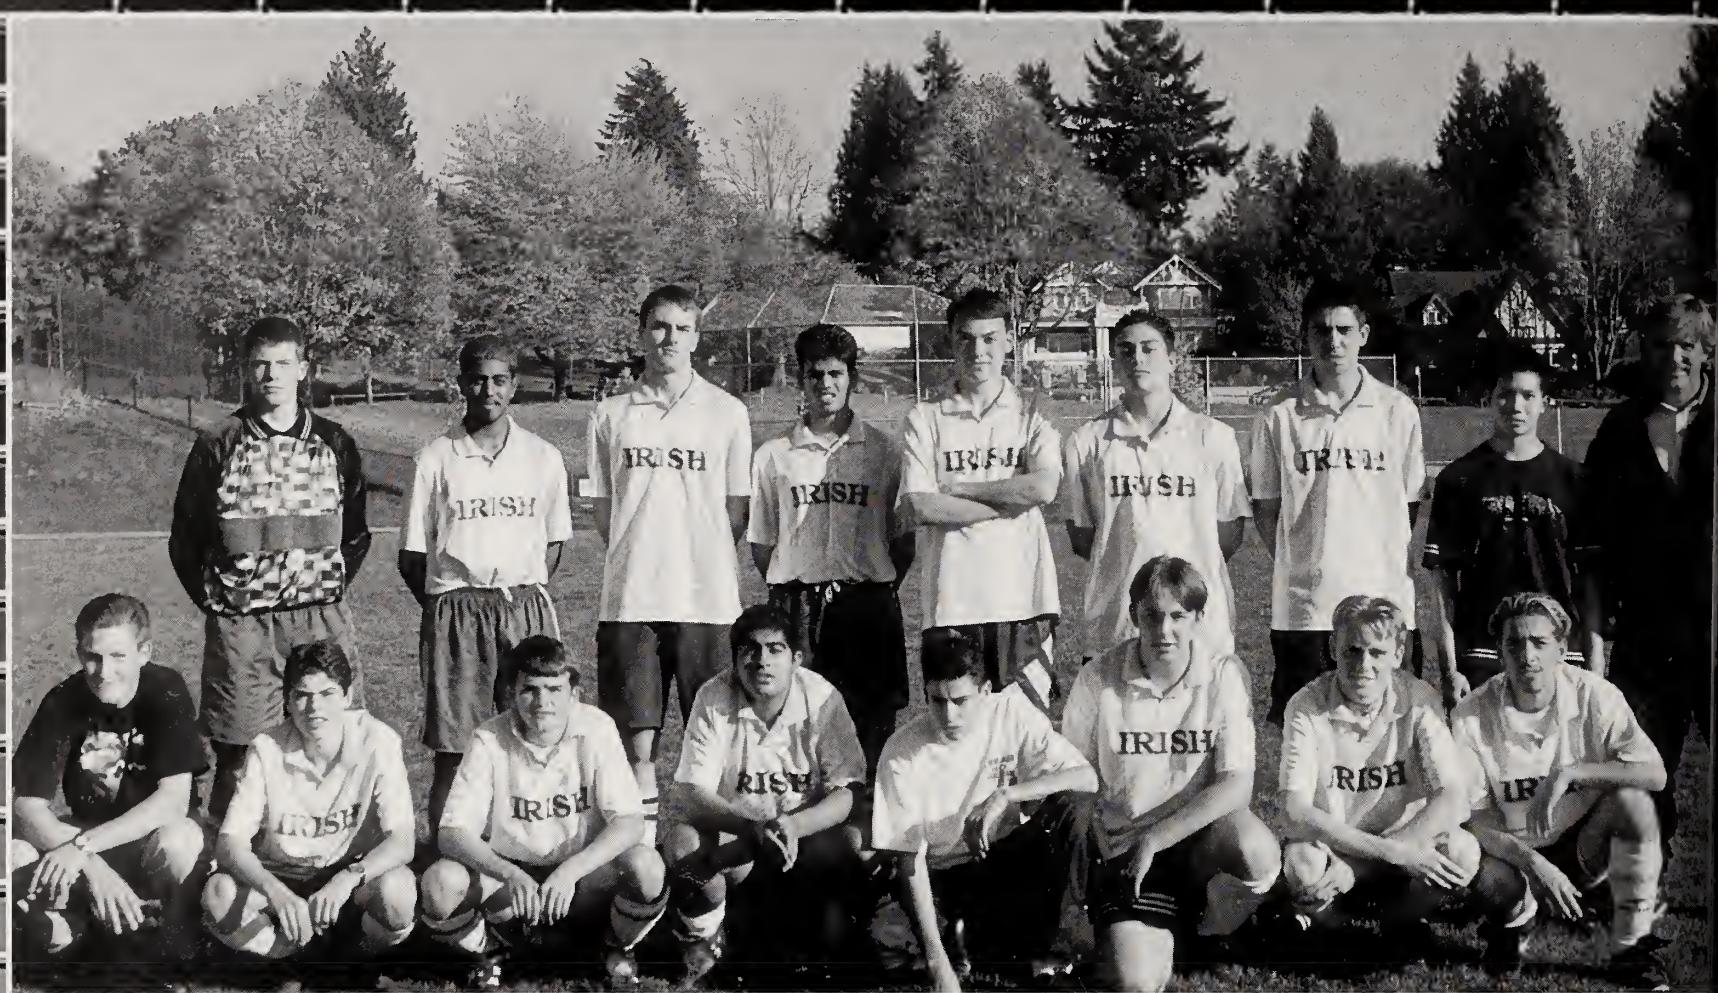

This year's wrestling team spent three months of intense physical work in an unventilated room not much larger than a classroom. Some might say it was because of this character-building training that our team enjoyed the success that it did. In competition at all of the local meets, our Irish wrestlers consistently placed in the top three with several first place finishes. Captains Tom Andrews, Matthew Crooks and Trevor Mills led the 1998-99 team. Also, several coaches generously donated their time. They are Mr. Wade Anderson, Mr. Gordon Penn, Mr. Joe Yee and Mr. Kevin Boreham. Eight members of the squad qualified for the B.C. Secondary School Wrestling Championships where they successfully competed. This was one of the tournaments where the wrestlers stayed overnight in preparation for morning wrestling bouts. The provincials saw the team travel to Abbotsford, while other multi-day trips were made to Port Alberni and Kamloops. The future does indeed look bright for the wrestling program as many of the juniors enjoyed much success.

We are unknown, under-appreciated, and unrecognized in the halls of Vancouver College, but when we walk on the court, we give opponents a feeling of frustration and despair. We make this sport look easy, when in fact it took years for us to be where we are now. United by a thirst of

victory, we form a team, where we are able to learn many valuable lessons that will last us the rest of our lives: trust, loyalty, and communication are only to name a few. After four long seasons we were able to reach the top of the ladder, the front of the pack. In '97-'98, the V.C./L.F.A. Tennis Team became the AAA Provincial Champions. We

were the last ones standing in the struggle for supremacy... and now we must do it once again.

*"If you see a tennis player break a sweat on a cool day, then that means he isn't very good."*

**By Allister Flojo**

**F**or the first time in Vancouver College's illustrious history the school can claim to be provincial champions in the sport of tennis.

The smiles of victorious teenagers created a buzz that energized the entire tennis club. An entire season of hard work and dedication was capped off with a provincial championship. We sat idly by with a few pieces of silver watching Sentinel carry off their gold medals. The feeling of disappointment was tremendous. That was last year. This year was going to be different.

Determined to improve on last year's disappointing finish, the 1997-98 edition of the VC/Little Flower Academy tennis team practiced extremely hard. Coached by Mr. Budai the team compiled an impressive 9-1 record in league - losing only one match to Prince of Wales in which all the key players did not play.

Entering the playoffs the roster was set and all focus was placed on winning the Vancouver league. The first victim was the Winston Churchill Bulldogs whom the Irish destroyed 9-2. The league finals presented a familiar foe as the St. George's/Crofton House team tried their hand at downing us. Try as

they might the Saints could not handle the LFA players who beat them with ease. We advanced with a slim 6-5 win.

The provincials were up next. We were back where we wanted to be. We entered Victoria's Claremont Secondary with a firm sense of confidence and with something to prove. This year we would not be denied.

In round-robin play the victories came fast and furious. Burnaby Central posed little opposition to the VC/LFA freight train and were routed 10-1. The Oak Bay Bays played some tough tennis and competed briefly but they could not sustain their efforts and fell 7-4. Thursday's action finished with the Irish Angels winning our pool and entering the playoff round just as we had planned.

Friday began early as the quarterfinals opened at 9:00am. A pumped up Richmond Colts squad proved to be a microscopic test as we embarrassed them 11-0. It was a wonderful display of tennis by VC/LFA and sent a message to the other teams that we meant business. From there it was on to the semifinals to face the Blues of Port Moody. With the sun shining brightly onto the courts and the wind blowing so gently that it provided only minimal relief from the heat the match turned into a blowout. We dominated the matches in all phases and came away with a surprisingly easy 9-2 win.

Saturday May 30, 1998. It was time for the finals. We entered the match extremely confident that in a couple of hours we would be provincial champions. We were convinced that we could not be beaten by St. George's/Crofton House. Three times already this year we had beaten them so why would this time be any different? Fortunately it wasn't. Receiving great performances from all players we won the match 8-3.

The smiles of victorious teenagers created a buzz that energized the entire tennis club. An entire season of hard work and dedication was capped off with a provincial championship. This time however it was us wearing the gold medals - the envy of all the other teams. It sure felt good to win.

The Irish Track and Field team had another very successful season. The senior team again showed that it was one of the best teams in the province, placing in the top three in the provincial championships. Outstanding performances during the season were turned in by many athletes especially Desi Leo, David Grant, Mark Ramos, Rod Guterrez and Ryan Hayden. Many of the junior athletes also turned in exceptional performances in local meets, winning numerous individual and team aggregate award. With the assistance of coaching staff (Mr. Penn, Mr. Howie, Mr. Devenport, Bro. Colford) the team can look forward to another strong season next year.

# Multi-Talented

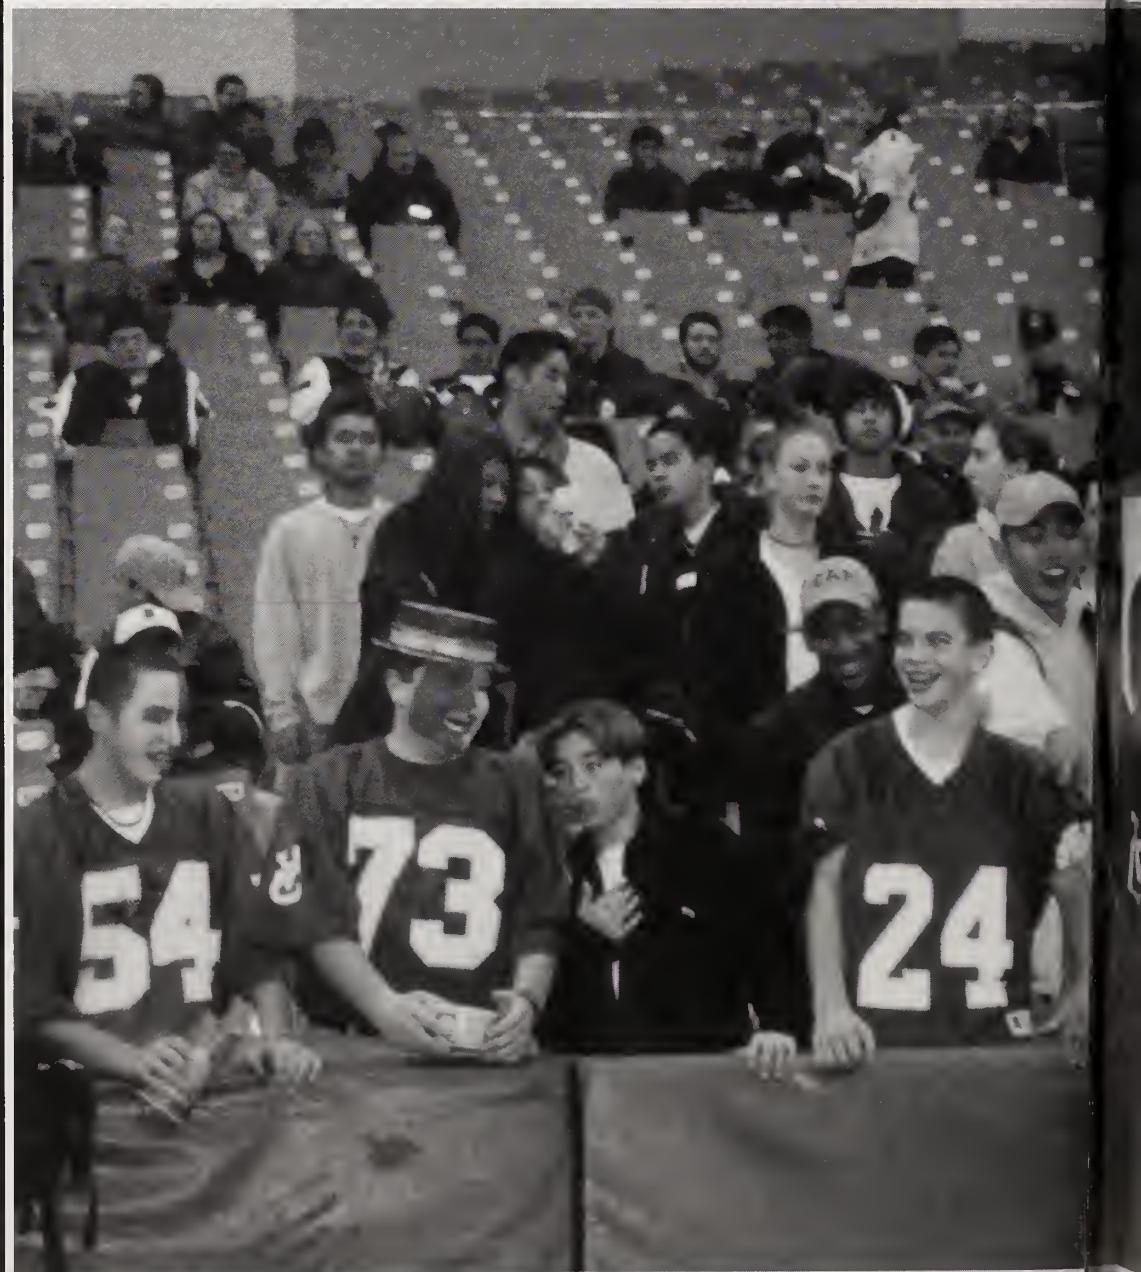

# Irish Pride

The pride of the Irish is a part of our strength. We follow our teams and demonstrate our pride and spirit to our opponents. Strong, loud and clear voices ring out, making Vancouver College's presence known. The many proud members of our community march out to the games and make our presence felt. Our spirit is personified by our mascot: the Finnegan. He leads us in our spirited battles, inspires us to victory, and leads us in the celebrations afterwards. When chased by the Italian mob in the pep rallies our whole community took up arms to protect each other. Our cheers brings forth terror and fear in our opponents. We will not submit to our formidable opponents. We are the Fighting Irish! We will fight for our community and we will win out. The Vancouver College family is proud of their athletes.

AH! LET'S GO IRISH! WE GOT SPIRIT, YES WE DO, WE GOT SPIRIT, HOW 'BOUT YOU?

# Organizations

Academics might be the main reason for attending school, but it is by no means the only one. While each of us displays our own abilities in academics, it is in the different clubs and organizations where we really shine. It is in the different clubs and organizations where our full range of talents, interests, and abilities display themselves.

Organizations bring fulfillment and satisfaction that cannot be achieved from an 8:30 to 2:45 existence. Together with sports they bring about a deeper involvement with the school community for the benefit of all. In these clubs friends are made and relationships are formed, all in the name of fun. Clubs give us the opportunities to explore our inner limits and probe the possibilities of our future.

In a garden, flowers and plants are arranged to complement each other. A cluster of gladiolas here, a group of orchids there - together these groups improve the garden as a whole, and bring it unity and organization as well as color and life.

Interests of every kind are represented in Vancouver College. Student leadership, a school newspaper, and various service organizations such as the Edmundians, the Lettermen, and the peer tutors are among the major groups open to the senior school. Other clubs, such as the computer, chess, and environment cater primarily to the middle and elementary schools. These clubs develop new skills or refine pre-existing talents and bring practical uses for these aptitudes.

Missing: David Segal (8-4), Andrew Tarver (8-4), Kevin Agger, Sergio Ferreira, Jeremy Chan (8-3), Mike McConnell (8-3), Mike Infante (8-1), and Elmer Arguelles (8-1).

The school's student council is the link between the students and the staff and administration. They bring forward to the principals and staff the various issues of great importance to the student body.

Each homeroom and CAPP group elects a representative to the student council, and students come together at the end of each school year to elect the Student Council Executive. This year's executive consists of John

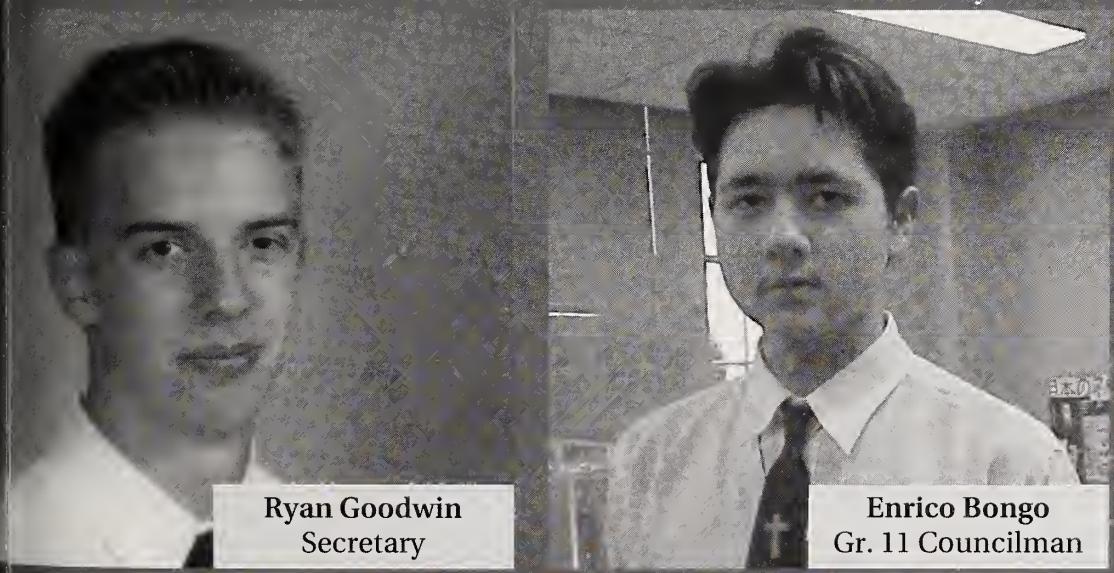

Gonzales (President), James Pinto and Edward Guerrero (Vice Presidents), Ryan Goodwin (Secretary) and Enrico Bongo and Chris Sandoval (Grade Eleven Councilmen). To become a candidate, the Student Council hopeful must be nominated by students in both Middle and Senior Schools, the faculty, and the principals. During the election campaign, each candidate presents their positions on different issues.

**T**here are no perfect men of course, but some are more perfect than others. We are the diamonds among diamonds, we are the Lettermen. An association of elite students known for our outstanding achievements, role models for students; we are feared by rivals and respected by all. Distinguished amongst others by a "V" across our chest, we are the animate definitions of unique talent and extreme dedication to Vancouver College. Lettermen are the proud who exemplify not only a high academic standing, but also years of hard work in a variety of sporting events: football, basketball, wrestling, rowing, and track and field. Through Vancouver College we become known province-wide, and in some cases nation-wide, and to show our appreciation we give back to the school. This group helps to bring about unity, school spirit, and brotherhood in Vancouver College by organizing numerous events such as pep-rallies. We are the *Irish* Lettermen in an Irish world.

**E**dmundians, Blue - shirts, call us what you like but we'll always strive to uplift the spirit of the Vancouver College Community. With generosity, humility, charity, and leadership, this organization's goal is to continue the practices installed by Blessed Edmund Rice, some two centuries ago. Guided by the one and only Brother Newman, this group devotes countless hours in services within Vancouver College such as liturgical organization, leadership training, orientations, retreats and student, staff recognition. Along with the vision of love and service that Blessed Edmund Rice once had, the Edmundians continue to serve those in the Vancouver College community with a smile. This team is together

all year long. There are no trophies or medals on this team, no MVP's of All-stars, just a group of dedicated students whose goal is to improve the community... together. We have learned much from those gone before us, and hopefully we have those who will follow. To the grads of '99, the Edmundians wish you nothing but success. Go with God.

# The Collegian '99 Crew

The Collegian staff follows a time honoured tradition of patience and perseverance under constant pressure and intense scrutiny. Although the editors may perform core duties of making a yearbook, it is the staff that help make things possible. To be a Collegian staff member, you'll have to be able to: conduct interviews, crop pictures, request obituaries (don't ask), move furniture, drive down to Costco/London Drugs, help editors with their homework, hunt down teachers for write-ups, take photos, find duct tape, bother Mr. Mitchell, troubleshoot the computer, bring food, get sponsors, and write \*interesting\* articles such as this. The only thing that we havn't done is probably brain surgery (although we came pretty close to amputating someone's hand). So, if you want THE training that'll prepare you for ANY job in the next millennium, then be all you can be, join the army... I mean yearbook.

Realistically, what we, the staff, do is a piece of cake when compared to the workload of the editors. For most of us, the work schedule runs from after school to around ten past five; yet, the editors may stay until as late as nine. Not to mention most of the editors also work weekends and during holidays. Some of them have even sacrificed their grades and personal life in order to bring to you the last Collegian of the millennium, and in my humble opinion, the best Collegian ever!

For those of you who bothered to read this nonsense, and even maybe considering signing up as a staff next year, I've got advice that will prove to be useful - Ask not what the Collegian can do for you, but what you can do for the Collegian. Most of all, when all else fails, blame it on the editors :).

**Yearbook Moderator**

The end of the millennium has arrived and the editors of the Collegian have risen to the occasion with our 1999 edition. The theme of Breaking Out alludes to opportunities past, present, and future. Our emphasis here is on the future, as our students move into the unknown with great expectations. This generation of students is breaking new ground as they enter the new millennium and they are aware of the responsibilities that come with this gift.

I am very proud of my yearbook staff this year. They have completely mastered the new method of producing a yearbook digitally. Their knowledge and experience are far beyond my expectations and I can't thank them enough.

In particular I would like to thank the editors Carson Lam, Andrew Racaza, Kevin Schretlin, Arnel Lim, Nick Zapala, Lenkyn Ostapovich and Mike Jacoby. Carson, Andrew, Kevin, and Arnel have been a virtual fixture in the yearbook room all year and their effort and success as the layout team has been enormous. Mike and Lenkyn have added the artistic brilliance of this Collegian with Mike's cover as the perfect reflection of our theme. Nick was busy snapping photos all year in all kinds of conditions. Others have added their touch to this project and I want to thank everyone who took the time to help us.

In closing I would ask that you take a moment to ponder the importance of the end of the millennium as seen through the eyes of our graduating class.

**T**he Voice is the student newspaper of Vancouver College. Aptly named, it is the instrument through which student issues are presented. Articles and features fill the Voice with topics of interest.

The Journalism 12 class works diligently to plan, research, write, and plan each issue of the Voice. Haunting the Windows computer lab, especially when deadlines

approach, they have accurate and timely articles as their goal.

But there is much more to the Voice than article writing. Students must promote the newspaper, find sponsors, conduct interviews, edit each other's articles, and arrange the layout. Not only is Journalism about effective writing, but it is also about team work, dedication, discipline, and responsibility.

The new millennium presents new opportunities and new challenges to the intrepid journalists. The experiences gained while writing for the Voice will be to their advantage, improving their skills and teaching them valuable lessons. Though there are many journalists, each with their own voices, there is only one Voice.

It's hard to believe that our high school trip is over. For the past five years, the halls of Vancouver College played a major role in our lives. These halls housed many memories for each us, some sad, others hilarious. Perhaps the most important memories of our high school days are from this year — our final year. Sad is about having as much fun with your fellow classmate as you

can, before it is time to say goodbye. Many events such as dances are things organized by certain students for the grads. Most of the time these students go unnoticed for all of the work, time, and effort they put in to these events. These students are part of the Vancouver College grad committee. Their job is to make the final year at VC as enjoyable as possible for all grads. The input given to these guys from

other classmates are brought together and they do their best to see these things done. I'm writing on behalf of the grad-committee to say that we've tried our best to make this year as memorable as possible for all grads. This year will never be forgotten.

This year has seen the debut of "Cabaret Night," a night of live music and dancing. With the leadership of Mr. Larry Olson, the band made an outstanding performance. We participated in the Surrey jazz Festival, and the Rocky Mountain Music Festival in Banff.

The goal of the Vancouver College choir is to use their talents and voices to proclaim the word of God. With the direction of Mr. Gillard and the teachings of Br. Wood, the choir has come a long way from its roots. With a variety of voices from grades seven through twelve, the choir members don't sing for their own self-pleasure, but to help the congregation during their time of prayer and meditation. Being a

two-year choir member myself, along with other students, the experiences have been enjoyable and memorable. From the beginning of the year, we have had many new members join us along the way. Whether they are new members or returning members, they have greatly helped contribute their gifts and friendship to myself and other current members. At every choir practice, we use quality time to develop our

voices and confidence for upcoming masses and liturgies that occur during the school year. With all the events and all the new friends made, on behalf of myself and the choir, we have found this year to be a most cherished and memorable one indeed.

The Duke of Edinburgh's Award, designed in 1956, was a means to encourage and motivate all youth over the age of 14 years to voluntarily become involved in a variety of personal development activities, including community service, expeditions, skills and fitness.

The objective of the Duke of Edinburgh's award program is to challenge young people between the ages of fourteen and twenty-five years to reach their best. The awards are designed in ascending

standards of achievement: Bronze, Silver, and Gold levels. Each standard provides for training, achievement and recognition in the basics of good citizenship. A wide variety of interests is embraced, including physical activities, educational training, self-discipline, and service to the community - all designed to advance the physical, mental and spiritual welfare of the younger generation and thus to enhance good citizenship.

While many students of this club have chosen to take Computers as their elective course, others have chosen something else. The Computer Club has provided those who take a different course many opportunities to use the school's computer equipment. Furthermore, it is an excellent chance for students to gain an understanding of the new technology being developed today. Having access to a school e-mail account and Internet are just two of the things that

**I**nsurmountable determination and indomitable spirit describe the physics of 1999. We spent many hours each day

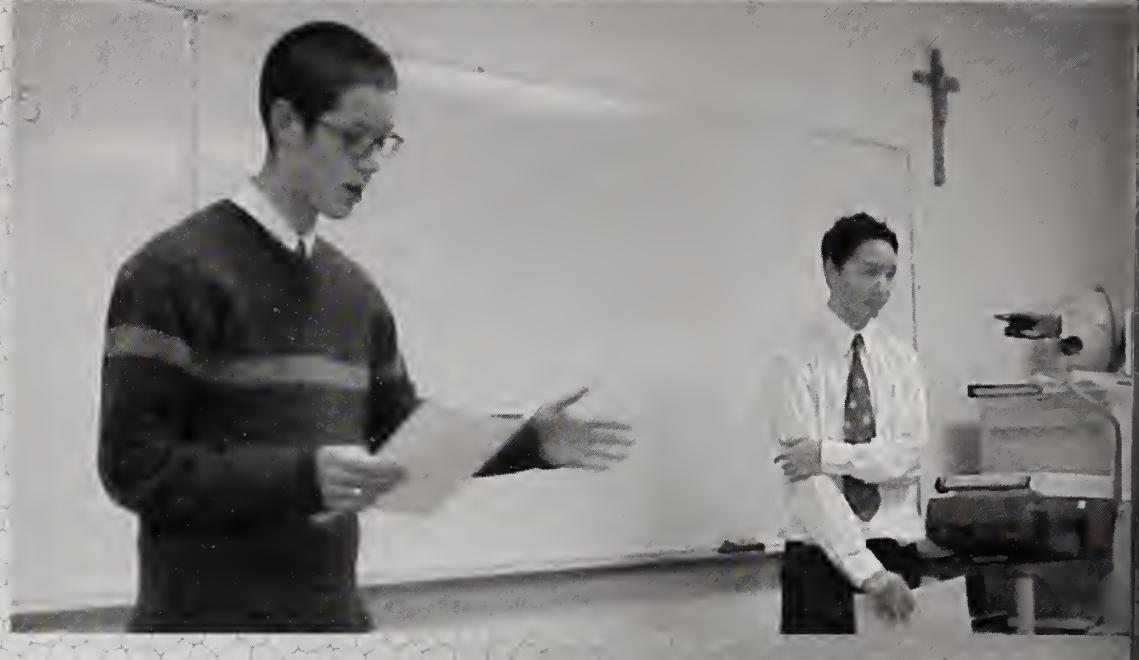

tackling problems meant for engineers and scientists. With the majority of the team being composed of members from last year's Olympics team, we have developed a great respect for each of our abilities and experience in working as a team. This year's events were challenging, though through our persistence and devotion, we succeeded in developing designs and building structures that accomplished what many could not.

# Speech Club

The Speech and Debate club at Vancouver College has grown considerably this year. Speaking is not easy when there are 15 other students who plan to do better than you. In 1998/1999, instead of doing all the travelling to other schools, Vancouver College has the opportunity to host its first annual speech competition. Though the pizza afterwards was great, the speeches were even better. From topics like "Discuss an important social problem" to "I am great", creativity took center stage while the laughter of students eased the tension in the new building hallway. Even the judges could not hold back grins. With winners in

every grade, Vancouver College placed extremely well considering the enthusiastic and overwhelming response from a plethora of schools. Top competitors in many competitions as well,

Vancouver College students have collected a treasure trove of prizes. Each year adds more experience to a student's speaking arsenal, so next year will be fantastic considering the effort put in this year.

Where can you find James Bond, a discovering your inner flower seminar, and two disco studs all in one place? Nowhere other than Vancouver College's first Improv Club!! This is the place where fearless boys practice the deadly art of improvisation. With the help of Ms. McCullough, these boys learn how wacky you really can be in dress code. Some of their games include: party quirks, freeze, and prompts. Crazy inputs from the audience set the scenes and personalities which the students have to use to tickle some funny bones. We've started a club that will only grow bigger in the years to come. Keep on... thinking... stuff... up guys!

# Pro-Life Club

The ProLife Club, under the guidance of Mr. Jim Canil and Ms. Nancy Souvestre, had a very active and productive year. Its mandate is to increase the awareness of the prolife issues of abortion, euthanasia, rights of the handicapped and the elderly amongst the Vancouver College community. The club's major event for the year was its participation in the Vancouver Life Chain. Once again, Vancouver College hosted youth from other Catholic high schools and parish youth groups in an orderly witness against abortion. During the Christmas season the boys erected the Nativity Scene in the courtyard,

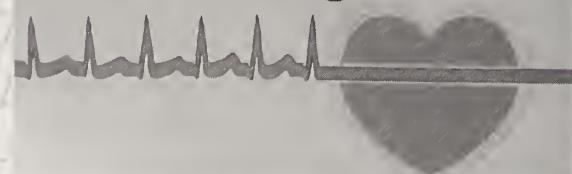

decorated the Christmas tree in the main hall, sold prolife Christmas cards and collected several boxes of gifts for needy children that were distributed by the Missionary Sisters of Charity. During the year there were 50/50 draws to raise funds for the club's projects which included the purchase of baby clothes at Mayfair for Birthright and our participation in the annual ProLife Youth Conference which Vancouver College had hosted two years ago. On the first Friday of every month an invitation is extended to the school community to pray the rosary with the boys in the chapel for the unborn. With the bulletin board

in front of the chapel highlighting all the activities and news items of the Respect Life organization throughout B.C. and Canada, the club endeavored to keep the college community informed on timely ProLife issues. This year our numbers, involvement, and enthusiasm increased significantly which is a sign of the boys dedication to the dignity of life. The club was especially encouraged by the support of our principal, Br. Anthony Murphy. We all look forward to another great year!

The Film Club is comprised of a group of intrepid and talented students celebrating that which is the magic of the Silver Screen. Bound by a mutual love of films and respect for those who create them, we evolved from a rag-tag bunch of movie-goers to an organized club, under the guiding hand of our ever enthusiastic moderator, Mr. Gillard. We spend a couple of hours each week watching and talking about various films, culminating into the development of a script and the filming of our own movie.

As the first-generation film club, we hope that our efforts will be appreciated and others will follow in our footsteps.

The Japanimation club has recently undergone dramatic changes since its conception four years ago. It has changed from a club teaching about the Japanese culture through primarily drawing manga, to one exposing students to the Japanese culture via showing anime. The Japanimation club strives to dispel the myth that the Japanese comic art is inappropriate by showing popular anime such as Macross Plus, Ghost in the Shell, Armitage the Third, Battle Angel, Dirty Pair Flash and others. Unlike the American cartoons, anime uses the minimum number of frames and high quality for the greatest effect. In watching anime, it is hoped that students will learn and understand the Japanese culture. Come check it out!

# The Environment Club

Making the World Just a Little Bit Better

The Vancouver College Environment Club continues its job of running the recycling program this year. Everything we do and support as members of the Environment Club deals with ecology and our environment.

Twice a week, some of us take time out of our busy days to collect the cans from around the school, empty out and sort them, and then put them into bags. Every month or so, they are collected and we get paid for them. We usually get around ten to fifteen bags per month. This year we have a new covered recycling centre which keeps us organized and dry.

As well as recycling cans, we also recycle paper. Once a week, we go all around the school with our cart and we collect any recycled paper from the classrooms and offices. We then bag the paper and it is collected for recycling.

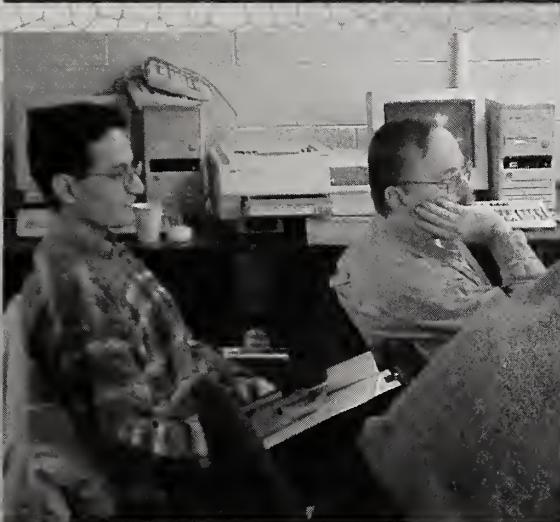

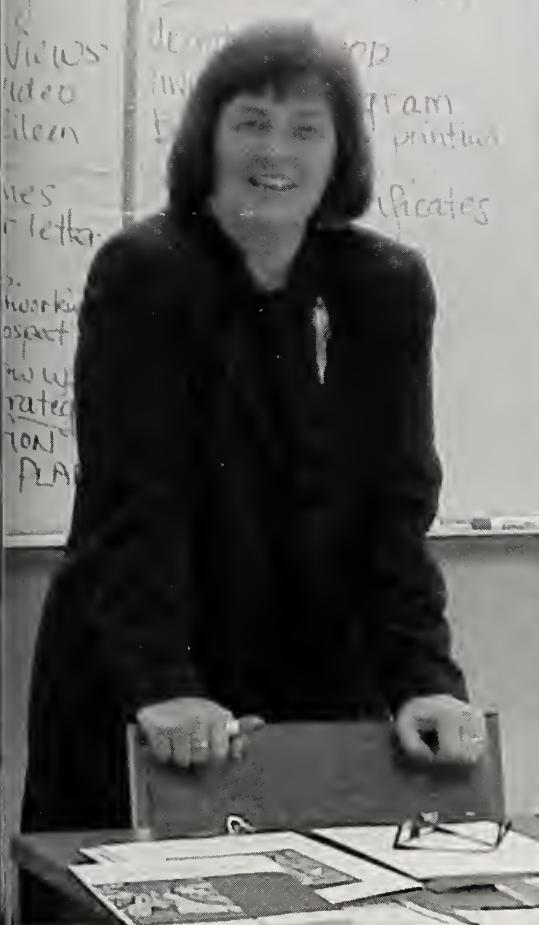

Back Row (L to R) Matthew Fenrich, Earl Alikpala, Ryan Sengara, Cristian Liu, Mrs. Ottnad. Front Row (L to R) Simon Ho, Kyle Hol, Mason Lau, Carlos McCallister, Terence Ng, Dean Perdido, Daniel Dent. Missing: Kyle Hughes.

Every once in a while, we use the money we earn recycling cans to go on field trips. We've had a visit to the Pacific Space Centre, which was a lot of fun. Also planned are visits to the Vancouver Aquarium, Science World and the IMA theatre. The final trip of the year will be a spring camping adventure. The Environment Club also hopes to become a member of the BCTV/Environment Canada Skywatchers this year.

# Job Entry

For the past decade, the job entry program has been a significant aid to the lives of hundreds of people. Begun in 1986 by Principal Brother McHugh, this program reflects the values and statements of the Christian mission. Each year, under the management of Ms. Eileen Beltgens, the job entry centre provides employment education to those who have trouble in discovering their strengths and weaknesses. It concentrates on certain aspects such as: employment goals, skill applications, computer technical support, and business interactions. As a result, approximately 92% of job entrants obtain employment after completing this program. They work in fields such as: network administrator, technical support consultant, software trainer, and computer assembly and repair. Most importantly, these people are able to work in a supportive and comfortable environment. They cooperate with one another as a team, and thus, have developed a special relationship. The job entry program has helped many people to discover their talents and regain their confidence. It spreads the message of a faith and learning community to those outside of Vancouver College.

# Mandarin

This is the fourth year that Mandarin has been offered at Vancouver College as an after school course. Mandarin is a credited course. There are four grade levels, Mandarin 9 is the beginner's level, followed by Mandarin 10, Mandarin 11, and Mandarin 12. Mandarin 12 is a Provincially examinable subject. The Mandarin curriculum is designed in a way which enables students to develop positive attitudes towards the language, to increase, with realistic limits, their ability to communicate effectively and to develop an understanding of the values, customs, and other elements of Chinese culture, in order to enhance the communication skill, the historical and cultural understanding of the Chinese people. A

third Educational Tour to China is being planned for the Spring Break of year 2000. The faculty and students of Jilin University affiliated High School in Jilin, China has been the host for the past two trips. They will continue to be the host for the upcoming trip. Students will be able to meet their pen pals, to join daily activities of local students and to participate in other cultural exchange programs.

"Congratulations to all  
Vancouver College graduates  
of the Class of 1999!

May your lives be filled with  
love and happiness!"

## President's Comments

**A** special welcome to all who became members of the Vancouver College community in 1998-1999. Parents automatically become members of the Parents' Association when their son is enrolled at College. With this comes an opportunity to get involved at VC, get to know the faculty, staff and other parents. It also brings responsibility to get involved by helping make VC a better school. Your contribution of 25 hours each year through the Parent Participation Program raises precious dollars for school projects. I encourage you to read the PA constitution and meet its Board of Directors, your elected representatives at VC. A sincere thank you to the faculty,

staff and the Directors of the PA and all those parents who gave so unselfishly and willingly of their time throughout the year. On a personal note, this year I say farewell to Vancouver College. My son Rob graduates and both he and I have fond memories of grades 1 through 12. Life will be a little empty without regular visits to VC. On behalf of all parents at Vancouver College we extend congratulations to all graduates of the last class of this century and wish every success to the "Fighting Irish" of the next millennium.

# Board of Directors

Front Row: Mr. Kevin Howlett, Brother Barry Lynch, Brother Anthony Murphy (Principal), Mr. John Nixon (Chairman), Mr. Jim Strilesky (Vice-Chair), Mrs. Marilu Mayuga. Back Row: Mrs. Kelly Lattimer (Business Manager), Mr. John Kettlewell, Dr. Bill Borgen, Brother John Gale, Brother Leo Taylor, Mr. Bill Lam, Mr. Nilo Opina, Dr. Gerry Wing, Father Ian Stuart, Mr. Bruno De Vita, Mr. Brad Stafford. Missing: Miss Diane Norris, Mr. Jim Wingham.

As Chairman of the Board of Directors at Vancouver College, I have the honour of serving with eighteen men and women who give freely of their time and expertise in service to our Vancouver College school community. The members of the Board of Directors are appointed by the Christian Brothers, who are the trustees of Vancouver College. The Board is an integral part of Vancouver College in that it is responsible for developing and maintaining the policy for the educational direction of the school, as well as ensuring the school is efficiently managed in a manner

consistent with that policy.

On behalf of the Board of Directors of Vancouver College, we would like to wish each graduating student all God's graces and blessings as you move forward. Take with you the Christian values that you have learned while attending Vancouver College. Remain loyal to your alma mater and know that you are a part of an ever expanding Vancouver College alumni community.

To all remaining students, enjoy your years of growth as a part of this learning community. Be as-

sured that there is a group of men and women known as members of the Board, who are dedicated to strengthening Vancouver College.

Inspired by the vision of Blessed Edmund Rice, may God bless our entire Vancouver College community.

Sincerely,

**Mr. John Nixon, Class of '69  
Chairman  
Board of Directors**

# Special Events

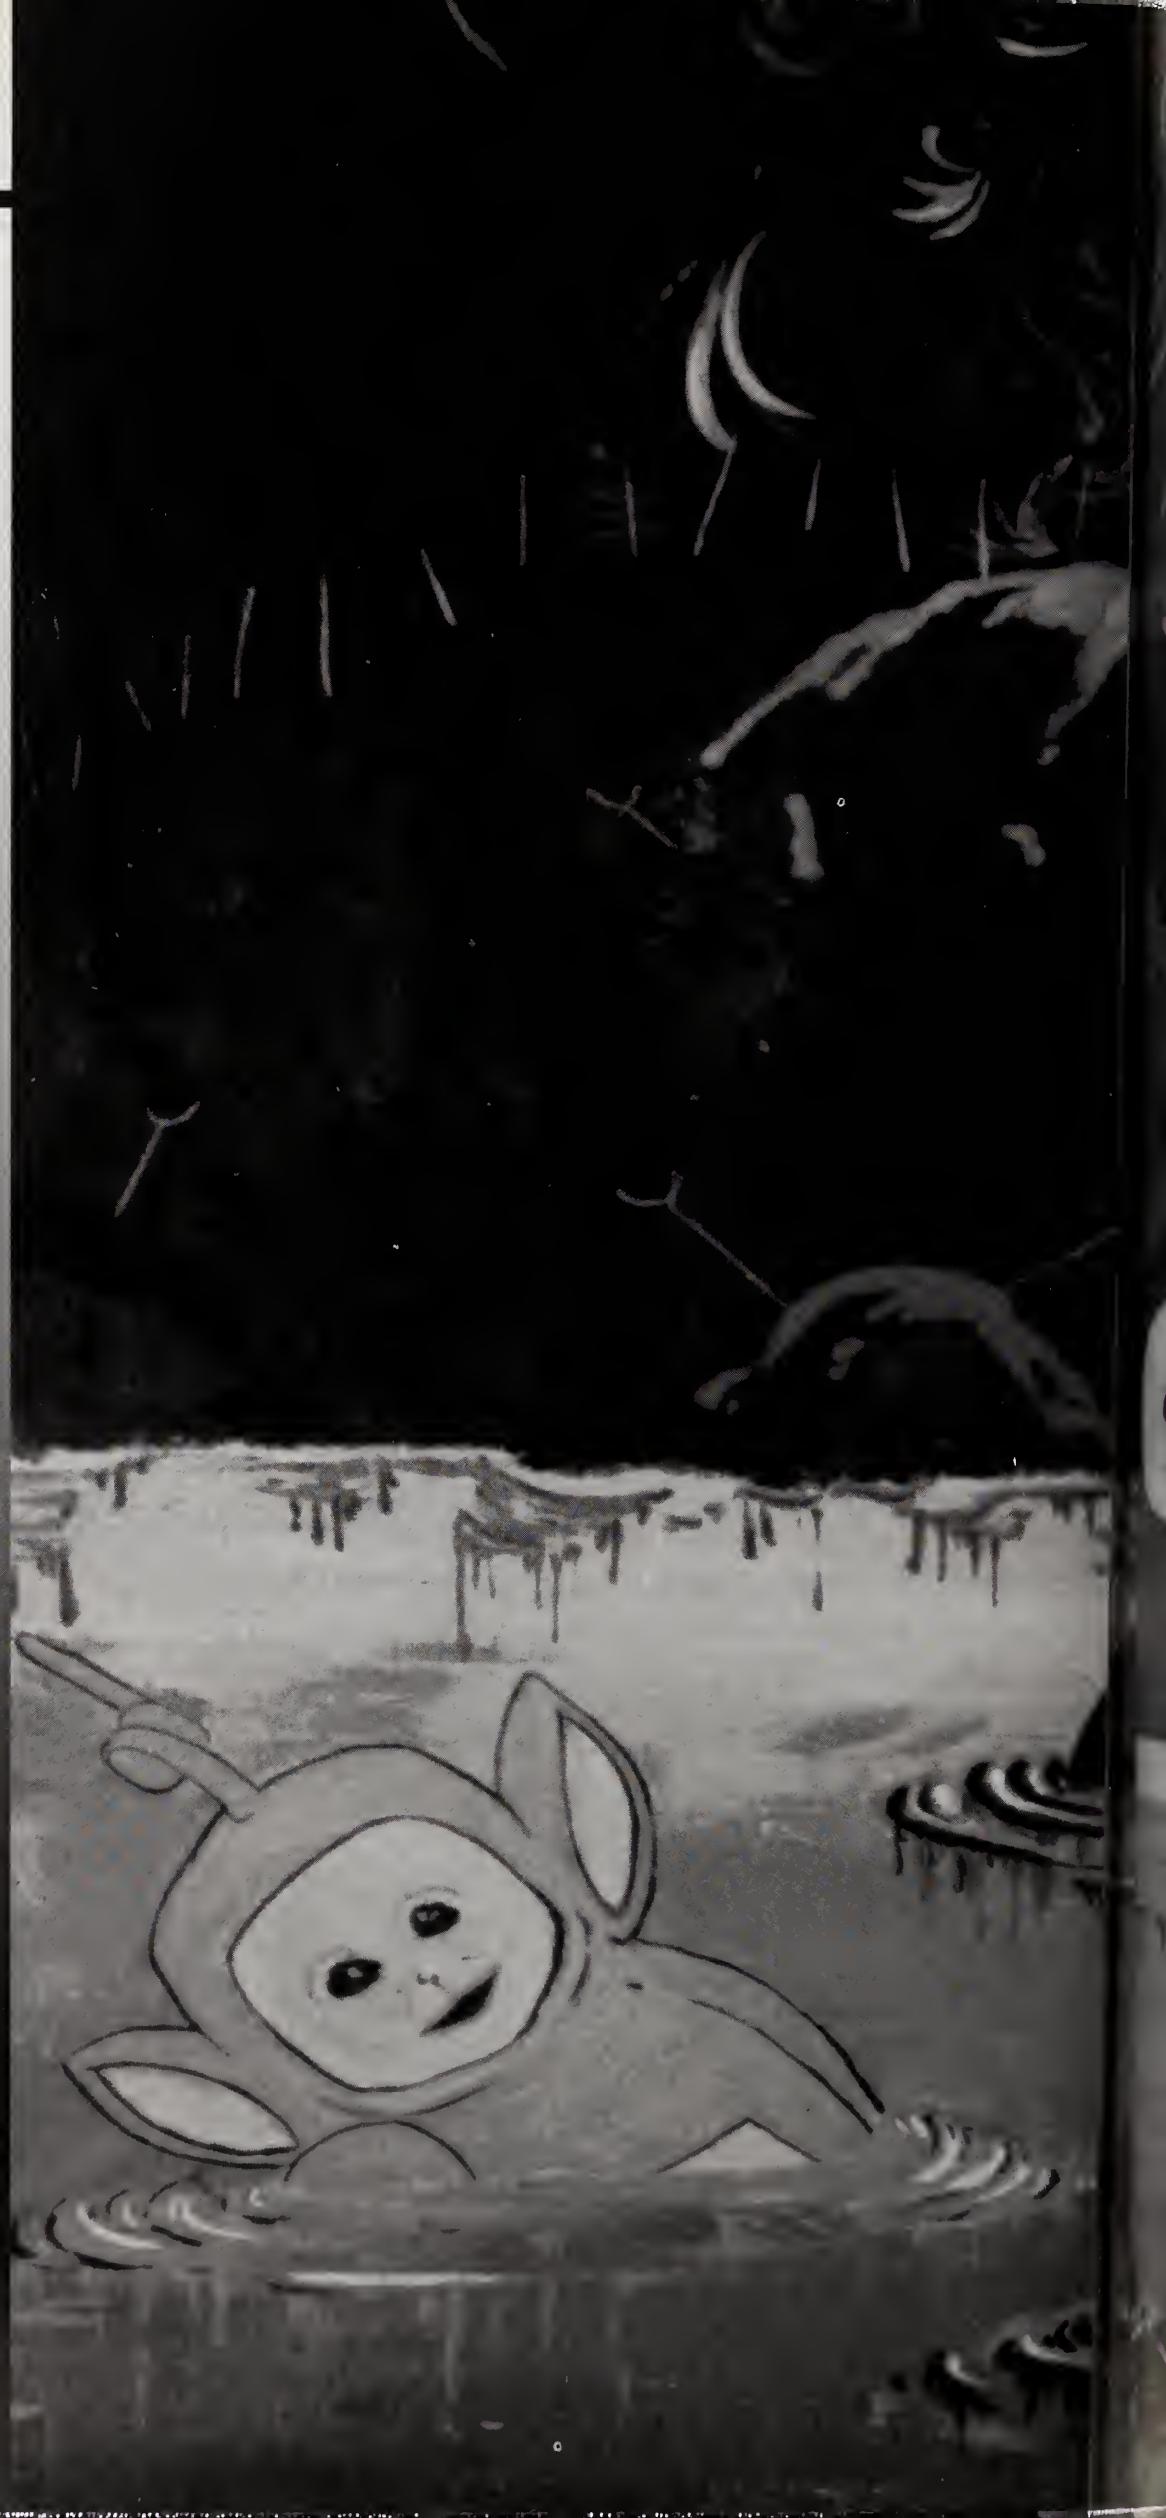

Every year Vancouver College demonstrates its sense of community through the special events. The school liturgies, fund-raising activities, Sharing Our Creativity, dances, and graduation ceremonies portray the bond between students, teachers, staff, and parents.

A student's school life is defined by the special events which add flavour and spice to the daily routine. A showcase for our talents, the various events give us opportunities to grow and mature as individuals.

Liturgies such as the Christmas, Easter, and Mother's Day Mass enable everybody to come and celebrate God's love. Taking place at the Alumni gymnasium, we truly show that Vancouver College is a faith and learning community. Besides being together spiritually, we are together mentally and physically as well. The annual Walk-a-thon and Mayfair gather us for a common cause. During October every year, students walk along UBC under the inclement weather to raise money for the school. In May, the entire community, including the alumni and those outside of the school, take part in the Mayfair. Not only do we have fun during these two most popular events, we also help in improving Vancouver College. In addition, Sharing Our Creativity allows us to share and express our talents and interests to the world. Along with the students of Little Flower Academy, we perform our musical and drama skills to others.

Special events enrich our lives. The Encounter program leaves an indelible mark on its participants, changing forever their emotional and spiritual lives. Dances and other social events give us the chances to meet new people.

Opportunities past, present, and future - these are what Vancouver College is all about. Opportunities to use the school's rich past to take advantage of the present, and create more possibilities.

# A New Era

Vancouver College celebrates a new generation of computer technology

1

Computer technology advances in leaps and bounds. Advanced models in one year are the next year's base models, and soon after age into obsolescence. However, computer technology is playing a larger and more important role in today's society, and the graduates of today and tomorrow will undoubtedly need skills and exposure to computers to compete in the job market. Vancouver College has had a computer acquisition program for many years, relying on fundraising and donations to finance the acquisition of basic computer technology. This year, the school has embarked on a full-scale upgrading program, acquiring 26 Pentium II-26 computers with 15 and 17 inch monitors. The new computer lab was officially opened on Wednesday, October 1, 1998. The computer

equipment was purchased with the money raised by Walk-a-thon '97. The new computers take the place of the old IBM PS/2 286 machines which are still useful for basic keyboarding skills (which are, in fact, still being used for keyboarding in the Seminar Room), giving students the processing power to work on current business and programming software. The computers were installed and networked by members of the Job Training Program under the supervision of Mr. Andre Thompson, with the software installed under the supervision of Mr. Bruno Vernier, the educational consultant.

1. (l-r) Bro. Murphy, Mrs. Dosen, Tim Spindlove, & Mr. Thompson receive the honour of officially opening the Computer Lab.
2. (l-r) Mrs. George and Mrs. Beltgens celebrate with cake.

# Family Pride

The Dads & Grads of '99

**O**n the fair Autumn evening of Oct. 6th, 1998, Vancouver College's gymnasium was transformed into a reception hall. The Grads of '99 and their dads dined on a seven-course meal in a formal dinner. The event, held for the fourth consecutive year, is well on its way to being an annual tradition.

The Dads and Grads night started four years ago with the senior school's shift to the quarter system. The Grads and Dads was conceived as a motivational tool and as an information session.

Organized by Mr. Sponza and his committee, the Dinner featured

talks by Br. Murphy, Mr. Jacobsen, and the keynote speaker, Mr. Cornell "Duke" Dukowski, an alumnus of this proud school, a Dad of a Grad, and the Director of the downtown campus of the British Columbia Institute of Technology. Serving as Master of Ceremonies was none other than Mr. Dario Sponza.

Part of the festivities was a raffle for door prizes. Some of the prizes included golf shirts, gift certificates, greeting cards, dance tickets, and instruction manuals, courtesy of the different departments of Vancouver College.

Dads and Grads was a night to remember.

# Walk-a-thon 98

One small step...

The Vancouver College Walk-a-thon is a long lived tradition. In the spirit of perseverance, Mr. Mitchell, head co-ordinator, challenged the VC students to raise \$75,000. After several weeks of searching for sponsors, the students were able to raise over \$50,000. Mr. Mitchell was hardly disappointed. This year, the class that raised the most money was Mrs. Ottnad's Grade Seven Class. In total, they raised seven thousand dollars. The Walk-a-thon is yet another example of what can happen when the entire school works together towards a common goal. The money raised this year is only one small step towards the progress and development of the Vancouver College community. Proceeds for the Walk-a-thon are used to fund projects not covered by tuition fees such as the weight room, the new computer lab, and the vans for the sports teams.

# Halloween

## Masters of Disguise...

2. Sorry, I lost my card...
3. Cyrus Huang says "Oh Xena, I'm your biggest fan!" James Pinto replies "knock it off... I'm having a really bad hair day."
4. Would you, could you, with some milk?
5. Smurf it!

The enthusiastic staff and students of Vancouver College went all out for Halloween this year. Their costumes were amongst the most creative ever seen. Mr. Mitchell dressed up as the one and only Zorro. Mrs. Charland, art teacher, was a gypsy, Mrs. George was a bum, and Mr. Thompson was death itself. That day, a costume contest was organized by Jared Harman, Taso Raptis, and Mrs. Doyle-Jones from The Voice. Prize winners were Earl Alikpaka (gr. 7), dressed as a nerd, James Pinto (gr. 12), dressed as Xena Warrior Princess, and Matt Rogers (gr. 11), dressed as a pro wrestler. Consolation prize winners were Michael Jacoby (gr. 12), an adult film director, and Derek Chan (gr. 8), a girl. With Brother Murphy supporting the event, watch for this contest to be an annual fixture for years to come. By the way, can you guess who the smurf was? It was the one and only Keith Roy of grade 12.

# Remembrance Day

**V**ancouver College has a rich history in its 77 years of existence. Members of the Vancouver College community answered the call of duty during the World Wars, and on this day, we all remember... remember the sacrifices these brave men made for the cause of freedom.

On the tenth of November, the Middle and High school student bodies gathered to commemorate the hardships endured by

Canada's fighting men.

The ceremony included a Rhythm and Blues rendition of "O Canada" and a recitation of one of the most famous war poems of all time, "In Flanders Field". Members of the Air and Army Cadets paraded in the gym, and stood on attention as Warrant Officer, 2nd Class Quinn Stevens from 655 Richmond Squadron played the customary bugle. A white cross was laid out on the list of names of soldiers, airmen, and sailors from

Vancouver College, and one by one students rose to pin their poppies on it. Communities are knit closer during times of difficulty and crisis, and Vancouver College is not an exception. On this day, we honoured the sacrifices of the previous generations

# Tribute to the Batistas

Vancouver College thanks the Batistas for 25 long years of service since 1973

I can still recall the cold and wet Monday on November 1973. It was then that I entered the doors of this castle I call Vancouver College, for the first time.

It was not my intention to be here for this long... but here I am, 25 years later, making me and my wife the longest serving helpers of this castle. To commemorate the event we were given a surprise celebration by our principal Br. A. Murphy, staff and students in the school gym which we appreciated very much.

From the pages of this yearbook, we would like to extend our heartfelt thank you to the Christian Brothers, and to all who have made us so welcome over this quarter of a century. Thank you to all.

Sincerely,

Bill and Carmelina Batista

This picture was taken of Mr. Batista back in 1978. Times have changed

much for Mr. and Mrs. Batista. They can still remember first coming to Vancouver College "barely knowing any English". Now, they are fluent.

# Celebrating Our Faith

Christmas is a special time at Vancouver College. Around the school, people can see evidence of celebrating the holiday season in some way. There are decorations in every

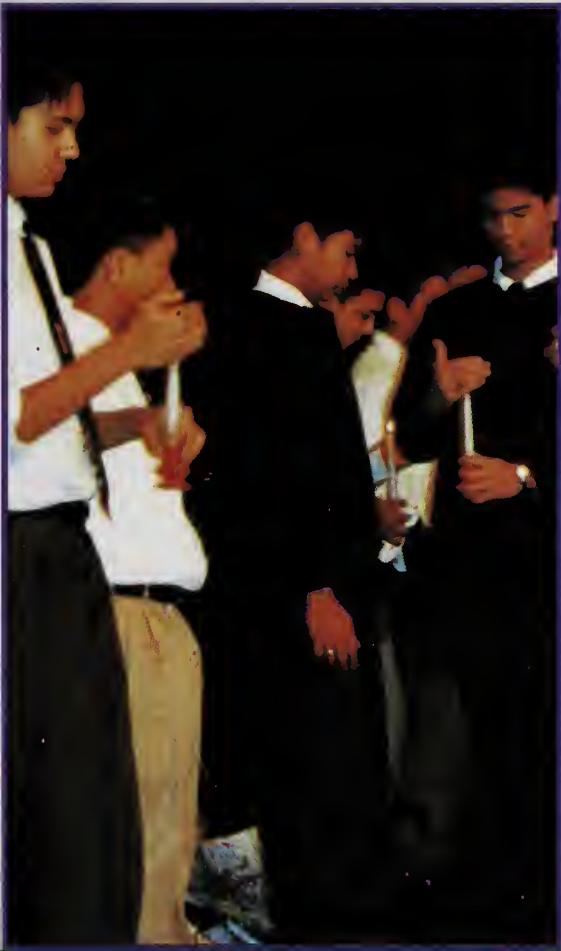

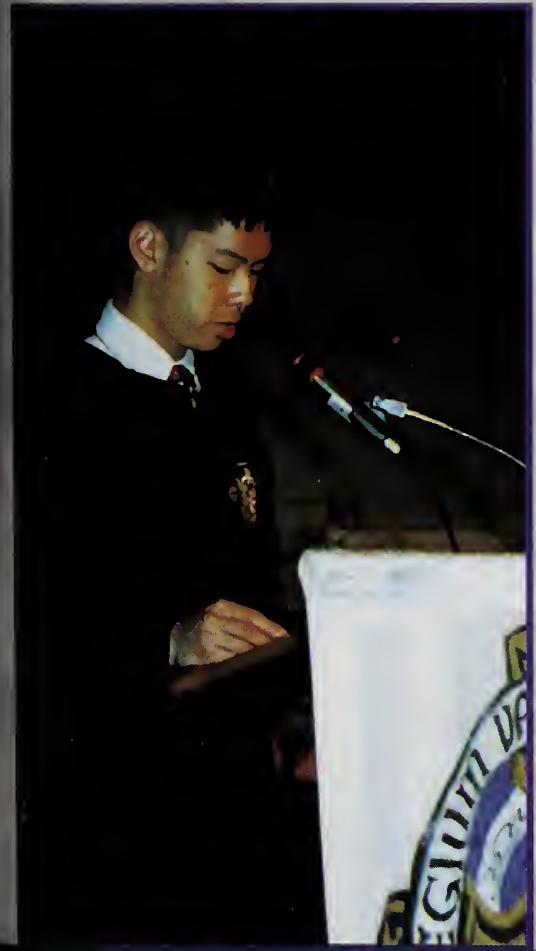

elementary classroom and along the elementary hallways. A Christmas tree is set up in the main hallway of the Lannon Hall. Even the school cafeteria is spruced up with tinsel.

Furthermore, to commemorate the birth of Christ, Vancouver College annually holds a Christmas liturgy in the school gymnasium. The school band was present to play beautiful Christmas hymns. There were also plays dramatizing the visit of the Magi. The Christmas mass was also a special time to ask God for His blessings. Christmas Wishes were presented by Br. Murphy, Ms. Anderson, John

Gonzales, and Mr. Douglas.

Every Christmas, the students and staff of Vancouver College remember the birth of Jesus Christ and His promise of a new rebirth. Thus, the Christmas spirit revives everyone and fills our hearts with hope and peace.

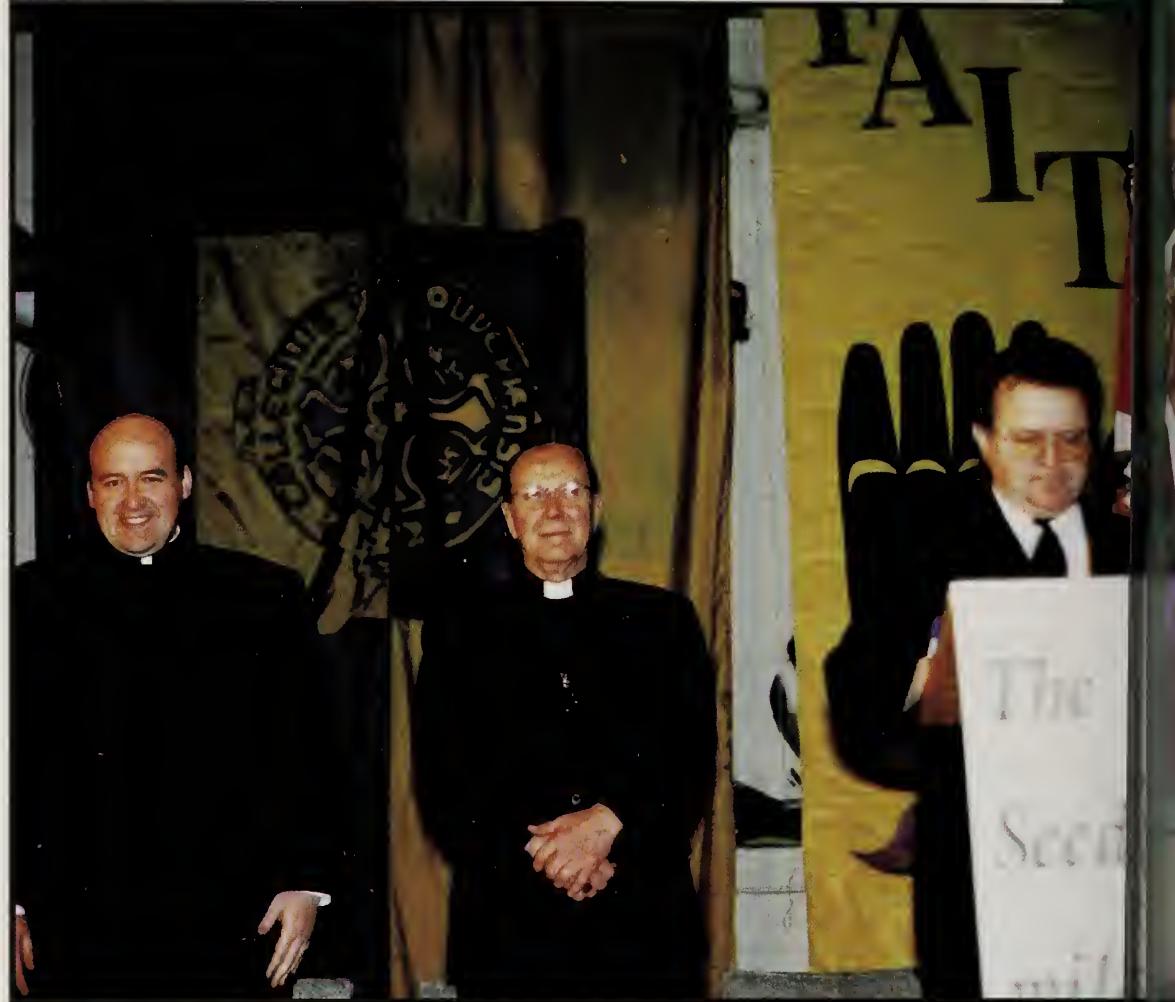

# Welcome Archbishop Exner

Archbishop Adam Exner graced the school with his presence on December 9, 1998. Before Archbishop Exner gave his speech to the school, he participated in a dialogue session with thirty students in the assembly room.

Questions asked of his Grace included the media's influence on today's society, as well as the things that the church is doing to prepare for the coming of the millenium. One of the more startling facts that Bishop Exner presented is that some children have more of a connection with their own TV's than with their fathers.

During his keynotes speech his grace told the student body that he believes that the school will lead the way for all other schools in the coming millenium.

# Chrisatmas Concert

During a joyous time of the year when everybody was in a festive mood, Vancouver College held its annual Christmas concert in the Alumni gymnasium on December 9, 1998. Under the direction of an enthusiastic Mr. Olson, a variety of six terrific bands performed in front of a delighted full house. Brother Murphy began the evening with a prayer and a reminder that music is an important element in a Christian setting. Stage Bands I and II treated the audience with a selection of jazz and Christmas tunes, with creative and melodious solos by various musicians of the talented bands. Bands 7, 8, and 9 followed, playing with much energy and spirit, and showing everyone the amount of potential they have for the future. The evening concluded with a colourful performance by the senior concert band that entertained the whole audience. With hard

work by the band members, the tireless effort from the parent volunteers, and the guidance and countless hours of preparation put in by Mr. Olson, the evening was a huge success.

## Noah's Ark

Once upon a time there was a quail and it had no where to go because there was a storm heading straight for his nest. The quail was very upset when the day of the storm started. The quail found a place to survive the storm. It was a hollow log but to his surprise a skunk was living in the hollow log. That quail was very upset. Rain started to fall. The quail wished for that rain to go away. The quail wanted to go somewhere but he couldn't find anywhere to go. He found a cave but a bear was living in that cave. Suddenly, the most horrible part of the storm came. Then a few seconds later a hand reached out and grabbed the quail. It was a friendly man. The man took the quail into a house that looked like a boat. The quail was safe but when he turned around, the quail saw lots of animals. The quail thought that he was the only animal on the house that looked like a boat. He wasn't the only animal on the house that looked like a boat. He was the happiest quail on earth. Now he could play with all the other animals and the other quails. He found a spot to sleep. It was on a hanger in the corner. After the storm stopped the quail made very good friends and the quail found out what the man's name was: Noah. The quail said goodbye and Noah said goodbye. The quail would visit Noah everyday.

#### I REMEMBER

Proud brown house upon the hill,  
nestled among tall, strong trees;  
acorn, maple, cedar, pine  
all solemnly standing,  
keeping watch over the house  
the people who come and go.

I pass through the tired stone gateway  
memories fill this familiar place;  
I remember.

I remember the ritual of hidden treats  
never once forgotten;  
bedtime stories read from tattered, musky-smelling  
books.

I remember riding in the ancient beast-like car,  
feeling so secure  
gold on hot clear Sundays,  
nature lessons while we strolled the green.

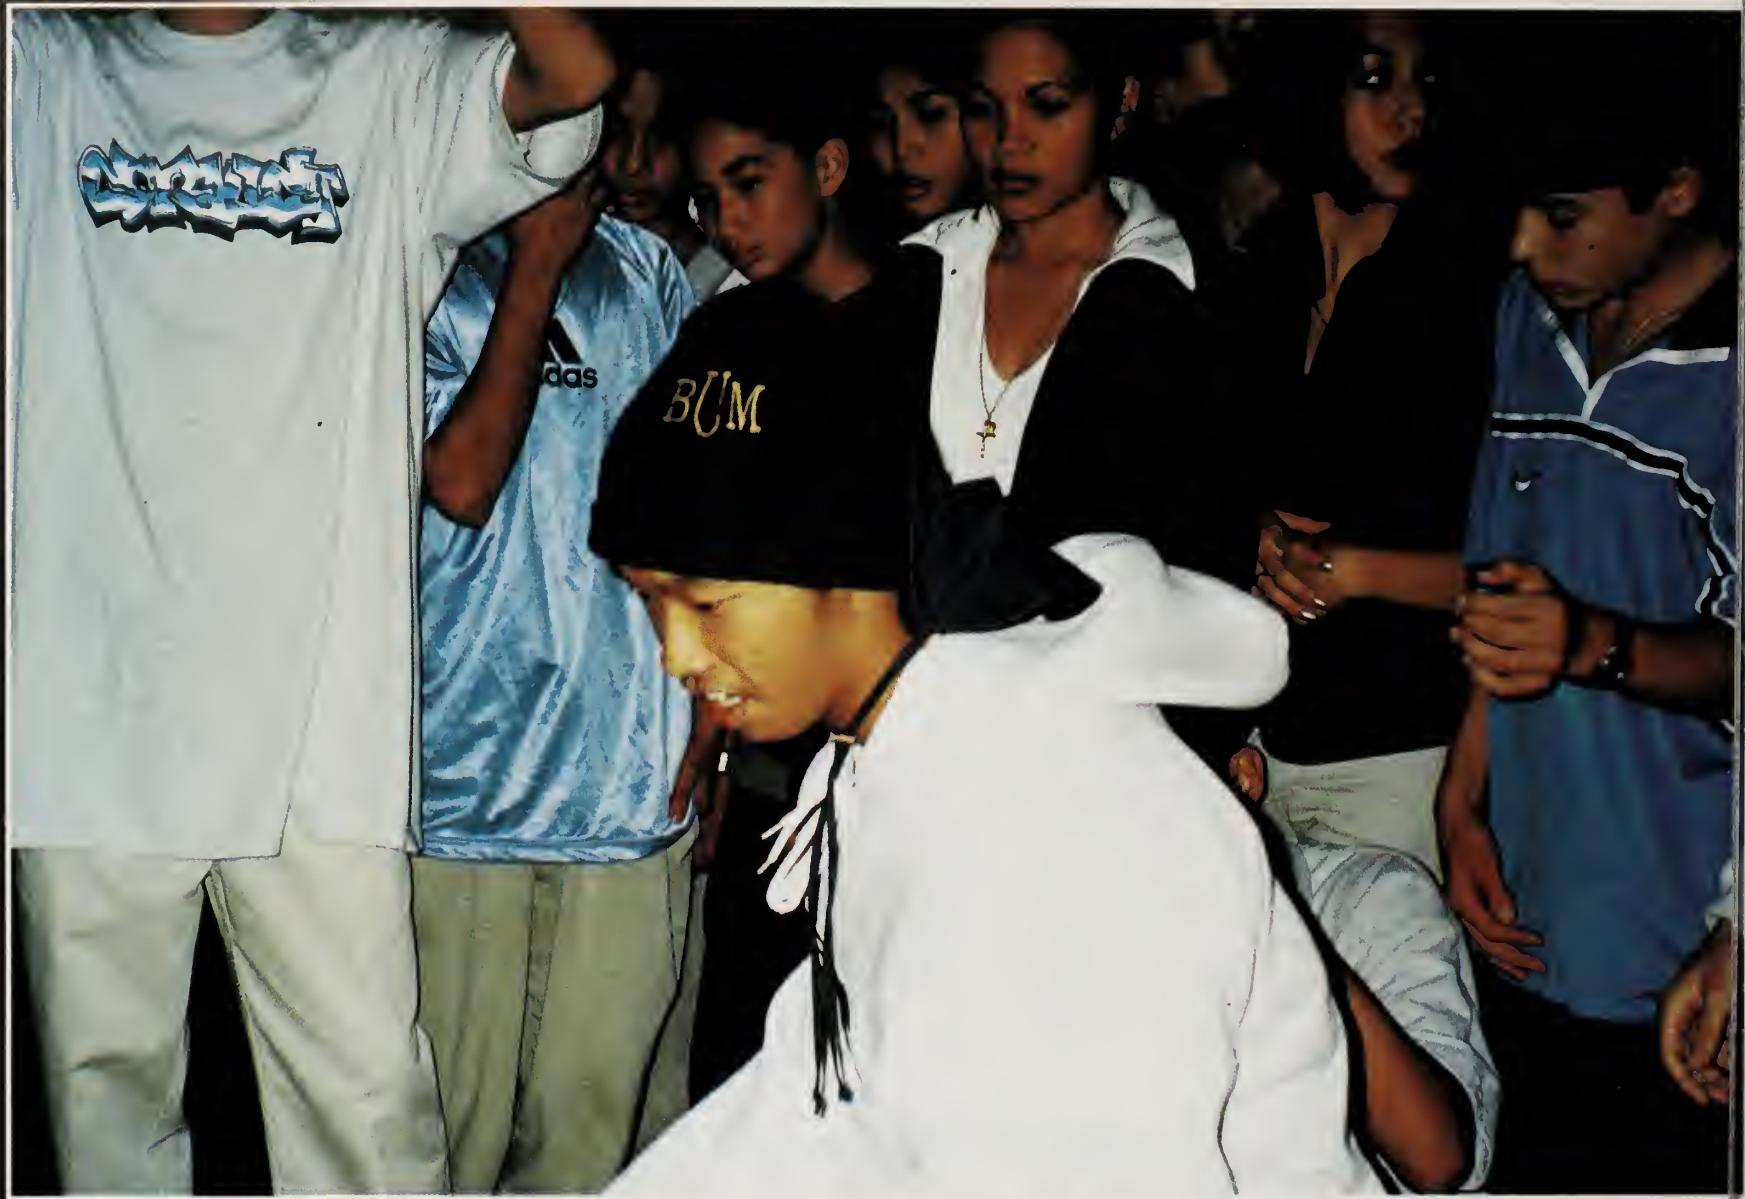

I remember your scratchy cheek  
as I hugged you goodnight;  
I remember the last time I sat beside you,  
your face as serene as a winter morning.

Now I stand by the tree we planted over you,  
I close my eyes,  
I hear the birds singing  
and I remember.

The Date: October 16th, 1998. Vancouver College gets a taste of "Eggplant Sandwich" cooked up by the VC student council.

# Elementary Presents: A Christmas Play

This year, with the help of the elementary staff members, the elementary Christmas concert has once again been a success. This event, like many other events at Vancouver College, received a full audience as the parents and fellow students of the elementary school came and witnessed a wonderful performance, which was the fruit of a full month of planning and practice. Ever since the end of November, the students from kindergarten to grade six began their practice in preparation for what is considered a special event held only by the elementary school. With the students' and the teachers' effort, the concert turned up to be a remarkable performance of lively singing by the "Santa's little helpers" and a marvelous reenactment of the birth of Jesus. Also worth noting is the organization that was required to put together this performance; parents helped gather costumes for their sons while teachers like Mrs. Herb and Mrs. Olson instructed the children with their musical talents. With this year's concert a success, it bodes well for the next year.

# *The First Annual Cabaret Night*

This year was the premier for "Cabaret Night." It was a great success for both the school and the Bands. This event showcases the talent of the musicians in the school which Mr. Larry Olson has conducted with excellence also for people to get the dancing shoes out of the closet. Throughout the evening there were performances by the Senior Concert band, Capilano Stage Band and our very own Senior Stage Band 1. Parents and staff who attended the event danced the night away to many of the big band favorites such as "Caravan" and "In the Mood." Mrs. Herb accompanied the band with her singing. Behind the scenes of cabaret night the Band worked hard by setting up the gym and practicing for the performance. The event was arranged by Mrs. McLean, who did a superb job and made the first Cabaret night a complete success.

# Open House '99

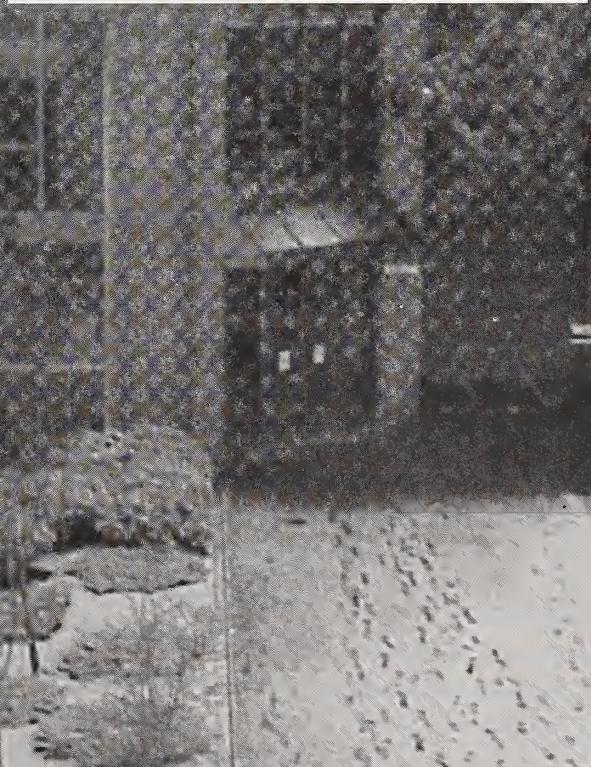

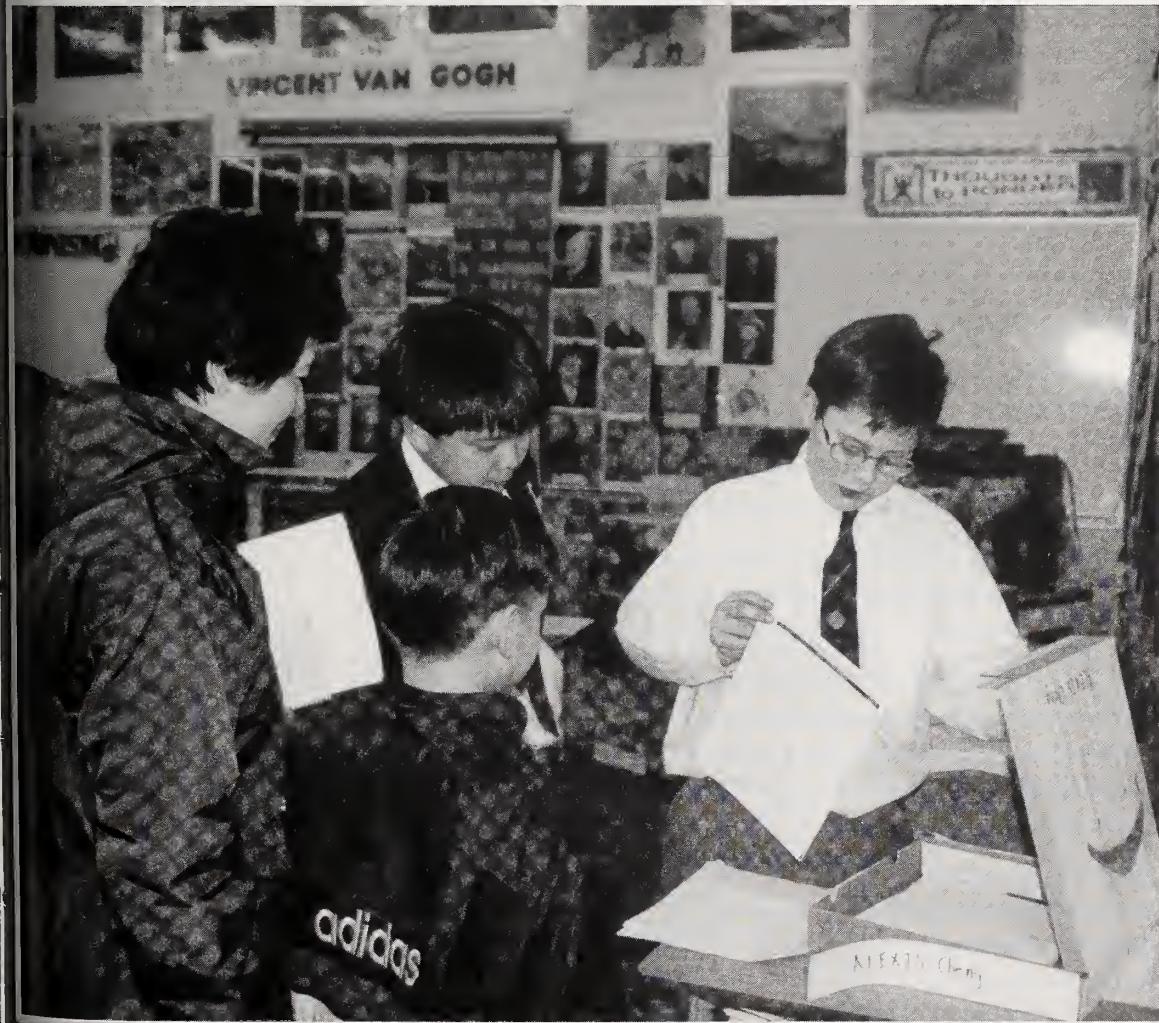

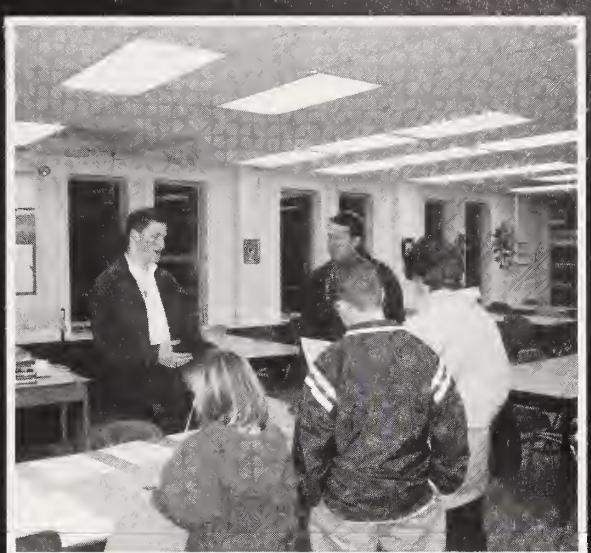

As another generation of Vancouver College passes through its course, it is time once again to demonstrate to new prospectors what the school can offer. On the night of Monday, February 15, several volunteers from grades Kindergarten to Twelve assisted their teachers in demonstrating everyday school functions and curriculum. They also answered many questions these prospective students have about the school. Even volunteers from the parents association were there presenting what they do to help the school.

Brother Murphy was on-hand to give speeches to the parents of possible new VC students throughout the night. His speeches informed these parents, and their sons, as to what the criteria is for their son's enrollment. Brother also talked about what the school

is - a leader in both athletics, where teams are consistently placed in the top ten, as well as being a leader in the academic field. Following each speech, Stage Band I filled the gymnasium with electrifying jazz music with Mr. Olson as maestro.

# VANCOUVER COLLEGE

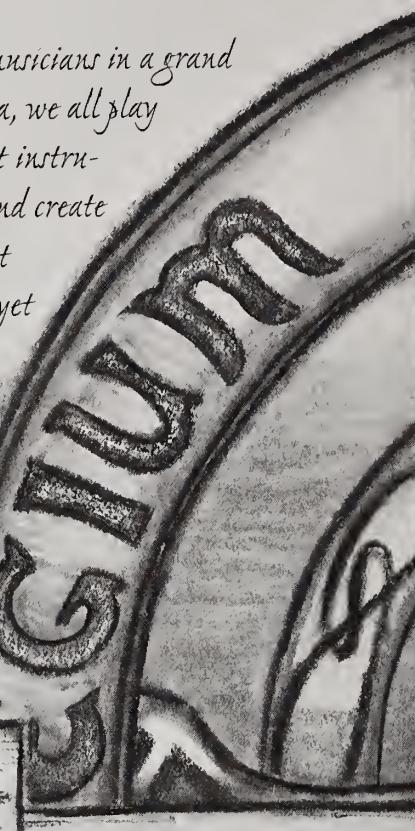

**S**kills and talents are our gifts from God. These talents are mere potentials until they are developed. Vancouver College is a place where talents come to full bloom, in the service of God and the greater good of the community. Service, after all, is the cornerstone of the Catholic faith.

We are a garden, with flowers of all shapes, sizes, and colours. Together we create something beautiful for all to

see and enjoy. This garden is full of life, both in the air and in the soil. A place full of life and vitality, Vancouver College rings with the peals of laughter and happiness.

and try new experiences. In the process, we become well-rounded individuals ready to face the challenges of an ever-changing future.

As musicians in a grand orchestra, we all play different instruments and create different sounds, yet

we all play the same song. In harmony, our notes flow and merge into a beautiful symphony.

Each of us is a mere speck in the greater scheme of things, yet together we make a difference. Together our talents combine and produce something special. More importantly, we experience this growth

together. Vancouver College's tightly-knit community works together, prays together, plays together, and stays together.

Yet we are all different, and this diversity makes us stronger. We display our uniqueness in every day of our lives. We are not average, nor are we standard. The students of Vancouver College seek to excel in all fields. We are aided and guided by our teachers, by our peers, and by our God. We stand proud in the world as shining examples of our faith. In our own ways, each of us brings glory to God.

# An Interview With Br. Murphy, Cont.

of school things such as academic pursuits, extra curricular pursuits, and though we do so with the greatest of respect for each other. Um, you know, the sacramental life of the church is at play and what we are talking about, eucharistic letters, coming together to celebrate the Eucharist together, the sacrament of reconciliation, instruction on first communion, first um, confession, things of this nature. The liturgical cycle, the natural cycle, of the church's calendar. Yesterday, for example, in various ways, the school gathered to mark the beginning the season of lent. To focus on everybody's need for reconciliation, to build bridges to each other and therefore to God. We speak about these things. We constantly call each other to be faithful to the gospel messages of Jesus Christ by doing that sort to of thing. And yes, Vancouver College is a Catholic school.

Q. What impresses you the most about Vancouver College?

A. I guess, what perhaps... there are many things that impress me about Vancouver College. One would be its tenacity, its determination, um, to be a school community. To actually be a community, to celebrate where we have come from. The past 76 years of this school. We are proud of that. Proud of our past, we celebrate our present. We are filled with hope for the future. There are challenges ahead, but we are very hopeful people, determined people. You know, I see glimpsed of sometimes that when I watch some of the competitions, and it looks like they are not going to prevail, on and are going lose spirit, and to my delight and amazement sometimes, the Irish kind of rally. You know, even if they are not going to win, they still rally in support of each other, and I just admire that sense of high ground, determination, and it's there. It fills me with much encouragement. The attitude of um, that we can do this, we can do this.

Q. If you could describe Vancouver College in one word, what would it be?

A. (Thinking... Thinking...) <assertively> Community.

Q. What is your outlook, your hopes for future years?

A. My hopes? Actually, that's a good question. I would hope that our present legal considerations are resolved justly and rightly, for Vancouver College. Its very much on the front burner, we are working very hard to see that its so. It's taking much longer than we wanted to. But we are not the only players in this situation. That is part of my hope for Vancouver College. Another hope for Vancouver College is to run the program as much as possible. To strengthen those parts of the extra curricular program. We have an outstanding athletic program. There is a lot of generosity, a lot of contributed service involved in that. I wanted to see to it that the program is secure well into the future. Um, having people on staff that have the skills

to contribute to the basketball program, the football program, the rowing program, and so on. I can't tell how much I value these things and just to share the pleasure and enjoyment of sport but also as an opportunity for character development that serves the bigger pictures. As soon as it stops the serving the bigger picture of Vancouver College, I'm not interested. I think it does serve the bigger picture as it serves it well. The performing arts, you know, we have a thousand male voice, Kindergarten to grade 12. We don't have a lot going in terms of vocal performance at the moment, but I would like to see a choir director hired. I like to have some rather formal music, but also some music that is shared in the joy of singing it coral, vocal, small group ensemble the whole gambit. Um, I like that to be among the shining stars of Vancouver College, and you know, we hope to have eventually we need a new building. This building has tremendous history, but it's old! Just look around. The building need to be replaced. On that grand day when we replace this building, we need to expand our facilities. Perhaps we need another auditorium, or two gyms. One for the juniors, one for the seniors. An auditorium with fixed seating, stage and lighting, sound booth, theatre arts studios and vastly expanded science labs. It's all there, it's all there.

Q. What would you like to say to the graduation class of 99? What plans do you have for the Grads?

A. What plans do I have for the grads? Far better question than what they have planned for themselves. I can't live their lives for them. To the Grade 12 students. Whenever I go to a new school, I'm always super conscious of the grade twelve's. The reason why I'm super conscious of the grade 12 students first is because they have been around far longer than I have been in the school community. They have in their last year now to adjust to the new guy down in the office, just like they had to get used to the guy before him. And on it goes, especially the twelve-year men. They many or may not appreciate my manner, my style, or my take on it. I try to get to know them somewhat. The present grade 12 class, I have gotten to know. I have gone to some effort not just to know them just because of any concerns that I may have. That's certainly one way to get to know them. But that's not the only way. There are some tremendous strengthens among the grade 12's. Um, much of it is very calm. Much of it is unsung by them. I would say to our grade 12 men, let your light shine a little more.

Q. Is there anything you would like to say to the staff?

A. Besides my profound gratitude toward them the staff here has been very accepting of me and perhaps even more so very supportive of my efforts with them. So I express gratitude first of all to them- well done. There is much demanded of the staff of Vancouver College.

The expectations to them is extremely high. Because we are part of an independent school, the quality of the teaching, the extent and quality of the co curricular and extra curricular involvement is very demanding. And it is on a fee paying basis. As it is in other situations. The staff is extremely generous, in contributing time, I mean, most of the staff are family people. Men and women have family commitment: spouses, children. I am super conscience of them. Um, bearing all that in mind, I am still quite impressed of the contribution they make. I guess the gratuity would be the key word.

Q. Two glasses of the wine a day supposedly helps prevent heart disease. Mr. Freire would like to ask what do you think about putting wine in the staff lunch room during lunch?

A. (Laughs). Well, um, let me make a cinch comment about that. That is not going to happen. However, if Mr. Friere would happen to want to invite me up for glass of wine, I would take him up on it anytime.

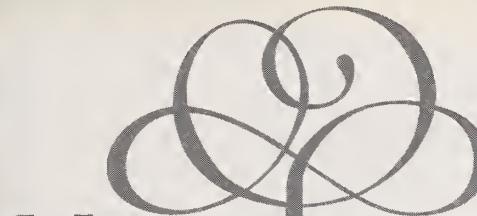

Q. You have lunch at the cafeteria everyday. What is your favorite meal?

A. Well, you got me, you got me. I like most food, but I would not say I'm a compulsive eater, but I am not hard to please when it comes to food because when it comes to food, I would eat anything. If it smells good and tastes good, well it's GREAT! But um, I like fish, seafood is my favorite, I'm a big seafood fan, and often seafood is usually fried in some way and that's not the best way I like it. I like seafood steamed with lightly steamed green vegetables. That's my favorite!

Q. If you had the chance to be any literary historical character, who would you be? Why?

A. (Smirkish smile.) I'm smiling at that question because a lot of my closest friend who have known me for a long time would answer <whisper> "Hitler". Yeah, they would say, "He really would want to be Hitler." Et that is more of an in-house joke than anything. Um, I'm a little bit hesitant to say that because there is no one. Well, let's look at Shakespeare. I mean Shakespeare had an extraordinary mind and extraordinary sensitivity to the human liberality of the people. This man could write comedies and tragedies extremely complex, and tap into internal truths about the nature of man. I have been always inspired Shakespeare. Just outstanding! I just went to see Hamlet, at the Stanley, and it is very difficult piece to stage, and it's hard to sustain the audience's interest. I don't know how many times I see a Shakespearean piece and I'm always inspired and moved and I know a little bit more about the human condition. So, Shakespeare certainly. There are times I feel like I want to be like General Patton. You know, very blunt and straightforward and a lot of pizzazz. Um, other times I would like to be Francis of Assisi.

That is quite a contrast. I certainly don't want to be locked into one persona.

Q. Where have you travelled to, and where have you taught?

A. All my teaching has been in Canada. I have not actually been around the whole globe yet. Where have I traveled? Well, I have traveled extensively in the US, Mexico, Cuba, um, Ireland, England, Europe, I mean, France, Germany, Berlin many times. One of my interests is 20th century German history, so I have traveled back to Germany 4 or 5 times. I visited the concentration camps, great war sites, and have been to the Rashid, Paris and Rome. I have been in regions that are presently experiencing war and civil strife like Belgrade, Serbia. I have been to Hanoi in Vietnam. I was a student of the Vietnam tragedy. Um, I paid my respects to Hochimien and Mao Tse Tung in Beijing, and Hochimien of course in Hanoi. As a historical thing, I am not an admirer of the communist system. Um, but I am an admirer of the determination and tenacity of the Vietnamese and Chinese people. Um, I have visited Tokyo, and I have tried to get to understand the repour relationship between the Japanese people and the Chinese people. I have travelled to Taipei in Taiwan, Manila in the Philippines, and Bangkok in Thailand. I don't know, I saw the Mona Lisa, was inspired. Saw the Sistine chapel in the Vatican, and was inspired. I went down the Colorado river in a raft through the Grand Canyon and was moved beyond belief. I, er, been around a little bit (smiles).

Q. We heard that you love fishing like Mr. Budai. Have you ever been to Labrador to fish for Atlantic salmon?

A. Yes I have. I have been down to the wild Labrador. My grandparents, you know, used to go down with the fishing crews and fishing ships, and I used to spend summers in the island from the coast of Labrador and bring back shiploads of fish. So I grew up hearing great stories of fishing expeditions around the wild Labrador. Some day, I hope I will go back and visit the islands that I have only heard the names off. I have seen some old photographs of my grandparents and my mother when she was a little girl and was also a part of that. But, um, yes, I've been fishing for salmon in the Pinware River of southern Labrador and was moderately successful.

Q. What surprised you the most about living in Vancouver?

A. The rain. I had the incredible urge to build an ark, but have resisted because everybody says that is just the way it is. I knew it was going to rain, but I never realized it was going to rain so much!

Q. Compare and contrast the Edmund Rice School with VC.

A. Well, comparisons are always a little bit dangerous because people may misinterpret the valuing of it. But I value both schools deeply, and I have given a bit of myself to both.

Representatives from the Gr. 8 Basketball team present their trophy from the Dover Bay Invitational Basketball Tournament to Br. Murphy.

There are however very different schools. I suppose the deep level, people are always the same. Fundamentally, we all need support, love care and acceptance, inclusion and measurable success in order to feel fulfilled and all those things are universal. Br. Edmund Rice in Toronto was much more of an inner city school than this school could ever be. I had a large transient school, heavy on the immigration. 67% Portuguese, um, perhaps the next largest group would be the Spanish central American mostly and then a toss up between various Asian immigrants and Eastern European: Polish, Ukrainian. Racially, you know, black, white, well, there are much stronger parts of Negro students than here at VC. There is more of an eclectic mix than Vancouver College seems to be. There are some outstanding students at Edmund rice school. They are more extroverted. They emote more readily, and they are very affectionate, very communicative. Vancouver College, first of all, is a all male school and Edmund rice school is co-ed. The guys over

## The Vancouver College Alumni Association

"Congratulations to the Grads of 1999! "

here are a little bit cooler here, although they seem to be and tend to be a little more reserved. Although there is always a time which they allow themselves the freedom to be very expressive and very affectionate even in appropriate kind of ways. I admire that when that happens because it tells me that they are very confident and self defined and it is ok to smile, even ok to hug someone, and express joy or whatever. That's maturity, that's confidence. Students of Edmund Rice did that all a little bit more freely than we tend to. Yeah very different.

Q. If you had the time, what would you like to teach? Which course would it be?

A. The grade 12 religious education and any of the social studies courses: world history, world geography. I've taught math, English, and science. Yeah, If you asked me what I would like to teach, it would be senior religion and senior history.

Q. Where do you purchase your three piece suits?

A. Well at Harry Rosons only (laugh). Well first of all, this is only a two piece suit. They like my suits? [yes] well I'm glad to hear that. I bought this suit, if you need to know, and I will tell a little story about it, it won't take too much time, over at Richmond. Actually I believe it was called, I believe it might have been the suit people, or maybe it was Moore's. Well, I thought maybe it was time for a new suit, like how the minister of finance before he delivers his budget in Ottawa. He goes out to buy a new pair of shoes just for the occasion. So I was about to become the principal of

Vancouver College, so I needed a new suit. Br. Rowland and Br. Newman and I went to a store. A gentlemen who served Br. Newman brought him to such a such a section, and then he turns to me and says "Now Sir, you will have to come down to the portly section." Well, I gonna tell you it did not go over to well, but anyway, I bought my suit in the portly section of Moore's suit people.

Q. Do you have any regrets from leaving Edmund Rice School?

A. No, not at all. I don't waste my energy on regrets, even if there were, it would only be momentary. I would let go so fast that I would not want to be there. That's wasted energy. I'm not interested in regrets.

Q. Everybody is wondering if you would consider changing the school to a co-ed system?

A. Everybody? Well, I, you know, I'm not adamantly opposed to the possibility. To point the fact, that at one of my other schools that I was the principal of the last all boys high school in Newfoundland and a part of the mandate I had as principal of the school was to facilitate, to see to it that it goes through the transition of a fully co-ed school. It wasn't phased in, it was all done in one year. So I, um, did that. They told me it was done well. It was good preparation the year before and the year after, the students experienced. So, been there, done that. I'm certainly not opposed to that. Certainly, I believe that most high schools should certainly be co-ed, but I believe with equal strength in the age of parental choice, there should be some single sex schools available. People should be able to choose freely to go

into an all male or all female school and if that is a big issue for them for whatever reason far be it from me to double guess what those reasons are. There are many schools to choose from including co-ed Catholic schools. So, I guess your specific question is am I open to making Vancouver College a co-ed school. Well, I see no compelling reason to do that at the moment. Therefore I don't intend to.

Q. Do you have any final words before we close?

A. Well, either than to say that I'm growing to like Vancouver College to the point that I love this school, and this school community very much. I want to count myself amongst the schools great advocates, defender of the school. Internally, I will continue to make demands for improvement, and behavior and standards and all that. I know it sounds cliché, but it's only because I love the place so much, and anything less to that in my view would be neglect. And if my leadership role I would not want to say that I have neglected the kinds of encouragement and demands necessary for us to be as good as we can be. You know sometimes, we can say to each other, you're better than that. People can say that to me and vice versa. Sometimes, in so many words, I have to say not only to the students, but also the staff, teachers and support staff, that I think we are better than this. We can and should do better. Um, so, I'm going to love Vancouver College, and I'm very, very happy to be here.

Name of deceased: Maurice Powell  
Date of birth: June 2, 1917.  
Date of death: January 2, 1999.

Maurice Powell was born in England in 1917 and emigrated to Canada about 8 years later. They settled in Quebec. He grew up to fight in WWII as a member of the Devil's brigade that fought in Italy. He met his second wife during the war — she was in the army too (his first wife died leaving him with an infant daughter). Together they had eight children raising them on a farm in New Brunswick where my grandma was from; then in a small town near Montreal. When he retired my grandparents moved to southern Ontario. There he pursued his hobbies. He died leaving behind a wife, nine children, sixteen grandchildren, and one great-granddaughter.

Name of submitter: Brother Ron Squires  
Name of deceased: Brother Edward Albert English C.F.C  
Date of birth: August 21, 1907.  
Date of death: October 09, 1998.

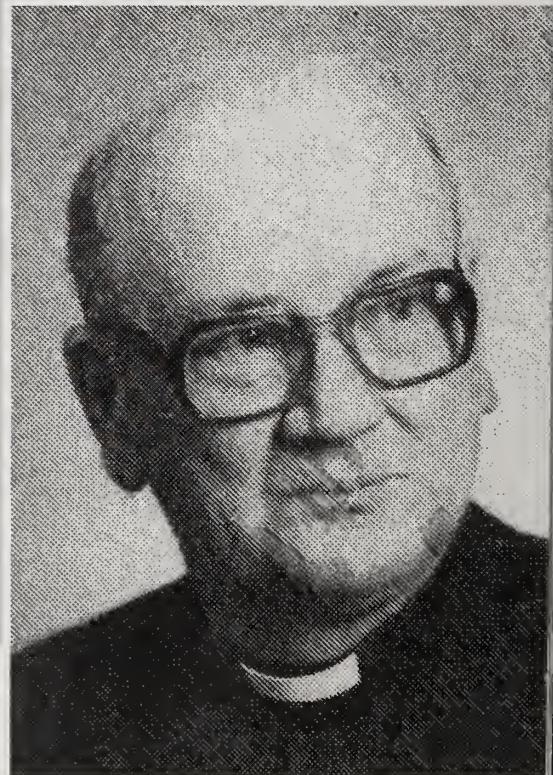

Brother Edward English was born in St. John's, NF on August 21, 1907. In 1923 he became a Christian Brother and remained with order for 75 years. Brother was a member of the Vancouver College community in the 1920's. After his stay in Vancouver, he was assigned to St. Louis College in Victoria where he spent eighteen years as teacher and principal. His other teaching assignments took him to Newfoundland and Quebec. In 1985 he came back to Vancouver College where he stayed until his death in 1998. Brother English will always be remembered for his gentle nature and kindness to all.

Name of deceased: Brother Dermot Pearse (Felim) Nash  
Date of birth: May 3, 1938, Saint John's, NF.  
Date of death: January 9, 1999, Vancouver, BC.

Having completed his early schooling in St. John's, Brother Dermot entered St. Joseph's Juniorate in West Park, NY on September 1, 1938. From there he began his formation at Santa Maria Novitiate in 1939. He later received his B.Sc and M.A (Fordham). After a number years as either teacher, principal, and/or community leader in New York and Newfoundland, he was missioned to Vancouver College in 1963. In 1967, following two years of Doctoral studies (Ottawa) he returned to VC, and from there to full-time professor at Memorial University in St. John's, NF. Retiring from MUN in 1985, Brother Nash again returned to VC, where along with teaching duties he was Vice Principal 1985-1989.

In September 1998, friends and relatives celebrated Brother Dermot's 60 years of religious profession and dedicated service.

Name of submitter: Mrs. Irene Slater.  
Name of deceased: **Terri Patricia Slater**  
Date of Birth: November 1988  
Date of Death: June 1998

Terri was the daughter of our son Roger, who was at VC in 1981/82. She fought a recurring brain tumour for two years and through three surgeries, and finally went to her rest on the night of graduation last year at age nine. She touched more people in her short life than most of us do in a whole lifetime. Her favourite flowers were sunflowers, and they truly reflect her bright, happy nature and the joy she brought to all of us who loved her.

Name of submitter: Margarita Rahn & Jonathan Rahn  
Name of deceased: **Luis Lara**  
Date of birth: December 29, 1975  
Date of death: January 7, 1999

Luis contributed to several Mayfairs and volunteered at all times for other school events. He passed away from leukemia on January 7, 1999.

From his aunt, nephews, and all other family members in Vancouver:

Calm and peaceful he is sleeping,  
Sweetest rest that follows pain;  
We who loved him sadly miss him,  
But trust in God to meet again.  
We think of him in silence,  
No eyes can see us weep  
But still within our aching hearts  
His memory we keep.

Margarita Rahn

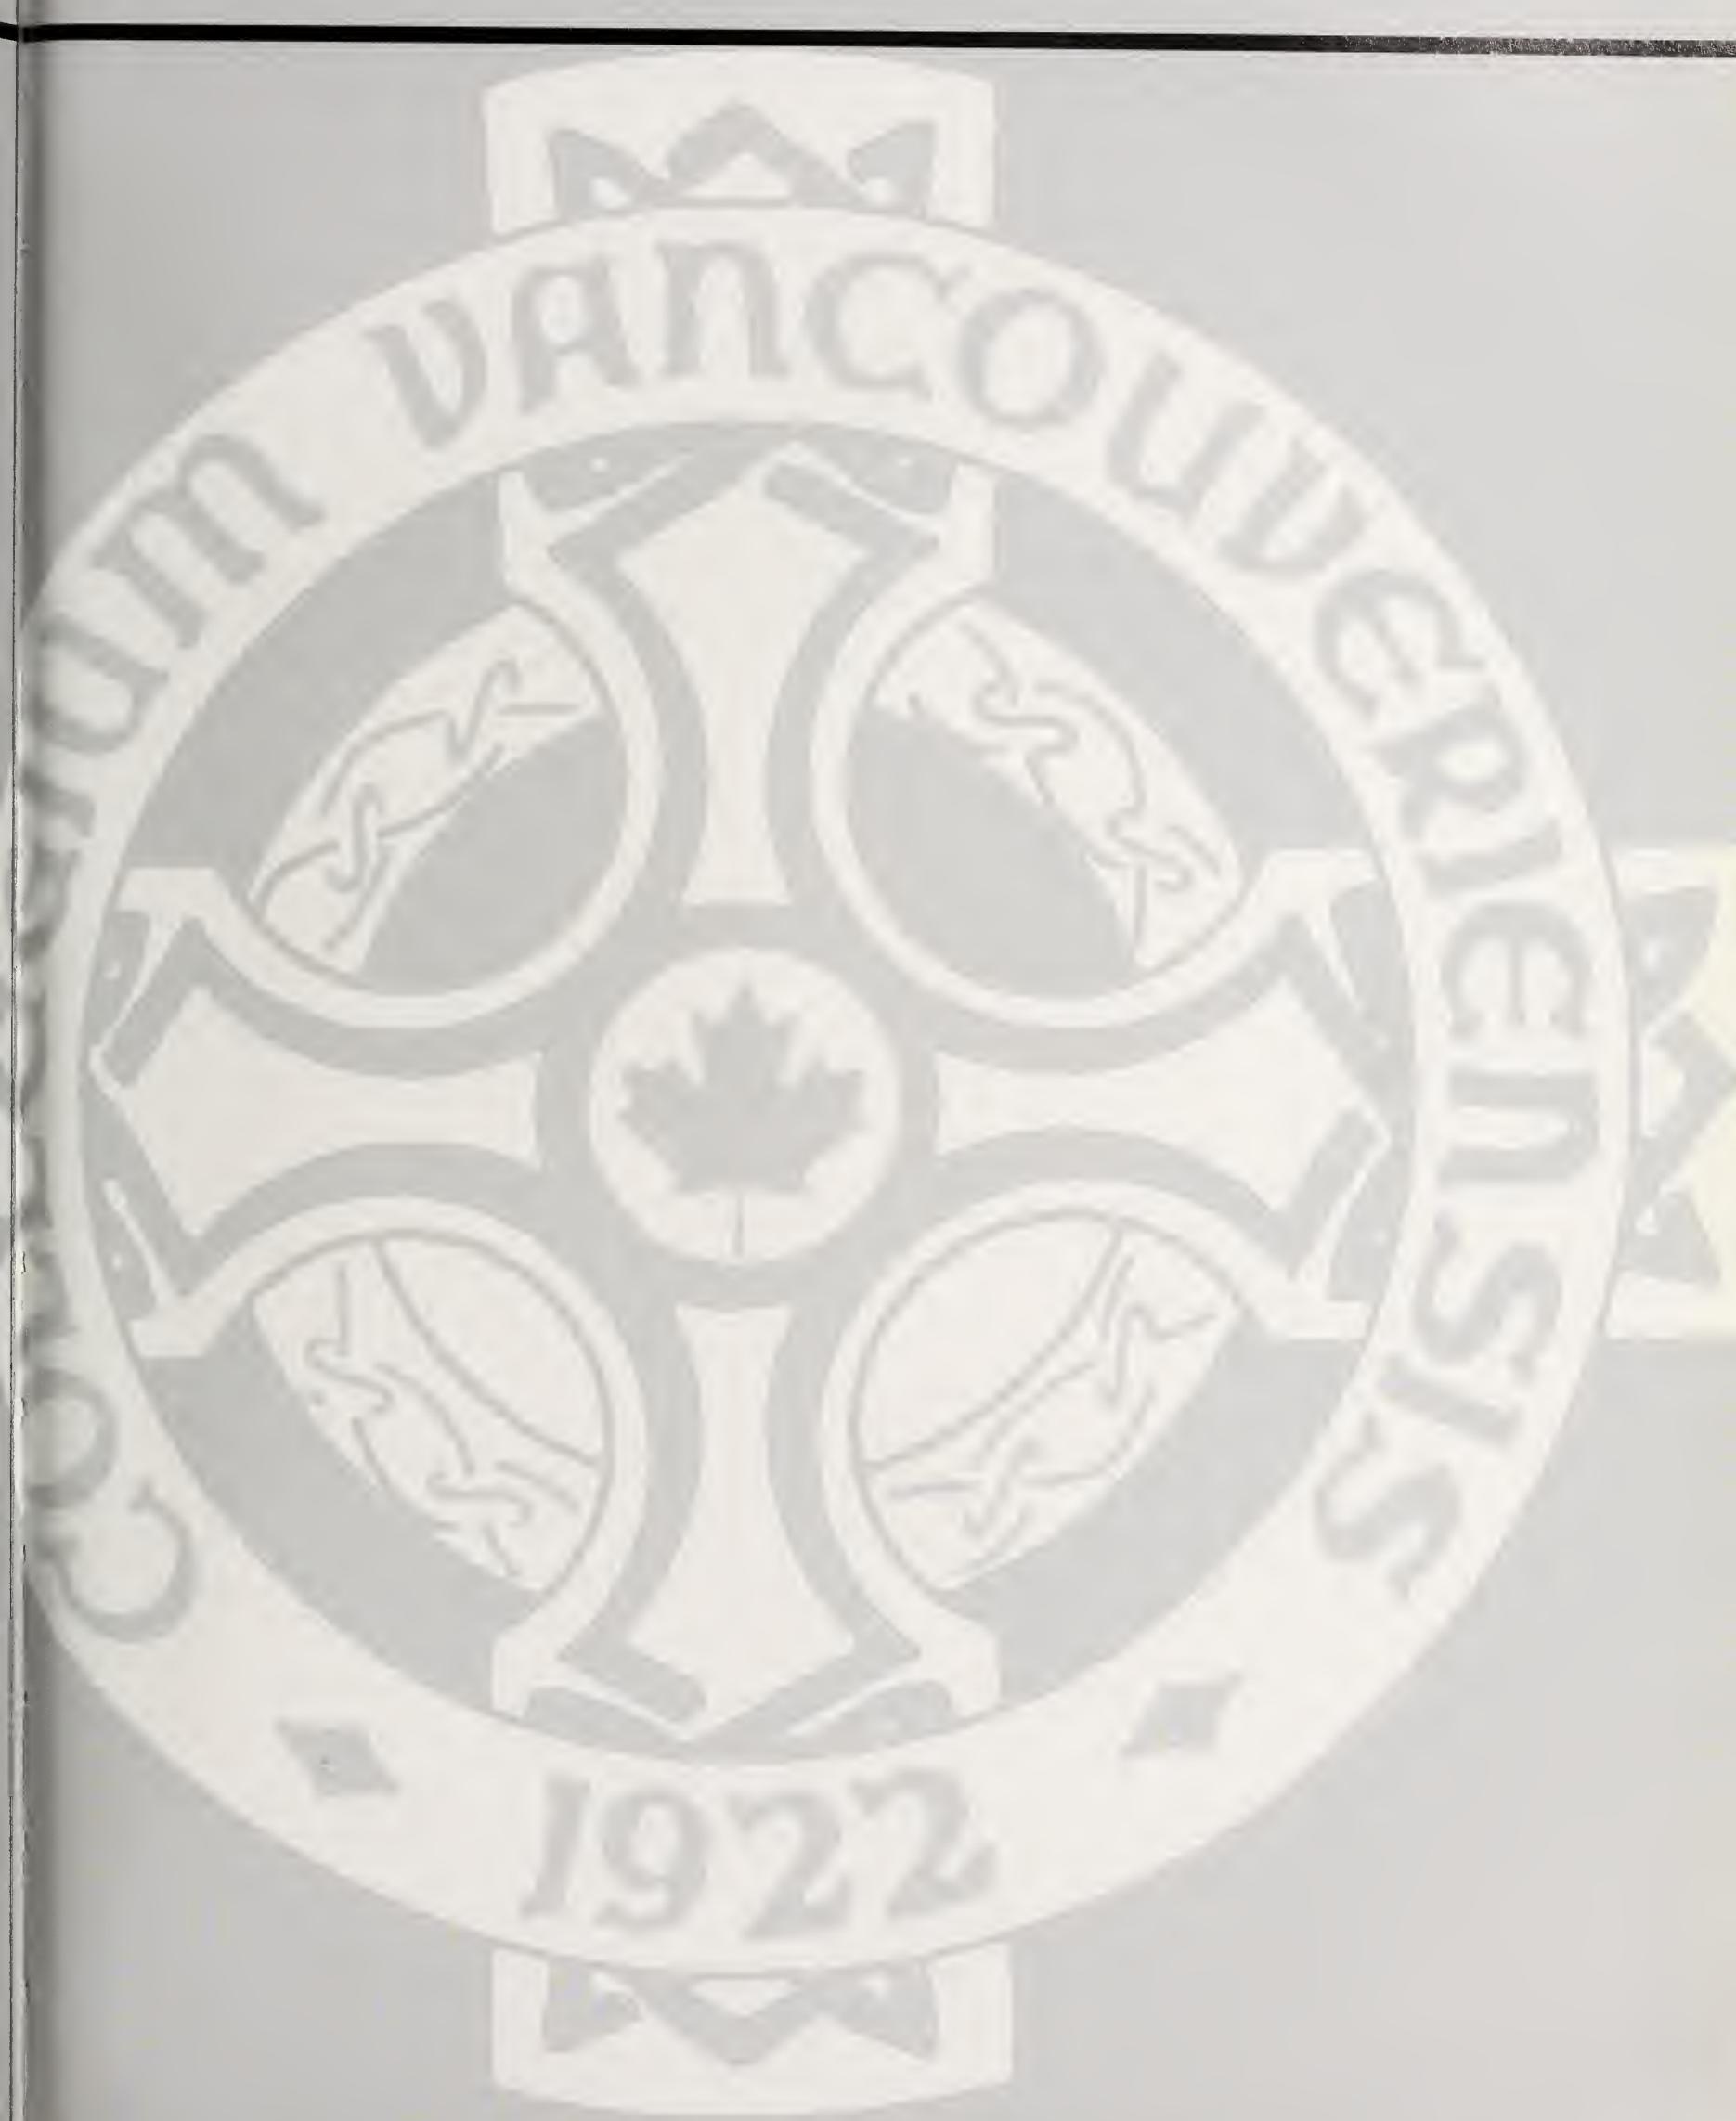

Name of submitter: C.F. O'Hagan (Cousin)  
Name of deceased: **F. Paul Cantwell**  
Date of birth: August 5, 1912  
Date of death: February 11, 1999

Early schooling at Lloyd Roberts school in Vancouver - starting in 1918. Then changed to Vancouver College in 1922 - Graduated in 1930. Started in Lumber business in 1932 - Worked at Seaboard Lumber Sales Co for 10 years then moved to Canadian Forest Products Co - Later became CANFOR - Retired in 1971 as Sales General Manager after 29 years service - Played tennis all his life as an excellent player.
